

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

#### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + Maintain attribution The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <a href="http://books.google.com/">http://books.google.com/</a>

#### INTRODUCTION.

To meet the extensive demand for an Atlas which shall give, in a conveniently small size, and at a small cost, all the salient geographical, descriptive, and statistical items of information usually found in larger and more expensive works of this nature, the publishers have prepared, with the greatest care and at considerable outlay, this NEW HANDY ATLAS, and confidently submit its first edition to the practical judgment of the public.

A separate Map, either single or double page, accompanied by one or two pages of reading matter, is devoted to each State and Territory in the United States, and to each Province of the Dominion of Canada. The maps are colored by counties, and, while perfectly clear and legible, show a wonderful amount of detail. They are revised up to the date of issue, and show every railroad in operation and all towns of any importance, the county seats being designated by special heavy-faced type. The reading matter is so arranged und r sub-heads as to make it easy to locate, at a glance, any particular subject. It is necessary to study a few of these pages in order to appreciate the wonderful amount of information they contain. In each will be found a brief is historical sketch; all important data regarding area and population, physical and climatic features, and the principal cities; statistics pertaining to agricultural and mineral resources, the manufactures, commerce, trade, and transportation; a review of the educational system, the most important State institutions; a synopsis of the principal constitutional and legal features, and, finally, an alphabetical list of the counties with their area and population, and so indexed that any county can readily he located on the respective map.

To all this is added a Ready Reference List of all cities, towns, and villages, taking up no less than 187 pages. The names are alphabetically arranged within each State or Territory, and there can be ascertained at once the following information regarding each place: In which county it is situated; the geographical position of the county in the State or Territory; whether or not it is a postoffice, railway station, and express office; whether or not it is the county seat; and, finally, its population according to the census of 1890. All populations ascertained by the census enumerators are given, and where no population is given the place is, without exception, so small that the census reports did not give the number of its inhabitants.

There is not a page in the Atlas which was not especially compiled and prepared for it. Every item is either directly based upon the eensus reports

of 1890, or, when a subject is not covered by them, upon the best obtainable data. The information is of such an extent that it is, in fact, a complete *Pocket Encyclopedia* of the United States and Cannda, infinitely enhanced in value by the accompanying excellent maps, which the publishers thus place before the reader.

Recognizing the fact that a similar amount of detailed information regarding foreign countries would have enlarged the volume far beyond its necessary limit, a system of skeleton maps has been devised, showing, in a remnrkably plain way, their political divisions and chief cities. These skeleton maps are accompanied by reading matter giving, in tabulated form, the principal statistics concerning all countries, their capitals and largest cities, and principal articles of export and import.

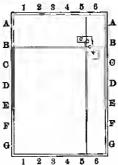

Special intention is called to the vast amount of additional statistical information, concerning the United States as well as all foreign countries in the world, which is incorporated in the Colored Diagrams. The data they contain are based upon the latest census and official reports, and they are made in that clear, striking, and attractive manner which has won so much approval in former works issued by this publishing house. They show the area and population, agricultural and mineral products, and the commercial and financial conditions of nations, as a map does the geographical features of their countries, offering an unrivaled means for comparisons between our own and all foreign countries on the face of the globe.

The publishers issued a similar ntlas on the basis of the tenth census, that of 1880, which met with such appreciation that its editions ran well up into the millions. They believe that, in colarging greatly its scope, while maintaining the general plan, they have succeeded in offering to the public in the present volume a better work than any one of its kind ever made.

RAND, McNALLY & CO.
CHICAGO AND NEW YORK.

#### EXPLANATION.

The index letter and figure following the name of a county, in the list glven for every State and Territory, refer to that point on the map at which lines, if drawn between the respective marginal letters and figures, would cross each other. For example, to find "Cook County, B-5," let the diagram below represent the map; Cook County is found near the crossing of lines B-B and 5-5.

In the list of principal cities given with each continent, the capitals of all countries are designated by special heavy-faced type.

In the Ready Reference List of all cities, towns, and villages, alphabetically arranged within each State or Territory, the name following immediately that of any place, is the name of the county in which the place is situated. The capital letters following the name of the county indicate its geographical position in the State, thus:

N.—North. W.—West. N. W.—Northwest. S.—South. N. E.—Northeast. S. W.—Southwest. E.—East. S. E.—Southcast. C.—Center.

The following abbreviations indicate whether or not the place is a postoffice, railway station, or express office, thus:

Po.—Postoffice. Ry.—Railway station. Ex.—Express office.

The county seats are d-signated by special heavy-faced type. The figures set to the left of the names of places give their populations according to the census of 1890.

# STATES.

HISTORICAL. — A republic comprising the central portion of North America and the Territory of Alaska in the extreme northwest. It consists of 44 States, the Federal District, and 6 Territories. This to the national domain was acquired through the Revolution of 1776, and the confirmation and recognition by Great Britain, at the Treaty of Paris, 1783, of the Independence of the United States, and through the Louislana purchase of 1803; the purchase from Spain of the East and West Floridas, 1819; the annexation of Texas, 1845; treaty of Guadalupe Hidalgo, 1848; the Gadsden pur-chase of 1858, and the purchase from Russia

of Alaska, 1867. The cost of territorial extension bas been \$69,450,000.

AREA, ETC, — Total area, exc.usive of Alaska, 8,025,600 square miles; land surface, Alaska, 5,025,000 square miles; land surface, 2,970,000 square miles; extreme length, from Atlantic to Pacific, 2,760 miles; greatest breadth, north and south, 1,600 miles. United States frontier over 11,000 miles—3,500 miles sea coast, 1,600 miles gulf coast, 1,500 lake coast; land frontier beautiful Side of the coast. ler about 4,880 miles. Greatest elevation, over 18,000 feet. Center of area, excluding Alaska, is in Northern Kansas; approximate latitude, 99° 55'; longitude, 98° 50'; about three-fourths of a degree north and over 13° west of the

of a degree north and over 13° west of the center of population.

POPUL VIION.—In 1624 there was an immigration to the colonies of 9,000; in 1649 the population of the colonies numbered 15,000; 1689, 200,000; 1715, 424,600; 1733, 750,000; 1000—1610 of United States, 1776, 2,243,000; 1700, 3,929,214; 1800, 5,308,183; 1810, 7,243,681; 1820, 5,683,832; 1830, 12,866,000; 1846, 17,000,403; 1850, 23,101,876,1870, 23,200,888; 1850, 23,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,876,1870, 23,200,888; 1850, 28,101,870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,888; 1850, 28,101,870,1870, 28,200,880; 1850, 28,101,870,1870, 28,200,880; 1850, 28,101,870,1870, 28,200,880; 1850, 28,101,870, 28,200,880; 1850, 28,101,870, 28,100,880; 1850, 23, 191, 876; 1860, 31, 443, 321; 1870, 38, 900, 898; 1880, 50, 153, 783; 1890, 62, 638, 250. Classification: Mal. 32,037,889; female, 30,554,370; native, 53,373,703; foreign, 9,249,547; white, 54,983,890; colored, 7,538,330—Africans, 7,470,040; Chinese, 107,475; Japanese, 2,030; Indians, 58.806. Center of population is near Greensburg, Decatur Co. . Indiana. Latitude. 32° 11' 56": longitude, 85° 33' 53".
PRINCIPAL CITIES.—New York, the

commercial metropols and largest city; Chicago, the metropolis of the West, second in size; Polladelphia ranks third, and Brooklyn fourth; St. Louis, the commercial center of the middle Mississippi Valley, is fifth in importance; San Francisco, the most important commercial point on the Pacific Coast, ranks eighth; New Orleans, the chief city of the

Gulf States, ran stwelfth.

URBAN POPULATION. — The urban population in 1890 was 18,235,670, or 29.12 per cent of total population. North Atlantic Division contained 49.22 per cent of total urban population; South Atlantic, 7.79 per cent; North Central, 31.76 per cent; South Central, 6.29 per cent; Western, 4.94 per cent. In 1790, six cities had a population of more than 8,000, number increased to 286 in 1880, and 443 in 1890. In 1880 but one city had a population in excess of 1,000,000, in 1890 there were three. In 1870, fourteen cities each had 100,000 or more lababitants; number increased to twenty in 1880, and twenty-eight in 1890.

AGRICULTURE.—Agriculture holds the first place among the national industries. Total value of all exports, 1890, \$872,270,283; of this sum agricultural products furnished \$642,751,000. Principal staples, the cereals, cotton, tolacco, sugar, hay, and potatoes. Area and yield of principal cereals, 1891: Corn, 76 204,515 acres, yield, 2,060,154,000 busbels; wheat, 39,916,597 acres, 611,780,000 bushels; cats, 25,581,861 acres, 738,394,000 bushels. Cotton, 19,580, 617 cores, 684,000 bushels. 617 acres, 8,674 000 bales. Latest returns give area under tobacco, 692,990 acres, yleid, 488,-255,896 pounds; sugar, 508,680,000 pounds; molasses, 29,200,000 gallons; hay, 38,591,903 acres, 46,643.094 tons; potatoes, 2,533,280 acres, 202,-365 000 bushels.

HORTICULTURE .- Fruit culture is an important interest. All varieties of the temperate zone are usually produced in abundance in the central and northern sections; the tropical and seml tropical fruits are cultivated only in the warmest parts. Grape culture has become a profitable industry; area under vineyards, 1889, 401,261 acres 307,575 acres bearing vines; grapes sold for table use, 267,271 tons; to wineries, 304,868 tons; wine made, 24,308,905 gallons; raisins produced. 1,372,195 boxes. There are 271,428 acres under tropic and semi-tropic fruits and nuts; total value of product, 1889, \$14,116,226, of which \$6,662,099

represented the value of oranges,
LIVE STOCK,—Between 1881 and 1891 live stock on farms increased from 130,969,581 to 169,216 813. Number of borses, 1891, 15,498.140; inules, 2,314,699; milcb cows, 16,416,351; oxen and other cattle, 37,651,239; sheep, 44,938,365; swlne, 52,398,019. Increase in exports of cattle and meat bas been enormous. Fresh meat shipments in refrigerator ships first made in 1877 ments in refrigerator snips inst made in 1877. Total quantity of all beef products sbipped in 1877, 179,838,946 pounds—tallow, 91,478,803 pounds—value \$15,887,091; shipments, 1891, 507,229,428 pounds—tallow, 111,689,2 1 pounds—value \$35,688,315. Number of beeves exported in 1877, 50,001; value \$35,080, 1891, 374,679, value \$30,445,249. Exports of bacon, hams, to 1897, 851,872,679, 821 pounds, value \$49,483,900. value \$30,440,249. Exports of bacon, nams, etc., 1881, 854.872.631 pounds, value \$69.483,490; 1891, 681,221,904 pounds, value \$50,494,375: lard, 1881, 378,142,496, value \$35,226,575; 1861, 408, 343,927, \$34,414,323. Number hogs exported, 1881, 77,455; 1891, 95.654.
MINERALS.—The mining interests are large and varied. Total value of all inheral

products in 1889, \$587,230,662, an Increase during the decade of \$217,911,662. United States furnishes a large proportion of the world's supply of gold and silver. Value of the total product from 1792 to 1890: Gold, \$1,872,533,518; product from 1722 to 1890; Gold, \$1,872,539,516; silver, \$999,627,702; value of product 1890, gold, \$32,845,000; silver, \$70,484,645. Iron ore is mined in nearly all the States; quantity pro-duced in 1899, 14,518,641 long tons, value \$33, 351,978; 1880, 7,120,362 tons, value \$33,156,957. United States the largest copper producer in the world; product of mines, 1690, 265,115,133 pounds, value \$30,848,797; lead mining one of the great industries, output, 1889, 182,967 short tons, valued at \$16,137,689; product of zinc mines, 58,860 short tons, value, \$5,791,824; country ranks second only to Spain in quick silver; in 1830 the product was 26, 184 flasks, worth \$1,190,500. Coal area, exclusive of Rocky Mountain and Pacific Coast regions, 98,700 square miles. Total product of all mines, 98, 703 quare times, 103m product of an innes, 1889, 141, 225,613 lons, value \$94,346,809; anthracite, 45,900,487 tons, 965,870,514; petroleum product, 1890, 45,822,672 harrels, value \$35,365,105; value of natural gas, \$18,712,725; among other minerals produced are nickel, manganese, aluminum, salimony, phosphate rock, salt, etc. RUILDING STONES —Large quantities of building stones of many grades and varieties

are quarried. Value of the stone product, as shown by the eleventh census, was \$53,035,020—Limestone, \$18,045,179; granile, \$14,464,005; sanistone, \$19,816,057; marble, \$3,483,170; slate, \$3,483,513; bluestone, \$1,83,606.

PISHERIES.—The United States fisheries

form an important and valuable industry; those of the Great Lakes are the most extensive lake fisheries in the world; during the past decade more than 1,000,000,000 pounds of food fish have been taken in these waters; capital employed, 1890, \$2,832,999; total catch, 117,085,568 bounds, an increase over that of 1880 of 48,343,508 pounds, value of calch, 1860, \$2,615,784. Over two-thirds the entire yield consists of herring, trout, whitefish, and stargeou. Facific coast fisheries employ 19,8 0 people with a capital of \$9,393,239; value of fotal yield, \$0.387,893; salmon fishery the most important branch of the industry; in 1890 the 63 salmon cameries utilized 44,682,239 pounds of fresh salmon and produced 622,037 cases, valued at \$3,703,878. Capital invested in whale, fur seal, and sea-otter fisheries, \$2.081,638; sive lake fisheries in the world; during the fur seal, and sea ofter fisheries, \$2.681,636; value of all products, 1830, \$1,834,551, of which \$1,709,568 belonged to the whale fishery and \$124,963 to the fur-seal and sea-ofter

industry.

MANUFACTURES. The manufacturing and carried on upon an extensive scale. In the manufacture of flour the country leads all others. In the textile industries it ranks second only to England. In 1869, the combined textile industries—week, cotton, and silk—land a capital of \$701, 522,601; value of products, \$693,048,702—wood, \$387,768,524; cotton, \$267,581,724; silk, \$87,298,451. Increase in value of product in 10 years, \$102,672,531. Percentage of increase of collection distances of collections of the control textile industry, 38.51 per cent—silk manufacture, 113.75 per cent; cotton, 38.51 per cent; wool, 28.39 per cent. Average increase in wages paid, 64.71 per cent, Steel and Iron manufactures are great and increasing industries. tries; steel production increased from 1,145,-711 tons in 1880 to 4,466,936 tons in 1890, an increase of 290 per cent; of the total product, 8,788,572 tons were Ressener steel; pig Iron production, 1890, 9,570,779 tons, an increase since 1880 of 5,785,768 tons, or 150 per cent. Among other important manufactures are lumber and wood—curriages, wagons agricult ural implements, etc.; metal working indus-

valued at \$872,270,283—agricultural products, \$642,751,000; manufactures, \$183,927,300; minerals, \$22,054,900; products of the forest, \$28,-715,700; fisherles, \$5,206,500; Leading articles of export were cotton, \$290,712,800; provisions, meat, and darry products, \$139,000,000; wheat and wheat flour, \$100,125,800; mineral cits, \$45,150,0 0; animals, \$32,935,660; iron and steel, including ore, \$28,909,600; corn and corn-meat, \$18,540,000. Imports amounted to ever \$845,000,000; principal articles, sugar, molasses, coffee, manufactures of wool, flax, hemp, jute, from and steel, silk and cotton, and hides, humber, and furs.

\*\*TRAILWAYS\*\*, FTC.\*\*—First rallway in United Stales, employing steam power, built

United States, employing steam power, built by Pelaware & Hudson Canal Co., from their mines at Honesdale, Pennsylvania, 1828. Number miles rallway at the close of 1830, 23; 1825. 5er intes tanviy at the Frese to 1568, 25, 1825, 1,098; 1840, 2,818; 1816, 4,00; 1850, 9,021; 1856, 18,374; 1860, 30,626; 1875, 35,935; 1870, 52,922; 1876, 74,658; 1880, 132,96; 1885, 128,931, 170,601. Capital stock of railroads, \$4,809,173,651; funded debt, \$5,235,215,-074, 1870, 1891, 170,601. 764; unfunded dett, \$345.882,563; gross earnings, \$1,138,024,458; net earnings, \$356,250,850, Transportation fleet of United States numbered 25,540 craft-steamers, 6 067; sailing

vessels. \$912; unrigged craft, 10,591; total tomage, 7,633,676 tons; value, \$415,069,286; uncount of freight moved, 172,110,423 tons.

POSTAI.—Total number pust offices, 64,966; number presidential, 3,104—129 first class, 597 second class, 2,378 third class; number fourth-class offices, 61,861; money-order offices, 10,642. Accreased cluster to forst rutes. 489. 10,047. Aggregate length of post routes, 450,-027 miles; revenue, 1891, \$05,231,780; expenditures, \$71,660,463; postmasters' salaries, \$14,-527,000; cost of transportation of the mails,

PUBLIC LANDS .- The public demain originally embraced 2,889,175 square miles, or originally embraced 2,889,175 square miles, or nearly two billion acres of land. June, 1891, the total aren of the unappropriated public lands—exclusive of Aluska and the Cherokee Strip—was lunt 905,728 square miles; of this area 328,125 square miles are useless for agriculture. The Cherokee Strip contains 12,589 square miles. The public lands lie in 22 States and 5 Territories. Landentered under Homestead Act, 1809-91, 5,649,283 acres; taken up under Timber Culture Act, 809,008 acres.

GOVERNMENT.—Under the Constitution of the United States the Government is

of the United States the Government is intrusted to three great departments—executive, legislative, and judicial. The executive power is vested in a president, elected every four years, who is assisted by a Cahinet of eight members. The legislative department consists of a Congress of two houses, the Senale and the House of Representatives. Senators are elected by the Legislature of each State for a term of six years. Members of the House are elected by the people for two years; number for each State allotted in proportion to its population, if or 178,001. Senate consists of 88 members, House of Representatives of 856. Judicial department includes a Suprema tries—foundries, machino shops, stove works, court, a specific muniter of circuit and district eta; teather glassware, and pottery.

COMMUNICE—Exports and imports in consists of a Chief Justice and eight associate 1800 amounted to \$1,729,397,000; exports were justices.

" Pine Tree Stale."

Bignifies-" The Main" or " Mainland,"

HISTORICAL .- Maine coast and rivers | State has 89 establishments, with a capital of misrokilvala-Maine coast and rivers expored by French, 1604 and 1605. Territory first called Acadia. Earliest settlement—by English-made 1607, at mouth of the Kennebec, Gorgiana, (York) chartered 1624. From 1652 to 1819, Maine was known as "District of Maine," governed by Massachusetts. It was the tenth State to enter the Union, being admitted March 15, 1820.

mitted March 15, 1820.

AREA, ETC.—33,00 square miles; land, 29,895 square miles; water—one-tenth—3,145 square nitles. Extreme length of State, 350 square lines. Extreme length of State, 500 miles; breadth, 210 miles; shore line, about 2,500 miles. Principal rivers, Penobscot, Kennebec, Androscoggin, Saco, St. Croix, Arosatok, and St. John, latter drains 6,000,000 acres of Maine territory. Moosehead, the largest lets near 100 companying Mount Valut dislake, urea, 190 square miles. Mount Kahtadin,

5,85 feet, highest mountain in State, CLIMATE.—Temperature of Portland. Winter, 23° to 38°; summer, 33° to 69°. Highest recorded temperature in State, 97°; lawest. -21°. Mean annual rainfall: Eastport, 49.25 in bes: Portland, 42.68 luches.

n bes: Portland, 42.68 luches. POPULATION.—Maine ranked eleventh In population in 1790, fourteenth in 1800 and 1810, twelfth in 1820 and 1830, thirteenth in 1840, sixteenth in 1850, twenty-second in 1860, Japanese, 1; Indians, 559.

PRINCIPAL CITIES. — Portland, me-

tropolis and chief seaport, population, \$6,425; Lewiston, important manufacturing center, ranks second, population, 21,701; Bangor, port of entry and a leading center of the lumber industry in the United States, population, 10,763; Biddefard ranks fourth, population, 11,43; Aubern ranks fifth, population, 11,250; AGRICULTURAL—Among New England States, Maine ranks first in live stock. Total

States, Maine ranks first in live stock, Total value of farm animals, 1892, \$20,605,604. Horses lead in importance, number 110,719; value, \$0,850,209. In cereal productions Maine ranks second to Vermont. Most important

ranks second to Vermont. Most important paupers, and untexed Indians excluded.

INDUSTRIES,—Anong the most important are the hunber industries, fisheries, quarties, and cotton and woolen manufactures.

Maine ranks next to Massachusetts in fisheries.

etact, or days; registration required; women, and untexed Indians excluded.

LEGAL.—Statutes of limitation: Judgments, 20 years; notes—witnessed, 29 years; ries, and cotton and woolen manufactures. redemption of tax sales, 1 year. Legal intermation ranks next to Massachusetts in fisheries.

State has 89 establishments, with a capital of \$9,700,855, engaged in the wool industry.

QUARRIES.—Malno ranks second in the production of granites, number quarries, 258; total product 1899, 6,701,345 cubic feet, value, \$2,220,899; increase during past decade, 80,39 per cent. Ranks next to Pennsylvania and Vermont in slate; output, 43,500 squares of rooting slate, value, 824,000. In the value of all linestone products. State ranks sixth: In all Itmestone products, State ranks sixth; In the manufacture of lime, leads all others; number of barrels of lime made, 1889, 1,003,639, value, \$1,523,499.

RAILWAYS, -Maine had 11 miles of rallway in 1840; 245, 1850; 472, 1860; 521, 1865; 786, 1870; 980, 1875; 1,005, 1880; 1,135, 1885; 1,338, 1890; 1,388, 1891. One mile of railway to each

1890; 1,283, 1891. One mile of railway to each 23.9 square miles.
EDUCATION.—Number pupils enrolled in miblic schools, 139,679; text books furnished by all schools school age, 4-21. Free high schools established in 1873. Howdoin College, Brunswick, founded 1791, number of students, 271; Cohly University, Waterville, founded 1890, 180 students; Bates College, Lewiston, founded 1863, 189 students.
POSTA L.—Maline has 1,125 post offices. There are 57 presidential offices—2 first class, 6 second-class, 46 tblrd-class; of fourth-class offices there are 1,668; 147 money-order offices

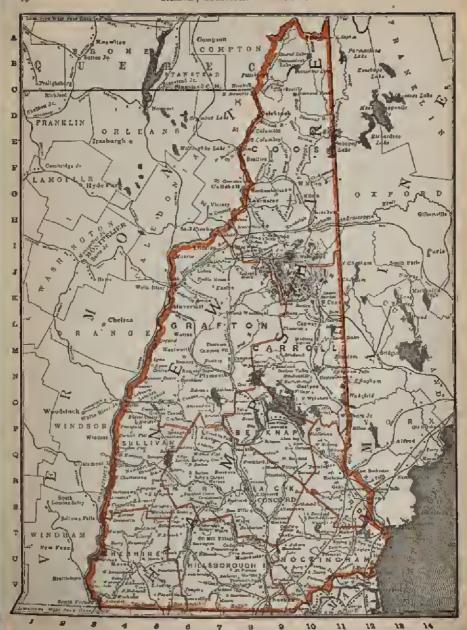

offices there are 1,068; 147 money-order offices

and 4 postal note

LEGAL HOLIDAYS. — February 22, May 26, July 4, December 25, first Monday In September, Thanksgiving.
CIVIL WAR. — Maino furnished a total of 70,107 men during the war: 61,973 white troops.

70,107 men during the war; 61,973 white troops, 5,030 sailors and marines, and 104 colored troops. Aggregate number of deaths, 9,338. State bas 17,819 pensioners on the rolls, FOLLTHOAL — State elections, second Monday in September; conpressional and presidential, Thesday after first Monday in November; number of Senators, 31; Representatives, 151; sessions, biennial in odd-numbered veges mentioned by the Land sentatives, fol; sessions, olemnal in odd-num-bered years, meeting first Wednesday in Jan-uary; limit of session, none; term of Senators and Representatives, 2 years. Number of electoral votes, 6; number voters, 20;241. Voters must be actual citizens, residents of State, county, and town 8 months, of pre-clact, 60 days; registration required; women,

#### Na Hamp'shire, "Granite State." NEW HAM

Named after the County of Hampshire, England.

HISTORICAL - One of the Thirteen Original States; adopted and ratified the Con-stitution June 21, 1788; the ninth State admitted. First settlements made by English, at Portsmouth and Dover, 1623; Exeter and Hampton settled 1638 and 1639. State constitution adopted 1784; amended 1790; revised and amended 1876; present constitution

adopted 1877.

AREA. - 9,305 square miles; land area, 2005 square miles; wuter, 300 square miles; greatest length, 430 miles; breadth, 45 to 100 miles. Famed for the beauty of its mountain and take scenery; one-seventh of total area occupied by White Mountains; highest eleva-tion, Mount Washington-6,288 feet. Area of lakes, 110,000 acres; Lake Winnipiscopee, the largest, 24 miles in length. State has 18 miles of sea-coast; Portsmonth only good harbor. Streams afford unrivaled water-power, largely

streams afford unrivated water-power, largely utilized in manufactures.

CI.IMATE. — Mean annual temperature, Muunt Washington, 26,3°; highest recorded, 74°; lowest, —46°. Mean annual at Manchester, 48,5°; highest recorded, 41°; lowest, —11°. Mean annual rainfall, Mount Washington, 50° highest washington, 50° highest recorded.

Mean animal rainfall, Mount Washington, 50 inches; Manchester, 40 inches.

POPULATION.—New Hampshire ranked tenth in 1700, eleventh in 1800, sixteenth in 1810, fifteenth in 1830, eleventh in 1810, fifteenth in 1830, twenty-second in 1840 and 1850, twenty-second in 1840 and 1850, twenty-second in 1840 and 1850, and thirty-third in 1800. Total population 1790, 141,885; 1800, 183,834; 1810, 214,400; 1830, 244,622; 1830, 250,328; 1840, 284,571; 1850, 317,976; 1800, 336,573; 1870, 318,300; 1880, 346,901; 1890, 256,530; (Classification: Male, 186,506; female, 180,964; Native, 394,190; foreign, 72,340; white, 375,840; colored, 690—Africans, 613; Chinese, 58; Japasese, 2; Indians, 10.

ARESE, 2; Indians, 16.
PRINCIPAL CITIES.—Manchester, the rkincipal Civiles.—Manchester, the me ropolis and principal seat of manufacturing industries, population, 44,126; Nashua and Dover, important manufacturing centers, population, 19,311 and 12,790; Concord, the capital seat of government since 1807, population, 17,004; Portsmouth, a port of entry, formulation, 17,004; Portsmouth, a port of entry, formulation, 17,004; Portsmouth, a port of entry, formulation, 18,004; Portsmouth, a port of entry, formulation, and the content of entry the entry of the ent

founded 1653, sent of government until 1807,

AGRICULTURAL .- Hay most important crop, latest report gives 644,729 tons, value, \$6,769,855; coru, 1,333,000 hushels, value, \$1, 503.721, average value per acre greater than in any other State; wheat, 18,000 bushels, value, \$170,341; oats, 1,000 000 bushels, value, \$504-890; tobacco, 86,593 pounds, value, \$10,710. Total value of farm animals, \$12,001,351; barrees had in importance. horses lead in importance.

STONE QUARRIES, ETC. - Popular name of State derived from its famous white granite. Number of quarries, 78; amount quarried, 1889, 2,822,025 cubic feet, value, \$727,531; number of cubic feet for building, 1,306,381; street paving, 1,157,094 cubic fret; output more than double during past decade. supple more than united during hast certain. State ranks first in mice, produces over eighttenths of the total product; 40,000 pounds mined in 1889, value, \$40,000; leads in production of scapstone, yield, 4,252 tons of manufactured, value, \$117,889; sandstone and pyrites are worked.

MANUFACTURES .- Manufacturing the principal industry; the most important are cutten and woolen goods, injots and shore, wooden ware, and paper. First cotton mill erected 1804; since 1850 capital invested in manufactures has increased 800 per cent.; amount products valued at from \$75,000,000 to \$100,000,000.

RAILWAYS.—First rollway chartered in 1885; number miles in 1846, 58; 1850, 467; 1865, 657; 1860, 661; 1865, 867; 1870, 736; 1875, 994; 1880, 1,015; 1885, 2,044; 1890, 1,146; January I, 1892, 1,144. State has one mile of railway to

each 8.18 square miles.

EDUCATION. - Has compulsory education law; school age, 5-21; number pupils enrolled in public schools in 1890, 54,813, a loss of over 7% per cent, during the decade; expenditures, \$814,394; number pupils in private schools, 7,543; Dartmouth College organized 1763, 473

LEGAL HOLIDAYS .- February 22, May 30, July 4, Thanksgiving, December 25, general

election, and fast day.

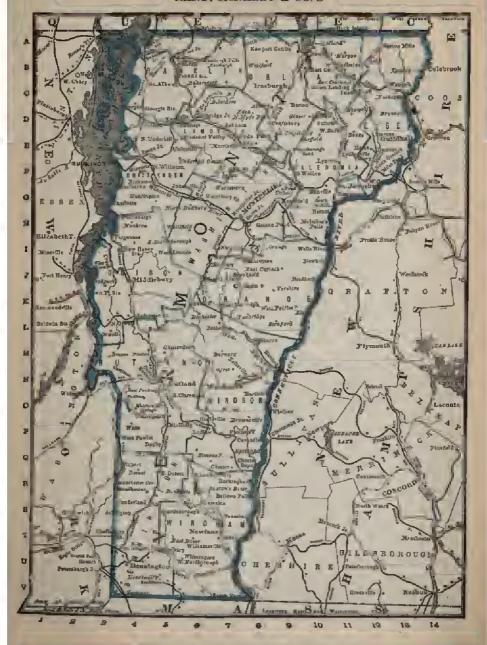

CIVIL WAR, ETC. - New Hampshire contributed a total of 33,937 mea-32,930 white troops, 882 sailers and marines, and 125 colored troops; number of deaths, 4,882; num-

ber pensioners in State, 1891, 7 707.

TOUTIOAL.—State, congressional, and presidential elections. Tuesday after first Monday in November. Number of Senators, 24; Representatives, 350; term, 2 years; seestons, blennial in odd-uninbered years; limit, none; meets first Wednesday in January; number electoral votes, 4; number voters, 118,125. Voters must be actual citizens, residents of the State, county, and town 6 months, precinct, 10 days; nliens, paupers, nun-tax-payers, at their own request, excluded; registration required. Women vote at school elections

LEGAL - Statutes of limitation: Judgments, 20 years; notes, 6 years; open accounts, 6 years; tegal interest, 6; by contract, 6.

### VERM

Ver-mont'. "Green Mountain State."

From French words "vert," green, and "mont," mountain.

HISTORICAL.—First State admitted after the adoption of the United States Constitution, and the organization of the government. Date of admission March 4, 1791. First settlement made at Fort Dummer, near site of ment made at Fort Dummer, near site of Bratichoro, 1734; settled by emigrants from Massachusetts. First Constitution adopted 1777, second 1786, third in 1791; amendments made in 1793, 1836, 1850, and 1870.

AKEA, ETC.—9,565 square inles; land area, 9,135 square miles; water, 430 square infles; length, 158 miles; breadth, 35 to 85 miles. Green Mountains traverse the State from nearth to scattly highest elevation. Mountain

from north to south; highest elevation, Mount Mansfield, 4,430 feet. Over 100 miles of front-age on Lake Champlain; lake navigation important, Burlington the principal port. Con-secticut River drains 3.50) square miles—one-third the total area. Numerous small streams furnish ahundant water-power, largely utilized

for manufactures.
CLIMATE.—Temperature at Burlington: Winter, 18° to 50°; summer, 55° to 75°; mean for January, 19°, extreme, —21°; for July, 71°, extreme, "6°; average rainfall, 33 inches.

POPULATION. — Vermont ranked tweith 1310, cbs.

in 1790, thirteenth in 1800, fifteenth in 1810, sixin 1790, thirteenth in 1800, fifteenth in 1810, sixteenth in 1820, seventeenth in 1830, twenty-first in 1840, twenty-third in 1830, twenty-sighth in 1860, thirtieth in 1870, thirty-second in 1880, and thirty-sixth in 1890. Total population 1710, 85,425; 1890, 184,465; 1810, 217,895; 1800, 235,965; 1820, 280,652; 1840, 291,948; 1830, 814,180; 1830, 815,098; 1870, 820,551; 1830, 824,262; 1860, 322,462; Chassification: Maie, 180,327; female, 165,095; native, 283,334; foreign, 44,688; white, 321,418; colored, 1,004—Africans, 937; Chinese, 32; Japanese, 1; Indians, 34.

PRINCIPAL CITIES.—Burlington, one of the meet important lumber markets in the

of the most important lumber markets in the United States, population, 14,500; Rutland ranks second, population, 11,760, principal seat of marble industry; St. Albans, population, 7,771; Brattlebore, 0,802; Barretown, 0,812; Montpelier, the capital since 1805, population, 1,774; Brattlebore, 1,800; Barretown, 0,812; Montpelier, the capital since 1805, population, 1,774; Brattlebore, 1,77

AGRICULTURAL - Although exceed ingly mountainous, proportion of cultivable area is large. Agriculture the chief occupation of the State. Over 3,000,000 acres of improved land. Among New England States, Vermont ranks second only to Maine in the value of fatra proflucts. Latest reports give:

Corn. 2.143,000 bushels. value. \$1.120,542;

wheat, \$44,000 hushels, value, \$382,477; cats, 4.037,000 bushels, value, \$382,247; cats, 1.160 AL.—Statutes of limitation: Judg-4.037,000 bushels, value, \$395,227; hay, 1,038.—Inents, notes, and open accounts, 6 years; 303 tons, value, \$9,709,048. State exceeds all legal interest, 6; by contract, 6.

others in production of maple sugar—nearly 12,000,000 pounds of sugar and 130,000 galloms of molasses. Value of farm animals, \$81,172,157.
MINERAL WEALTH.—The quarries

constitute the chief mineral wealth of the State. Marbles in great variety are quarried State. Marbles in great variety are quarried in large quantities; production steadily increasing. Rudland County the leading locality. Value of total onlynt for year, \$2,300,000; \$2,000,000 being credited to Rudland. State ranks second in production of slate; number quarries, 60; output, 235,500 squares roofing slate, value, \$802,907; number granite quarries 53; output, 1,078,936 cuite feet, value, \$581,870; 16 limestone quarries, value of output, \$195,006; number barrels of lime manufactured 391,148. State produced 1,336 long tons manganese ore.

number burrels of lime manufactured 321,148. State produced 1,838 long tons manganese ore, and 72,000 pounds copper. Iron and gold exist. KAILWAYS.—Railroad construction begun in 1845; in December, 1849, two lines completed.—Burlington to Connecticut River. Total number miles in operation 1850, 200; 1855, 529; 1800, 545; 1855, 567; 1850, 014; 1875, 810; 1880, 914; 1875, 910; 1890, 988; January 1, 1863, 1,001. State has one mile of railway to each 9.38 supers miles.

each 9.38 square miles.

EDUCATION.—Londs set apart for support of schools as sarly as 1761; legislative provision for aducation dates from 1782. Number vision for education dates from 1782. Number pupils enrelled in public schools, 1889, 73,237; a loss of 10 per cent, during the past decade; expenditures, 6389,917; bumber pupils in private schools, 6,745. School age, 5-20. State University at Burlington, organized 1791; number students, 586. Normal schools at Castleton, Jahnson, and Randolph. Training school at Bennington.

LEGAL HOLIDAYS.—January 1, May 30, July 4. Thanksgiving, and December 25.

30, July 4, Thanksgiving, and December 25.
CIVIL WAR.—The State furnished a total of 33,288 men—32,549 white troops, 619 sailors

of \$3,288 men—\$2,549 white troops, 619 salors and marines, 120 colored troops. June 30, 1891, there were \$,560 pensioners in the State. PRINCIPAL CITIES.—New York City, metropolis of the United States, as a commermetropous of the United States, as a combine-cial and financial ceater, ranks second only to London, population, 1,515,301; area, 40.23 square miles. Brooklyn, second in size, popu-lation, 806,343, properly a suburb of New York. Buffalo, one of the most important trade centers in the United States; grain, coal, and lumber chief articles of commerce, popalation of city, 255,664. Rochester, important center of munifactures, garrien seeds, and nurseries, population, 133,896. Albany, the cupital, population, 94,923. Syracuse, noted for manufacture and export of salt, popula-

URBAN POPULATION .- Large increase is orban population during past deende. Cen-sus of 1880 showed 60 cities and towns of 4,000 or more population, aggregate population, 2,743,602. Census of 1800 shows 81 cities and Lowes of 4,000 or more population; aggregate population, 8,863,577. Greatest numerical increases: New York, 309,002, or 25,62 per cent.; Brooklyn, 239,680, or 42,30 per cent.; Buffalo, 100,530, or 64.80 per cent.

AGRICULTURE.—In number of farms, Hudson, 1600 river explored as far as site of State ranks third; in value, second. Ranks Albany; two truding posts established, and first as a dairy State annual value of cheese first as a dairy State annual value of cheese and butter, \$12,778,000. Ranks first in broomcorn, buckwheat, and hops. Number acres under hops, 1890, 36,870, production, 38,965,020 pounds; State produces of 122 per cent, of total yield from 73,03 per cent, of acreage. State lends in production of buckwheat, hay, and potatoes. Latest report gives products; Buckwheat, 4,614,000 bushels; hay, 5,427,757 tons, value, \$61,616; potatoes, 29,684,000 bushels. Value corn, wheat, and oats, grown 1891, \$41,125,420.

HORTHOULTURAL, ETC.—State leads all others in number and value of nurseries. First nursery established previous to 1800.

first nursery established previous to 1800. Capital invested, 1889, \$12,302,844; number, 530; acreage, 24,840; value, \$10,666,856. Greatest number acres in appleas; pears, grapes, and plants follow in order Seed farms number 78; acreage, 12,865; capital invested, \$1,501,653. State had one establishment engaged in floriculture in 1800; 793 in 1890; square feet of glass, 6 947,298; value of establishments, \$9,251,873; catalogues issued, 5,500,000; plant sales, \$2,228,720; cut flowers, \$3,615,667.
VITICULTURE.—New York stands sec-

ond in importance among States engaged in this industry. Number acres in bearing vines, 1890, 43,350; new vineyards, 7,650; average yield per acre, 1.75 tons, value \$70. Grapes sold for table use, 121,374,000 pounds; whee made, 2,528,250 gallons; capital invested, \$20,-

LIVE STOCK.-State ranks fourth in live stock. Total value farm animals, \$141,511,000: Horses, \$61,831,400; milch cows, \$43,637,200; oxen and other cattle, \$22,034,214; sheep,

St. 481,428.
BUILDING STONES, ETC. — New York's extensive quarries of stone and marble state bearing. State ranks first in blueston; number quarries, 135; output, 4,000,042 cubic number quarries, 135; output, 4,020,442 cline feet, value, \$1,303,320; ranks fifth in sandstone, 63 quarries; output, 4,673,365 cubic feet, value, \$102,419; fourth in limestone; 157 quarries; lotal value products, \$1,708,830; output for building, 7,151,737 cubic feet; lime manufactured, 1,638,148 barrels; granite quarries number 13; 1,515,511 cubic feet quarried; increase during feedle, 2,127 per cent. State increase during decade, 2,137 per cept. State has 16 slate quarries; value of output, 1889, \$190,603. Washington County only locality in United States producing red roofing alate.

State produced gypsum valued at \$73,476.

1KON.—Iron ores of excellent quality largely indied. Magnetic iron ore discovered on Sterling Mountain, 1750; State leads all others in production of this ore. Brown and red hematile, and carbonate cross are also mined. Number from mines in State, 32; production, 1889, 1,247,537 long tons—927,299 tons magnetic ore. First forge established in Columbia County, 1740; flest anchor in State cast at Sterling works, 1750; first steel in province made at Sterling works, 1776; Cham-

barreis of oil in 1889; a large percentage one. New York. Allegheay field, 20 utiles long, lies wholly in New York.

MANUFACTURES,—In value of manufactured products. State leads all others. Value of products, 1890, \$1,512,1075,300, an increase during the past decade of 40 per cent; capital invested, \$719,945,200. Principal capital invested, \$719.945,200. Principal branches of manufactures: Clothing, flaur, mait figuous, printing and publishing, from

and steel, foundry and machine shop products, and refining of sugar. State refined 5,00,000 barrols of sugar in 180; manufactured 2,330,33 gallons fermented liquors, and

1,060,836 gailons distilled spirits.
SALT.—New York occupies second place SALT.—New York occupies second place among salt producing States. Its extensive wells are located in two districts, Onoodaga and Warsaw. Total production, 1830, 2,532,026 barrels—Onoodaga, 1,546,412 barrels, Warsaw, 935,634 barrels; value, \$1,266,018. Onoodaga District produced 25,474 bushels in 1757, in 1882, 2,346,180 bushels, more than double the product of 1890. Warsaw yield for 1870 this. product of 1890. Warsaw yield for 1890, thir-

RAILWAYS, -First railroad, Albany to RAILWAYS.—First railroad, Albany to Schenectady, opened 1831. Number miles in operation 1835, 101; 1840, 374; 1850, 1,351; 1855, 2,583; 1863, 2,682; 1855, 8,002; 1855, 5,423; 1890, 5,991; 1895, 7,375; January I, 1892, 7,755. State has one mile of railway to each 6,28 square miles.

EDUCATION.—An academy and classical school established 1859. First schools in State established by the Dutch.

established by the Dutch. Free grammar struments, 20 years; o school established 1702. General school system 6 years; refemption organized 1812. State Normal school established begat interest rate, 6.

plain works established 1801. New York lead is lished 1814. Present efficient system establing into and steel until 1840, now ranks fifth in lished 1837. Compulsory education became a pig tron and steel. Output, 1889: Pig tron, 585,000 tons; steel, 113,000 tons, 1869. Pig tron, 1875. School age, 5-21. Number pupils enrolled in public schools, 1049,852; in private schools, 150,890. State has 27 colleges and 168 among prominent oil-producing localities, academies. Columbia College, founded 1746, has over 1,700 students. U. S. Military academy, West Point, organized 1802, 285 students. College founded 1801, has 280 et al. State has eleven Normal schools. Vassar New York. Allachear field 21 telles founded 1801, has 280 et al. State has eleven normal schools. Vassar earoned in pintar scincols, 104,363; in private schools, 150,850. State has 27 colleges and 168 academies. Columbia College, founded 1746, has over 1,700 students. U. S. Military academy, West Point, organized 1802, 285 students. State has eleven Normal schools. Vassar College founded 1803, has 380 students.

LEGAL HOLIDAYS. - January 1, February 22, May 30, July 4, Labor Ituy, December 25, any day appointed by the Governor or President for thanksgiving or fast, and every Saturday afternoon, General Election Day. When a holiday falls on Sunday the following

Monday is observed.

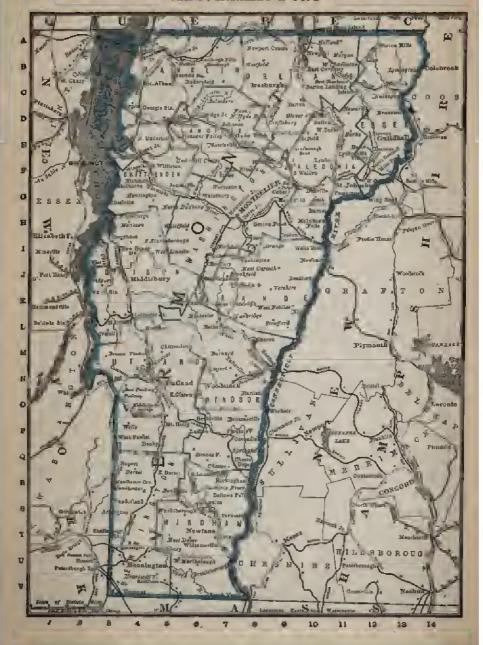

POST & L.—Total number post offices, 3,506; number presidential, 264—11 first class; 73 second class; 180 third class; number fourth-class offices, 3,242; money-order offices, 625.

CIVIL WAR. Bate furnished 48,830 men—499,561 white troops, \$5,154 sailors and marines, 4,125 colored troops. In addition 18,197 paid commutation. Total number 18,197 patil commutation. Total number deaths, 46,534. Within the State are 60,335 pensioners

POLITICAL, - State elections annual. State, congressional, and presidential elec-tions, Tuesday utter first Monday in Novem-ber; number of Senators, 32; Representatives, 128; sessions annual, meets first Tuesday in January; limit of session, none; term of Senators, 2 years; Representatives, 1 year; number of electoral votes, 35; number voters, 1,703,940. Voters must be actual cilizens, residents of State 1 year, of county, 4 months, of precious 31 days; regristration required in of precinct, 30 days; registration required in cities of 7.000. Election betters or bribers, and convicts excluded.

LEGAL - Statutes of limitation; Judgments, recovery of real estate, and scaled instruments, 20 years; open accounts and notes, 6 years; redemption of tax sales, 2 years.

green, and "mont," mountain.

111STORICAL.—First State admitted after the adoption of the United States Constitution, and the organization of the government. Date of nilmission March 4, 1701. First settlepate of nilmission March 4, 1791. First settlement made at Fort Dummer, near site of Brattleboro, 1724; settled by emigrants from Massachusetts. First Constitution adopted 1777, second 1785, third in 1791; amendments made in 1793, 1834, 1835, and 1839.

AREA, 1270.—9,605 square miles; land arca, 9,135 square miles; water, 430 square niles; length, 158 miles; breadth, 35 10 85 miles. Green Mountains traverse the State from north tessents, highest elevation Mountains.

from north to south; highest elevation, Mount Mansfield, 4,430 feet. Over 100 miles of front-Mansfield, \$,430 feet. Over 100 miles of front-age on Lake Champlain; lake mavigation important, Burlington the principal port. Con-necticut River drains 3,500 square miles—onethird the total area. Numerous small streams furnish ahundant water-power, largely utilized for manufactures.

CLIMATE. - Temperature at Burlington: Whiter, 18° to 50°; summer, 65° to 75°; mean for January, 19°, extreme, -21°; for July, 71°, extreme, 97°; average rainfall, 33 luches.

POPULATION. - Vermont ranked ovelfth

in 1700, thirteenth in 1800, fifteenth in 1810, sixteenth in 1830, seventeenth in 1830, twenty-first in 1840, twenty-third in 1850, twenty-eighth in 1860, thirtieth in 1870, thirty second eighth in 1950, thirtieth in 1870, thirty second in 1880, and thirty-sixth in 1890. Total population 1700, 83,427; 1800, 154,435; 1810, 217,835; 1890, 235,035; 1890, 280,652; 1840, 291,948; 1850, 314,129; 1800, 315,096; 1870, 329,551; 1880, 323,282; Classification: Male, 169,827; female, 163,095; native, 288,334; foreign, 44,085; white, 331,418; colored, 1,004—Africans, 937; Chinese, 32; Japanese, 1; fullans, 34.

PRINCIPAL CITTES—Burlington, one of the most important have been respect in the

of the most important lumber markets in the United States, population, 14,590; fulland ranks second, population, 11,760, principal seat of marble industry; St. Albans, population, 7,771; Brattleboro, 6,882; Barretown, 6,812; Montpelier, the capital since 1805, population

lation, 4,160.

AGRICULTURAL. — Although exceedingly mountainous, proportion of cultivable area is large. Agriculture the chief occu-pation of the State. Over 3,000,000 acres of improved land. Among New England States, Vermont ranks second only to Maine in the value of farm products. Latest reports give: value of Rath politics.

Corn. 2.144.000 bushels, value, \$14.299.542; Bribers excluded.

Wheat, 344.000 bushels, value, \$16.27; hay, 1.338, 4.027.000 bushels, value, \$1,635,227; hay, 1.338, ments, notes, and open accounts, 6 years; 398 tons, value, \$9,760.048. State exceeds all legal interest, 6; by contract, 6.

others in production of maple sugar—nearly 12,000,000 pounds of sugar and 130,000 gailons of molasses. Value of farm animals, 318,172,157. MINERAL WEALTH.—The quarries constitute the chief unineral wealth of the

constitute the chief inneral wealth of the State. Marbles in great variety are quartied in large quantities; production steadily increasing. Rulland County the leading locality. Value of total output for year, \$2,200,000; \$2,000,000 being credited to Rutland. State ranks second in production of slate; number contents. The county (28, 280, county reconstitution). ranks second in production of size; number quarries, 00; onlyint, 235.850 squares roofing slale, value, \$592,937; number granite quarries 53; output, 1,073,938 cubic feet, value, \$581,870; 16 limestone quarries, value of output, \$581,870; number barrels of lime manufactured 324,148.

State produced 1,596 long tons manganese ore, and 72,000 pounds copper. Iron and gold exist.

RAILWAYS.—Railroad construction begun in 1846; in December, 1849, two lines completed—Burlington to Connecticut River.

Texts. appare will be in expected to 1840. pleted—Burlington to Connecticut River. Total number nulles in operation 1850, 289; 1855, 529; 1860, 654; 1866, 687; 1870, 614; 1875, 810; 1880, 181; 1885, 861; 1890, 188; January 1, 1893, 1,001. State has one nulle of railway to each 9.38 square miles.
EDUCATION.—Lands set apart for support of schools as early as 1761; legislative provision for adverting dates from 1729. Number

vision for education dates from 1782. Number pupils enrolled in public schools, 1899, 73,237; pupus euroned to puone senoes, 1889, 73:257; a loss of 10 per cent, during the past decade; expenditures, 2689.917; number pupuls in private schools, 6.745. School age, 5-20. State University at Burlington, organized 1791; number students, 526. Normal schools at Castleton, Johnson, and Randolph. Training school at Bennington.

school at Bennington.

LEGAL HOLIDAYS.—January 1, May 30, July 4, Thanksgiving, and December 25, CIVIL WAR.—The State furnished a total of 83,288 men.—32,549 white troops, 619 sailors

of 83,228 men.—32,519 white troops, 619 satiors and marines, 120 colored troops. June 20, 1891, there were 8,556 pen-ioners in the State. POLITICAL.—State elections biennial, first Triesday in September. Congressional and presidential, Tuesday after first Monday in November. Number of Senators, 50; Representatives, 245; term, 2 years; sessions, biennial in even-numbered years: Drecks first nial in even-numbered years; meets first Wednesday in October; limit of session, none. Number of electoral voles, 4; number voters, 101.697. Voters must be actual citizens, residents of State 1 year; registration required. Bribers excluded.

## ${ m MASSACHI}$

Mas-sa-chu'sets. " Bay State."

HISTORICAL. - Sixth in order of the Thirteen Original States to adopt and railfy the Constitution, date, February 6, 1788. First permanent settlement made by English Puri-tans, at Plymouth, 1690; Salem founded 1628. First constitution adopted 1780; this, with various amendments, constitutes the law of

AREA. -8,315 square miles; land area, 8,040 square miles; water, 275 square miles; length, northeast and southwest, 180 miles; treadth, 47 to 90 miles. The Merrimac, Con-necticut, Housatonic, and other rivers, furnish

necraut, Houstone, and other rivers, turnish Immense water power which is largely utilized, CLIMATE.—Temperature Boston: Winter, 27° to 38°; summer, 66° to 71°; mean annual, 48.8°. Mean annual rainfall: Boston, 45.04 inches; Wood's Holl, 44.11; Springfield, 47.04.

POPULATION.—Massachusetts ranked

fourth in 1790, fifth in 1800 and 1810, seventh in 1820, eighth in 1830 and 1840, sixth in 1830, seventh in 1800, 1870, and 1880, and sixth in 1800. Total population, 1730, 378,787; 1800, 422,845; 1810, 472,040; 1840, 823,180; 1830, 610,406; 1840, 737,659; 1850, 040,544; 1850, 1,231,086; 1870, 1457,251; 1850, 1,733,085; 1800, 2,238,943. Classification: Male, 1,087,709, female, 1,151,234; native, 1,831,830; foreign, 637,137; white, 2,215,373; colored, 23,570 — Africans, 23,144; Chinese, 984; Japanese, 16; Indians, 424.

FRINCIPAL CITIES.—Boston, capital and metropolis, great commercial center; population, 443,377. Worcester, Tanaton, and Springfield, centers of from and steel industries. fourth in 1790, fifth in 1800 and 1810, seventh

population, 443,377. Worcester, Tamoton, and Springfield, centers of Iron and steel industries; population, Worcester, 84,685. Springfield, sent of largest arsenal and armory in United States, Lynn, principal center of boot and shoe Industry, Lowell, Lawrence, Fall River, and Holyoke, chief centers of cotton industries. Cambridge, seat of Harward Collège, closet in America. First printing press in America. established at Cambridge; printing still a leading Industry of the city.

AGRICULTURAL.—State has 3,359,679 acros in farms, value, 144,157,415. Hay, the most important crop; latest report gives:

acres in farms, value, \$140,197,415. Hay, the most important crop: latest report gives: 574,385 toos, value, \$16,021,249; potatoes, 3,824,260 bushels, value, \$1,607,893; cats, 752,000 bushels, value, \$1,67,893; cats, 752,000 bushels; tobacce, 2,791,849 pounds. Total number farm animals, 491,919, value, \$15,873,817.

GRANITE AND LIMENTONE.—State leads to production and value of granite. Number quarries, 151; output, 1869, 9,587,346 outpic feet, value, \$2,503,503. Number threatons quarries. 12; tatal value of output, \$119,978; lime, \$23,702.

FISHERIES.-Over one-half the fishing FIGURE 128.—Over one-half the fishing vessels in United States owned in Massachusetts. Over two-thirds or 69.31 per cent, of vessels of United States whale fleet from Massachusetts ports; total number of fleet, 101; from New Bedford atone, 57. Value of products for State, 1888, 3888, 487; sperm oil, 5484, 700; whalebone, 8419.320.

MANUTE ACCURE 58.—Manufacturing in the state of the state of

MANUFACTURES. — Manufacturing in-dustries most important. In total value of all products, State ranks third; in cotton produc-tions, leather, and boots and shoes, ranks first. First cotton-mill in the United States estabished at Beverly, 1787; one of the earliest woolen-tallis was that at Newbury, 1794; first tron works established at Lynn and Taunton,

fron works established at Lynn and Taunton, 1631 and 1644. Roston is the center of the wooltrade, Capital employed in wool industry, 375,655,637; cost of materials, \$44,767,072; value of products, \$72,081,408.

RAILWAYS.—First road constructed 1835; number of miles in State, 1840, 301; 1850, 1,035; 1850, 1,248; 1865, 1,875; 1870, 1,480; 1875, 1,817; 1880, 1,915; 1885, 1,997; 1800, 2,036; January, 1892, 2,100. One mile of road to each 3,95 square nulles.

square mlles.

EDUCATION. -- Foundation of present system established 1847; compulsory education law; schoolage, 5-15; annual expenditures over \$8,200,000; number of pupils in public schools, \$71,492. Normal schools at Boston, Bridgewater, Framingham, Salem, Weelfield, and Worcester; number of pupils in private schools, 69,772; State has 7 colleges.

LEGAL HOLIDAYS.—February 23, May 20, July 4, first Monday in September, Thanksching, Decomber 25, and feat day.

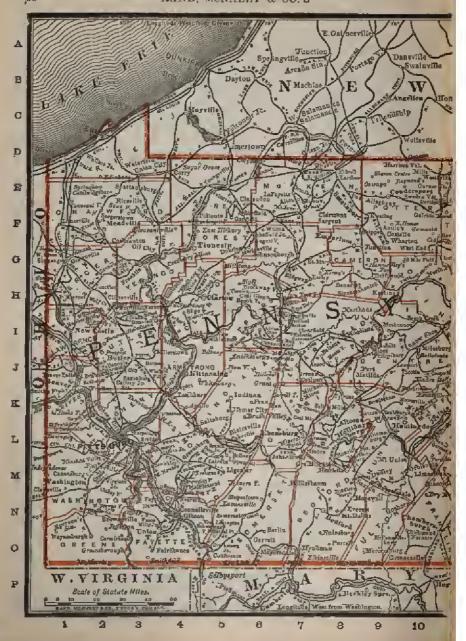

giving, December 25, and fast day. CIVIL WAR.—State furnished 146,780 men and over \$50,000,000. Of the total, 122,781 were white troops, 19,383 sailors and marines, 8,366 colored troops; aggregate number of deaths, 13,942. State has 25,953 pensioners.

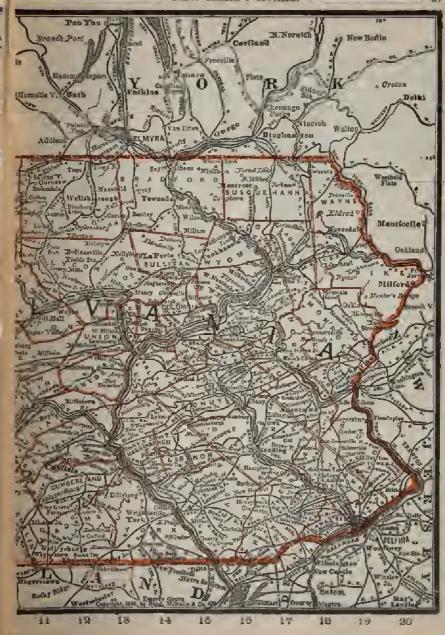

POLITICAL.—State, congressional, and presidential elections, Tuesday afterfirst Monpresidental rections, the single afternits, and day in November; number of Senators, 40; Representatives, 240; term, 1 year; sessions, aumusl, meets first Wednessley in January; limit of session, none. Number of electoral votes, 15; number voters, 655,000; voters must be citizens, residents of State 1 year, precinct 6 months; registration required. Faupers, non-taxpayers, and persons unable to read and write excluded.

LEGAL - Statutes of Ilmitation; Judgments, 20 years; notes and open accounts, 6 years; redemption of tax sales, 2 years; legal

interest, 6; by contract, any rate.

PRINCIPAL CITIES. — Philadelphia, largest city in State, founded 1822, one of the second in 1790 and 1800, third in 1810 and 1820,

largest city in State, founded 1682, one of the chief centers of foreign, domestic, and coastwise trade, population, 1,046,264; Pittsburg second in importance and population; Pittsburg and Alleghany form chief seat of iron, steel, and Aleguary form emil sear of from sur-and glass industries in the country, popula-tions, 286.617, 165.287; Scrunton, a chief center of anthracite coal trade, population, 76,215; Reading, seat of extensive iron and sieel manufactures, population, 55,661; Harrisburg,

the capital, an important manufacturing town, papulation, 99,385. URBAN POPULATION.—Increase dur-URBAN POPULATION.—Increase during past len years large. Census of 1820 gave 55 citles and boroughs of 4,000 or more inhabitants, aggregate, 1,858,632; census of 1820 gives 85 citles and boroughs of 4,000 or more inhabitants; aggregate, 2,305,607. Largest numerical facrease found in Philadelphia, increase, 199,794, or 25,38 per cent.; Pittsburg, 82,235, or 52,58 per cent.

AGRICULTURE.—Principal crops are what company has any delayer.

wheat, corn, rye, hay, and tobacco. Products, 1801: Corn. 40,527,000 bushels, value, \$26,520,-

HISTORICAL.—Named in bonor of Ad- 462; wheat, 20,864,000 bushels, value, \$20,864, 017; oats, 33,704,000 bushels, value, \$12,470,812 017; oats, 33,704,000 bushels, value, \$12,470,318 bay, 2,997,068 tons, value, \$23,997,748, tobacco 28,866,247 pounds, value, \$1,881,754. Lancaster County leads all other localities in the country; produced, 1833, 19,217,800 pounds, value, \$1,339, 590. State produces large quantities of honey, maple sugar, and dairy products.

110RTICUCIURAL, ETC.—Pennsylvania has 311 nurseries with 6.568 acres capital.

uia has 311 nurscries, with 6,598 acres, capital invested \$1,210,805, value, \$3,134,780, First, invested, \$4.2(0,605, value, \$3,134,780. First seed farm in United States established, in Philadelphia, 1784. Number farms, 18; acres, 6,066, total value, farms, etc., \$94,852. State has 544 florist establishments, with a total of

8,066,141 square feet of glass, value, \$5,641,513; plant sales, \$1,782,399; cut flowers, \$1,881,590. LIVE, \$TOCK.—Of the North Atlantic division, Penusylvania ranks second only to Division, Felinsylvana ratus second only to New York in number and value of farm ini-mals. Number and value, 1891: Horses, 621,-861, 551,847,703; nules, 29,065, \$2,963,297; milch cows, 929,091, \$23,459,548; cautle, 635,222, \$18,514,790; sheep, 1,091,477, \$4,178,173; swine, 1,157,013, \$8,702,072.

MINERALS .- State ranks among the first in mineral wealth. Coal, iron, and petroleum most valuable. Coal discovered in Schuylkill most valuable. Coar discovered in Semijikili region, 1700. Coal area; Authracite, 470square miles; bituminous, 9,000 square miles. Regular mines, 847; loval, 2,988. Output, 1800, anthracite, 45,544,570 tons, value, \$65,721,578, practically produces all anthracite mined in Valuable Company of the control o practically produces all anthracite mined in United States; bituminous, 36,174,081 tons, value, \$27,959,315. Ranks third in production of iron ore, 198 mines; output, 1,650,234 tons; value, \$3,063,534. State produces large percentage of total yield of petroleum. Pennsylvania Rock oll Company organized 1858. Pennsylvania and New York fields yielded 21,480,000 barrels in 1859. Western Pennsylvania rich in natural gas. Latest reports give amount of coal displaced by natural gas, 19,282,375 tons. State has been the main source of the nickel supply. Bethle hem and Friedensville are the centers of the zinc works. Friedensville are the centers of the zinc works. Serpentine, marble, limestone, sandstone, granite, and slate are extensively quarried for

QUARRIES.-State has numerous quarries of fine building stones, marble, and slate. Ranks first in limestone and slate, second in sandstone and bluestone, and eighth in granile. Number state quarries, 104; value of out-put, 1889, \$2.01,778. Libestone, 873 quarries, 5,88,013 cuble feet building stone quarried in 1889; 4,043,079 barrels of libe manufactured; 1869; 4,043,079 barress of time hammarurer; total value of output, \$5,188,019. Sandstone, 159 quarries, 17,41,875 cubic feet quarried, value, \$1,500,159. Bluestone, output, 1,700,749 cubic feet, value, \$377,785. Granks, \$4 quarries, output, 5,782,870 oubic feet, value, \$623,252. MANUITACTURES.—One of the most im-

portant of the manufacturing States. Leads all others in Iron and steel industries, producing vast quantitles of machinery, castings, nails, and hardware. One of the first in production of

glass, output of Pittsburg factories, about of Pennsylvania organized 1753, has 1,712 300,000 square feet per month. State produced students, in 1883, 62 per cent. of total steel product; number works, 70, production, 2,762,853 tons, and fifty per cent. of pig iron; 221 furnaces, month, and Norristown. Reform school at the control of production, 4,712,511 tons. Iron furnace established in Lebanon County as early as 1740. Manufactures of taxtile fabrics, leather, lum-

er, etc., in COTTON important. COTTON AND WOOLEN MANU-FACTURES.—Among the Middle States Pennsylvania leads in cotton manufactures, State has 158 establishments engaged in cotton ndustries: had 59 in 1869; number of looms, 13,974; spindles, 439,632. Total capital invested \$15,984,037; number employes, 12,030–4,031 men. 6,258 women, 1,417 children; wages paid, \$1,687,988. Value of materials used, \$10,450,502; products, \$18,437,773. State leads all others in woolen industries; number of establishments, 753, capital invested, 868,907,356; employes, 55,758—23,502 men, 26,962 women, 5,482 children; total wages peld, \$10,800,446; east of materials used, \$53,820,476; value of

products, \$89,533,725,

RAILWAVS,—Earliest read operated, the
"Switchback," a coal read, opened 1826, \*\*EATLWAVS,—Earliest road operated, the "Switchbock," a coal road, opened 1825, Philadelphia & Columbia and Portage roads, 118 miles, opened 1833-34. State had 754 miles in operation, 1840; 1,240, 1850; 1,360, 1855; 2,588, 1860; 3,728, 1865; 4,656, 1870; 5,683, 1873; 6,191, 1890; 7,735, 1885; 8,700, 1890; January 1, 1892, 8,019. One mile to each 5 square miles, State has 5 per cent. of total mileage of the lighted States.

United State EDUCATION .- Common school law enacted 1934. School age, 0-21. Latest reports Non-taxpayers and political bribers excluded. LEGAL.—Statutes of limitation: Judg-Number of pupils eurolled in public schools, 1955, 144; night schools, 27,303; private schools, 1956, 144; night schools, 27,303; private schools, 1965, 145; number colleges, 29, seminaries, 15, academies, 79; Normal schools, 19; University, same by contract.

asylmas: Harrisburg, Danville, Warren, Dix-mont, and Norristown. Reform school at Morganza; Industrial Reformatory, Hunting-don. Institutions for deaf and dural, Phila-

delphis and Wilkinsburg; Institution for edu-cation of blind, Philadelphis.

LEGAL HOLIDAYS.—January 1, Feb-ruary 22, Good Friday, May 30, July 4, first Monday in September, Thanksgiving, Decem-

ber 25, and Saturday afternoon from June 15 to September 15. CIVIL WAR.—Pennsylvania furnished the Federal armies 337,936 men: 215,017 white troops, 14,307 sailors and marines, 8,612 colored troops. In addition, 28,171 paid commutation:

Lynchburg, largest in the tobacco trade, largest in the tobacco trade, largest in the tobacco, average annual sales 30,000,000 pounds; population, 1889, 1,703,300 cubic feet, value, \$266,005.

1830, fourth in 1846 and 1850, fifth in 1860, tenth 1830, fourth in 1846 and 1850, fifth in 1860, tenth in 1870, fourteenth in 1830, and officenth in 1830. Total population 1750, 717,610; 1800, 890,200; 1810, 1974 500; 1820, 1,005,116; 1830, 1,211,-405; 1810, 1,230,575; 1850, 1,241,661; 1850, 1,595,-318; 1870, 1,235,163; 1830, 1,512,502; 1890, 1,655,-980. Classification: Maile, 821,378; Feranke, 831,703; native, 1,027,606; foreign, 18,374; white, 1,020,122; colored, 035,856—Africans, 635,333; Chineso, 55; Japanese, 16; Indians, 849.

AGRICULTORE.—Agriculture the chief bidustry—over 50 are cent. of laboring nous

AGRICULTORE.—Agriculture the chief bidustry—over 50 per cent. of laboring population engaged in it. Total value of farm products 1890, \$56,922,000. Corn crop: 36,222,000 bushels, value, \$20,307,335; wheat, \$,634,000 bushels, value, \$5,711,697; oats, 6,587,000 bushels. State ranks second in production of tobacco, amount grown 1890, 72,876,000 pounds, value, \$5,830,000. Ranks first in peanuts, latest reports give a production of 2,644,000 bushels, value, \$5,830,000. Ranks first in peanuts, latest reports give a production of 2,644,000 bushels, value, \$2,578,120. Fruits and vegetables largely produced. Number of farm animals 1890, \$2,900,110, value, \$40,162,344.

MINERALS.—Surpassed by few States in varied and abundant mineral wealth. Contained 1889, 865,786 tons, value, \$504,475. Virginia ranks seventh in iron production.

mined 1889, 865,786 tons, value, \$504,175. Virginia ranks seventh in iron production; ranks first in production of manganese ares, output 1889, 14,610 tons, value, \$156,257; mlned

Linestone, sandstone, and greenstone are unal expenditures about \$1,500,000. School abundant and extensively worked. Marbles inge. 5-21. State Normal school, Hampton, are abundant. Excellent roofing slates are, Number pupils in private schools, 14.85, quarried. State ranks sixth in value of prod. Number colleges, 8. Washington and Lee uets; number quarries, 3; output of roofing University, Lexington, chartered 1782, 227 state, 23,451 squares, value, \$85,079. State state-oils, William and Mary, Williamshurg, guarrind. Same rans and in value of post-ques; unmber quarries, 3; output of rouding slate, 23,45; squares, value, \$85,079. State-rants second in production of scapstone, amount, 1,599 fous, value, \$72,230.

MANUFACTUKES.— Manufacturing in

instries steadily increasing. Latest reports give value of products \$75,000,000; gain in five years, 44 per cent. Tobacco, from flour, coke, leather, hunder, and cotton among the more important. State ranked seventeenth in 1880 and sixth in 1890 to production of pig iron; product 1890, 392.44 tons, herease during decade 950 per cent. Over 80,000 tons of coke produced, value, \$81,300. RAILWAYS. - First. - Petersharg to Wel-

students. William and Mary, William founded 1632, now a Normal school.

LEGAL HOLIDAYS. -Jamiary 1, Juniary 19, February 22, July 4, Thanksglving, December 25, fast or prayer days whenever

appointed.
POLITICAL -- State elections, biennial. State, congressional, and presidential elec-tions, Tuesday after first Monday in Novem-ber; number of Senators, 30; Representatives, 100; Sessions, bieumal in odd-numbered years, meets first Wednesday in December; limit of ilecade 950 per cent. Over 80,000 tons of coke produced, value, \$81,300.

KAILWAYN.—First—Petersharg to Weldon, N. C.—chartered 1820. Number miles in operation 1835, 93; 1846, 147; 1850, 138; 1855, 185; 1855, 1

## Vlr-jin'e-a. "Little Mouotain."

ern portion of Virginia. Representatives from forty counties, met in convention at Wheeling, June 11, 1861, rejected the ordinance of se-cession and organized a State Government. State constitution adopted May 3, 1862. State

admitted into the Union June 20, 1883.

AREA, ETC. -24,780 square miles: band surface, 24,645; water, 185; extremo length, nearly 240 miles; breadth, 160 miles; greatest altitude, Spruce Mountain, 4,860 feet, Ohio, Bre Sandy Engageth Changeties and Mountain, 24,860 feet, Ohio, Big Sandy, Kanawha, Guyandotte, and Monongabela are navigable rivers. State famed for beauty and grandenr of its mountain scenery

and valuable mineral springs.

and valuable numeral springs.

CLIM VTE.—Temperature at Morga atown:
Mean wiater, 25°, extreme, —10°; summer, 74°,
extreme, § 6°; average rainfall, 46,9 inches,
POPULATION. — West Virginia ranked
twenty-seventh in 1870, twenty-shiath in 1880,
twenty-seventh in 1880. Total population, 1879,
442,014; 1894, 618,457; 1890, 762,734. Classification: Make, 390,285; female, 372,579; native,
743,911; foreign, 18,883; white, 730,077; colored,
82,712—4 frienns 22,890; Chiesse 15; Luganese 32,717-Africans, 32,690; Chinese, 15; Japanese,

PRINCIPAL CITIES .- Wheeling, "Nail City," metropolis of State, noted for extensive city, interopors of state, noter the extensive manufactures of iron and steel, glass, and pottery, population, 34,522; Huntington, second in size, population, 10,108; Parkersburg center of petroleum industry, population, 8,408, Charleston, capital, population, 5,742.

AGRICULTURAL, ETC.—Chief products.

AGRICULTURAL, ETC.—Chief products, tration wheat, corn, hay, tobacco, and oats. Cereal products, 1891: Corn, 18,888,000 bushels, value, \$9,822,000; wheat, 3,423,000 bushels, value, \$2,3285,732; oats, 2,325,000 bushels. Tobacco product, 2,662,021 pounds. Livestock Interests are extensive; number farm animals, 1891, (58,825,0 value, \$23,445,908.

SHNERALS.—Coal the most important. Area, 16,000 square miles; 115 regular mines, 206 local; output, 1899, 6,231,800 tous, value, \$5,086,581. Iron ores abundant, but not exten-rate, 6.

HISTORIC VI.. - Formed from northwest- | sively mined. Sait springs exist in Kanawha and Ohio valleys, yearly product about 250,000 hushels

MANUFACTURES .- Leading industries: from and steel, tobacco, glass, pottery, coke, dour, and leather. State ranks fourth in the South in plg from production, 1890, 198,764; ranks fourth in United States in steel, pro-

rains fortum from a state in steel, produced 183,225 tons in 1800, industry begun since 1830. Coke, 240,386 tons, value, \$405,635, RA HAWAYS.—State has one mile of railway to each 15,22 square miles, There were 57 miles of read in operation in 1850; 241, 1855; 354, 1890; 387, 1870; 570, 1975; 691, 1880; 1,038, 1885; 1,547, 1891.

EDUCATION. - School system adopted EDUCATION.— School system adopted 1833. Permanent school fund, \$451,000. Number pupils in public schools, 163,293, School age, 6-31. State Normal schools, Fairmont, Glenville, Huntington, West Liberty, Number pupils in private schools, 4,667. Number colleges, 7. University of West Virginia, Morgantown, organized 1852.

POLITICAL.—State, congressional, and presidential elections, Thesday after first Monday in November. Number Senators, 39; Representatives, 65; sessions, hiemial in odd.

Representatives, 65; sessions, hiennial in oddnumbered years, meets second Wednesday in January; limit of session, 45 days; term of Senators, 4 years; Representatives, 2 years. Kumber electoral votes, 6; number voters, 181,400. Voters must be actual citizens, residents of State, I year, county, 60 days; registration prohibited. Lunatics, paupers, and convicts excluded.

LEGAL HOLIDAYS, - January 1, February 22, July 4, Thanksgiving, and December 25. CIVIL WAR.—West Virginia furnished 32,068 men—31,872 white troops and 196 colored; musber deaths, 4,017. State has 9,787 pensioners.

LEGAL.—Statutes of limitation: Judg-

ments, 10 years; open accounts 5; notes, 10; redemption of tax sales, 1 year. Legal interest

State seceded January, 1801; re-admitted December, 1870.

AREA, ETC .- Total area, 59,475 square Attr. A. L. Total area, 63,363 signifer niles; land, 58,390 square niles; extreme length, north to south, 320 miles; greatest breadth, 250 miles. Georgia has a coast line of 128 miles, shores skirted with a chain of islands, which, with main shore, constitute 480 miles of coast. Numerous navigable rivers furnish an abundant water-power. State celebrated for its fine mountain scenery and the great beauty and grandent of its many waterfalls.

grandent of its many waterfalls.

CLIMATE.—Temperature at Atlanta:
Mean winter, 43°, extreme, —2°; summer, 78°,
extreme, 100°; Angusta, winter, 47°, extreme,
6°; summer, 82°, extreme, 100°; Savannah,
winter, 51°, extreme, 12°; aummer, 82°, extreme, 105°. Average annul rainfall, Atlanta,
55.9 inches; Angusta, 48.6 inches; Suyannah,
52.9 inches. 52.9 Inches

POPULATION. - Georgia ranked thirteenth in 1700, twelfth in 1800, eleventh in 1810 and 1820, tenth in 1830, ninth in 1840 and 1810 and 1820, tenth in 1830, muth in 1840 and 1850, eleventh in 1860, lwelch in 1870, thisteenth in 1860, and twelfth in 1860. Total population, 1700, 685-48; 1800, 192.696; 1810, 228, 433; 1820, 340,885; 1830, 516 823; 1830, 691,392; 1850, 504,185; 1830, 1,1057,286; 1870, 1,184,109; 1880, 1.584,185; 1830, 1,187,285; 1840, 1,184,109; 1880, 1.584,185; tenule, 917,428; native, 1,835, 216; foreign, 12,137; white, 978,357; colored, 858,966 — Africans, 858,915; Chinese, 108; Japanses, 5; Judians, 69

ese, 5; Indians, 69.
PRINCIPAL CITIES.—Atlanta, the canital, an important railway and manufacturing center, population, 65,538; Savannah, a com-mercial center, the largest scaport, and termiaus of important railway lines, population, 43,185; Augusta, an extensive cotton market and principal center of cotton manufactures. pupulation, 33,389 Macon, center of the educa-tional interests, population, 22,7%; Columbus, a large cetton market, population, 17,303, URBAN PDPOLATION.—State had

nineteen cities and towns in 1880 with an uggregale population of 151,166; aggregate of gregale nopulation of 151,160; aggregate of same places in 1890, 243,128; increase, 91,632, or 61,57 per cent. Greatest numerion increases found in Atlanta, 28,124; Savumah, 72,480; Angusta, 11,469. Percentages of increase greatest in Wayerosa, 435 per cent.; Bruns-wick, 192,60 per cent.; Thomasville, 115,81 per cent.; Rome, 79,44 per cent.; Macon, 78,41 per cent.; Americus, 76,01 per cent.; Atlanta, 75,18 per cent.

HISTORICAL. — First Important settle- cessfully cultivated. Corn and cotton are the cessing cultivated. Corn and cotton are the staple crops. Latest reportagive errops. Cotton, 27,829,000 bushels, value, \$25,102,070; cotton, L210,000 bules, value, \$4,11,842,000; onts, 7,288,000 bushels, value, \$4,312,754; annual production of sweet potatoes, 5,000,000 bushels; rice, 25,000 000 poinds. Sugar-cane, tobacco, and peanuts are grown. Cultivation of melots, tomatoes, and vegetables for Northern markets an linportant industry. Fruits of temperate and sub-tropical regions cultivated. Vithenllure a growing industry; State has 1,328 acres of bearing vines and 2,151 arres in new vineyards. In 1889, 3,976,000 pounds of tabe grapes and 107,606 gallons of wine were produced. Vulne of all farm products, 1800, \$95, 986 890. 980,600.

LIVE STOCK.—During the past decade great improvement has been made in all grades of farm animals. Number and value 1891: Horses, 101,200, value, \$8,450,607; pmles, 157,257, \$14,918,959; mileb cows, 354,589, \$6,382,-494; oxen and other cattle, 560,200, \$5,618,450; sheep, \$83,017, \$673,950; swine, 1,691,275, \$5,-

FORESTRY AND LUMBER.-Stale bas an estimated area of 17,284,000 acres under forest. Wealth of the forests large and varied; Georgia plue leads all other varieties of that species in value and importance. Es-timated amount of pine still standing, 18,130,-000,000 feet. Georgia forests furnish the most valuable ship-timber grown in the United States. Atlantic coast line has a strip of liveoak limber 100 miles long and fifteen miles wide. There are 472 large saw-mills and wood-working establishments; value of humber, shingles, etc., in 1890, \$8,253,000.

MINERAL WEALTH.—The abundant

and varied mineral resources are largely undeveloped, from ores exist in inexhaustible quantities. Georgia ranked twelfth in 1890 among iron-producing States; stands second nuly to Virginia in production of manganese ores. Coal area in northwest covers 200 square miles. output 1889, 225,934 tons. Amount of gold deposited at mints and assay Amount of gold deposited at mints and assay offices, from organization to January, 1891, 88, 872,130. Building stone, murble, and slafe are abundant. State ranks sixth in production of granife, value of output, \$752,481; number cable feet quarried, 2,435,092. Value of narble quarried in 1895, \$156,250. An important vein of black marble has been opened and is being developed. Cheroker and Pickeus counties may referred a grant of the industry. are principal sents of the industry.

MANUF. CTURES Georgia leads the Southern States in cotton manufactures. Number mills 53, looms 16,306, spindles 430,-973; amount of cotton manufactured talo Augusta, 11.409. Percentages of increase greatest in Wayeress, 435 per cent.; Bruns-wick, 192.60 per cent.; Thomasville, 115.81 per cent.; Rome, 79.44 per cent.; Macon, 78.44 per cent.; Rome, 79.44 per cent.; Atlona, 75.48 per rent.

AGRIFULTIER.—Nearly all productions of temperate and sub-tropical regions are such portant. Industries of the State. Value of naval stores—tar, pitch, resin, and turpentine—shipped from Savannah and Brunswick exceeds \$3,000,000 annually. Annual value of all manufactures over \$70,000,000.

\_BAILWAYS.—Georgia leads the Southern Stores and Parkers and Parkers (1992).

States in railway mlleage. January, 1892, State had 4,826 miles of road in operation, or one mile of road to each 12 3 square miles. Number miles of road 1840, 185; 1250, 643; 1855, 1,020; 1880 and 1865, 1,420; 1870, 1,845; 1875, 2,224; 1880, 2,459; 1885, 3,116; 1890, 4,592; 1891, 4,826, **EDUCATION.** — Previous to Civil War

State had no system of common schools. Present system went into effect 1873. Number pupils in public schools 1889, 342,582; expenditures, \$967,590. School age, 6-18. Number pupils in private schools, 49,131. State has 7 ments, 7 years; open accounts, 4; notes, 7; colleges, 17 seminaries, and 88 academies. The public of tax sales, 2 years. Legal inter-university of Georgia, Athens, organized 1785.

LEGAL HOLIDAYS,-January 1 and 19, February 22, April 26, July 4, Thanksgiving, and December 25.

ROLITICAL.—State elections biennlal, first Wednesday in October. Congressional and presidential elections, Tuesday after first Monday in November; number of Senaters, 44; Representatives, 175; term, 2 years; sessions biennial, in even-numbered years, meeting first Wednesday in November; limit of session, 40 days. Number of electoral votes, 13; number voters, 398,122. Voters must be actual citizens, residents of State, I year, of county, 6 months. Idlots, insane, and criminals excluded.

anese, 3; Indians, 71.

PRINCIPAL CITIES.—Louisville, the metropolis and chief commercial city, one of the largest tobacco markets in the world, population. 161,129; increase during past decade, 37,371 or 30,20 per ceut.; Covington and Newport, opposite Cincinnatl, populations, 37,371 and 24,918; Lexington, former capital, founded 1776, incorporated 1782, population, 21,507; Frankfort, the capital, population, 7,892; Lonisville and Paducah, ports of entry.

ACRICILITURE.—Products widely

AGRICULTURE. — Products widely varied; most prominent tobacco, cereals, and henp. Ranks first in tobacco, cereals, and henp. Ranks first in tobacco, yeied in 1889, 221,880,303 pounds, value, \$34,844,449; icaf tobacco has netted growers from 1856-80, \$267,000,000. Corn crop 1891, 82,795,000 bushels, value, \$33,117,984; wheat, 18,181,000 hushels, value, \$11,862,864; oats. \$1,72,000 bushels, value, \$9,412,735. State ranks first in hemp, produces 93,77 of the total yield; acreage 1889, 23,468, tons, 10,794, value, \$1,045,081.

LIVE STOCK.—State has a large amount of capital invested in live stock; much attendation.

LIVE STOCK.—State has a large amount of capital invested in live stock; much attention is given to the hreeding of fine cattle, horses, and mules. State especially famous for the speed of its trotting and running horses. Number horses on f rms 1891, 402,573, vaiue, \$27,890,026; mules, 151,026, value, \$10,472,211; milch cows, 380,284, value, \$6,965,742, cattle, 467,060, value, \$7922,866; sheep, 773,336,

value, \$2,456,880; swine, 2,346,208, value, \$0,-

MINERALS.—The coal areas of the State cover 14,000 square miles. Cannel coal mined in Kentheky is among the best known. Output of coal mines 1889, 2,399,755, value, \$2,374,239. Total number from mines 1889, 6; output, 107,000 per public 1998, 107 77,487 tons, value, \$133,550. State ranks third as a producer of carbonate ores. Lead, zinc, unris, limestone, and sandstone exist.

MANUFACTURES. -State occupies fourteenth place among iron-manufacturing States; production of pig-iron, 1899, 44, 198 tons. State has 45 establishments engaged in the wool industry; capital invested, 22, 92, 383, employes, 2.042, value of products 1800, \$2.784,768. In 1890 it rank d first in production of distilled spirits. Distilleries numbered over 500 and

spirits. Pisalleries numbered over 500 and produced 36,378,277 gallons.

RAILWAYS.—First railway — Lexington to Frankfort—begun October, 1831, completed 1835. Number of miles in operation 1835, 15; 1840, 23; 1850, 78; 1855, 242; 1859, 634; 1865, 557; 1870, 1,017; 1875, 1,286; 1880, 1,530; 1885, 2,000; 1800, 2,346; 1201, 2,076.

EDUCATION.—A public school system framed 1828, present system came into force 1873. Public school sps. 6-20. Pupils enrolled in public schools, 1830, 407,567; in private schools, 38,934. Transylvania University (now Kantucker, Malarith). Kenticky University, Lexington, founded 1788. Number colleges in State 17. LEGAL HOLIDAYS.—January 1, Feb-

mary 22. July 4. Thanksgiving, December 25, and public fast days.

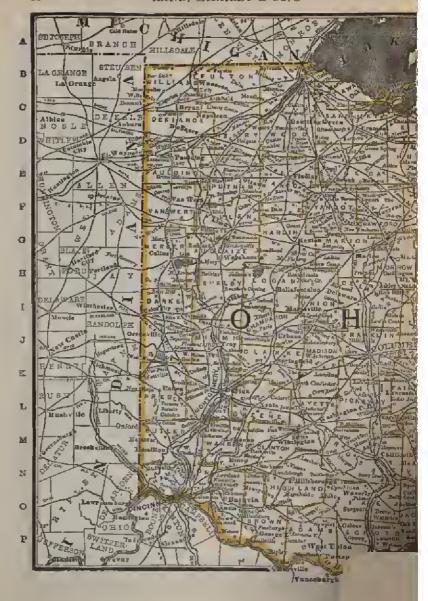

POLITICAL, - State elections biennial. Political, — State elections blennial. State, congressional, and presidential elections, Treaday after first Monday in November; number of Senators, 88; Representatives, 100; sessions blennial, in odd-numbered years, limit of session, 60 days; term of Senators, 3 years; Representatives, 2 years. Number of electoral votes, 13; number voters, 480,702. Voters must be actual citizens, residents of State 2 years, county 1 year, precinct 60 days; no registration required. Convicts excluded. LEGAL.—Statutes of limitation; Judgments, 15 years; open accounts, 5; notes, 15;

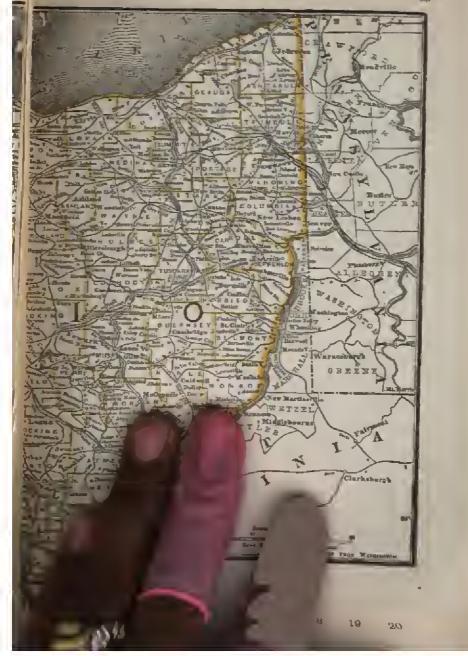

ments, 15 years; open accounts, 5; notes, 15; redemption of tax sales, 2 years. Legal interest rate, 5; by contract, 8.

## INDIANA.

Iń de-un'ah, '' Hoosier State.''

Ibrived from "Indian,"

HISTORICAL.—Originally a part of New acres, 52,807,000 hushels; cats, 893,067 acres, France. First visited by the Jesuits, 1673, 21,034,000 hushels. Latest reports give yield of buckwheat, 00,950 bushels; harley, 250,200 at Vincennes, 1727. Country came under Rog-bushels; rye, 877,532 hushels; hary, 1,812,540 lish rule, 1763. Vincennes captured by Col. tons, value, \$18,995,000; tobacco, 7,710,207 cettailed. First perminent selflement made by French at Vincennes, 1737. Country come under English rule, 1768. Vincennes captured by Col. Clark, of Virginia, 1779, and Indiana became American territory. Under ordinance of 1787, formed part of the Northwest Territory. Indiana Territory organized, 1800; admitted into the Union as a State December 11, 1816; the sixth State dumitted. State constitutions the sixth State admilled. State constitutions adopted 1816 and 1951.

AREA, ETC. -38,350 square miles; land area, 35,010 square indies; water, 440 square miles; extreme length, 275 miles; average miles; extreme length, x,o miles; average breadth, 15 miles; grentest allithde, 1,140 feet; lowest, 370 feet; mean average, 735; coast line on Lake Michigan, 60 miles; Michigan City only lake harbor. Ohio river forms entire southern boundary. Wabash, the largestriver in the State, drains three-fourths of the entire area. State well watered, but few of the

area. State well watered, but few of the streams navigable.

CLIMATE.—Temperature at Indianapolis: Mean winter, 28°, extreme, —30°, summer, 76°, extreme, 101°. Average annual rainfail, Indianapolis, 44.4 inches.

POPULATION.—Indiana ranked twenty-first in 1800 and 1810, elgiteenth in 1830, thir teenth in 1830, tenth in 1840, seventh in 1850, thir teenth in 1830, tenth in 1840, seventh in 1850, thir in 1860, 1870, and 1850, and elgith in 1890.

Total population, 1800, 5.841; 1810, 24.831; 1820, 147.178; 1831, 343,031; 1840, 685,896; 1850, 1881, 348,181, 1850, 1,304,481; 1870, 1,389,637; 1850, 1,978,334; 1860, 1,380,481; 1870, 1,380,637; 1850, 1,978,334; 1800, 2,392,404. Classification: Male, 1,114,347; female, 1,074,057; native, 2,046,199; foreign, 146,205; white, 2,146,738; colored, 45,568—Africans, 45,215; Chinese, 92; Japanese, 18; Indiana, 343.

PRINCIPAL CITIES .- Indianapolis, the capital and chief city, prominent as a ruiroad and manufacturing center, population, 105,436; Evansville, the commercial center of the southwest, and second city in importance, populawest, and second city in importance, popula-tion, 50,756; Fort Wayne, most important city of the northeast, prominent in manufactures, population, 30,398; Terre Haute, an active cominercial and educational center, population, 99,217; South Bend, an important manufactur-ing point in the north, population, 21,819, URBAN POPULATION.—At the census

of 1880, twenty-seven cities and towns had in population of 4,000 or more, aggregate popula-tion being \$27,438; during the past decade the number of cities having 4,000 or more popula-tion hereased to thirty-seven, aggregate pop-ulation, 507,133, increase, 179,885 or 54,97 per rent. Greatest numerical increase, Indianap-olis, 30,380 or 40,48 per cent.; Evansville, 31,476 or 22,87 per cent.

or 73.35 per cent.

AGRICULTURE.—Cultivation of the soil forms the chief industry. Scock-ratising and dairy farming successfully and extensively carried on. State ranks fourth in production of corn, wheat, and swine. Acreage and yield of principal crops 1801: Corn, 3,712,850 acres, 123,622,060 bushels; wheat, 2,917,518 Chief among the present industries are the

motions, motioned and small fruits are cultivated extensively. Who enture began by Swiss settlers of Vevay in 1813; State now has 3,850 acres under bearing vines, 1,000 acres under new vineyards; 10.780,000 pounds grapes sold for table use, and 221,500 gallons of wine made in 1889. The State has 220 autoseries, with a total of 5,464 scree; capital invested, \$1,056 stil; number for a under straight 1,025; scall for its number for a under straight 1,025; scall for its number ser, s under apples, 1,025; small fruits, 1 298; plum, pear, and peach trees follow in order. Indiana has 107 establishments engaged in floriculture-13 owned and managed

gaged in floriculture—13 owned and managed by women; total value, \$782,807; plant sales, \$276,909; cut dowers, \$184,947.

LIVE STOCK. — Number and value of farm animals 1891; Horses, 725,256, \$33,388,703; mules, 56,841, \$4,342,044; milch cows, 557,048, \$15,278,369; cattle, 1,085,236, \$20,025,259; \$39 per cent. of total number cattle high-grade stock; sheep, 1,161,702, \$4,298,762; swine, 3,586,384, \$12,787,060.

MINPEAL RESOURCES. — Principal

MINERAL RESOURCES. — Principal minerals, coal, Iron, petroleum, natural gas, limestone, sandstone; fire, pottery, and lerra cotta clays; while sand for manufacturing plate glas, molifing sand, and at Michigan City an extensive supply of sand for grean and colored glass. Salt and medicinal springs are numerous in the south. Coal measures are bituminous, they include indiana block— 0 0 square miles—coking and cannel roals; total area of coal field, 7,600 square miles. total area of coal field, 7,000 square miles, belougs to Central or Illinois field; product-of mines, 1889, 284,087 cons, value, \$1,454,327. LIMESTONE AND SANDSTONE.

Slone industry advanced rapidly in importance during past decade. Among the North Contral States, Indiana stands second in importance as a producer of limestone; ranks third in country in justal value of production, but second in limestone quarried for building; number quarries, 1883, 172, total value of out-put, \$1,880,836; cubic feet quarried for brild-ing, 7,400,345; line manufactured, 1,074,517 barrels. State has II sandstone quarries, output 1889, 384,441 cubic feet, value, 843,483. Grauge County produces superior quality for abrasive purposes, 38,113 cubic feet quarted there in 1889.

PETROLEUM AND NATURAL GAS. -Indiana produced \$3,758 barrels of petroleum in 1880, and 63,496 barrels in 1800. State has in less, and og-see parties to loss. State has about sixty towns with paying gas wells; capital layested in gas Industry. 1883, \$8,295,813; amount of coal displaced by gas, 1808, 807,000 tons, value, \$2,242,500; word displaced, 30,000 cords, value, \$2,242,500; word displaced, 30,000 cords, value, \$29,000.

MANUFACTUREN.—State possesses ex-

riages and wagous, furniume, railway cars, lumber, flour, pork packing, and woolen goods. Latter industry has sixty-five estab-lishments, with a total capital of \$3,827,195; number of employes, 3,162, wages paid, \$517,-387; value of products, \$3,203,786. Indiana has 6 mills engaged in cotton manufactures capital Invested, \$1,744,720; number of em-playes, 1,225—325 men,749 women, 225, hildren; amount paid in wages, \$932,676; cost of materials used, \$919,566; total value of products, \$1,350,042. State occupies thirteenth place as a producer of steel and eighteenth place la pig iron production.

RAILWAYS.—State well supplied with

attray facilities. Number miles in operation; 1846, 22; 1850, 111; 1855, 1,405; 1890, 2,163; 1865, 2,217; 1870, 3,477; 1875, 3,933; 1880, 4,373; 1883, 5,614; 1890, 6,100. State has one mile of rativacy to each 5,05 square miles.

way to each 5.95 square miles.
EDUCATION.—Common school system
established under constitution of 1851, in operation since 1883. School age, 6-21. Number
pupils in public schools, 1890, 507,284. State
Normal school, Terre Haute. Number pupils
in private schools, 43,505. State has 15 col-

leges, 2 seminaries, and 18 academies. Indiana State University, Biomington, organized 1829. LEGAL HOLIDAYS,—January I, February 2, May 30, July 4, first Monday in September, Thanksgiving, December 25, public fast, and observer.

and election.

STATE INSTITUTIONS. - Institutions for education of the blind and deaf and dumb, est rate, 6; by contract, 8.

manufacture of agricultural implements, car- at Indianapolis; school and asylum for feeble-riages and wagous, furniture, railway cars, imind youth, Fort Wayne; Soldiers' and Sail-lumber, flour, pork packing, and woolen ors' Orphans' Home, bar Knightslown; Ensi-goods. Latter industry has sixty-five estab-orn Indiana Hospital for Insane, Richmond; Southern Insana Hospital, Evansville; Northern, Long Cliff, near Logansport; Central, Indianapolis. State prisons at Jeffersonville and Michigan City; woman's prison and reform school for girls, Indianapolis; reform school for boys at Plainfield.

POSTAL,—Total number post offices 2,993; number presidential offices, 107—5 first-chass, 24

second-class, 78 third-class; number fourth-class offices, 1,989; money order, 999, CIVIL WAR.—State furnished 196,383 mon—193,748 widle troops, 1,978 sailors and marines, 1,337 colored troops, aggregate number deaths, 26,672. State had 55,704 pensioners on the rolls, June, 1891.

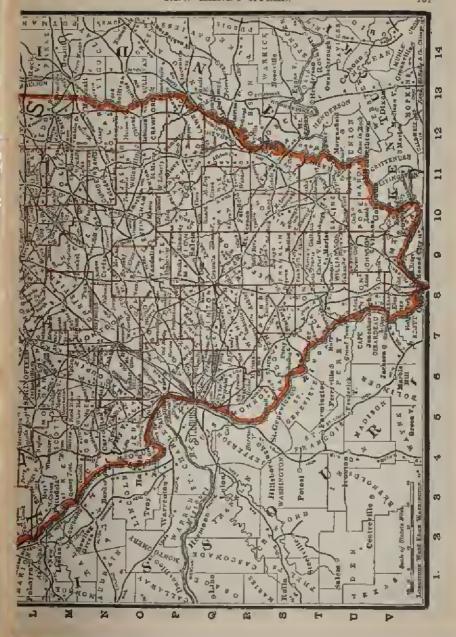

POLITICAL — State elections bigminal.

State, congressional, and presidential elec-tions, Tuesday after first Monday in Novem-ber; number of Senators, 50; Representatives, 100; sessions biennial, in odd-numbered years; limit of session, 61 days; term of Schators, 4 years; Representatives, 2 years. ### Il-lin-of'. "Prairie or Sucker State."

From Indian, "Illini," men, and French, "ois," tribe of men.

HISTORICAL.—The eighth State admitted one-fourth total acreage under apples, plums into the Union. First mission by the French rank second. State has 21 seed farms of established near Utica in 1675; first permanent 19.357 acres, capital invested, \$1.717.432; numsettlement under at Cahokin about 1682; Kasber 16.753 establishments, \$30-35 owned and kaskia scatted in 1700; Illinois Territory organ-ized 1809; admitted as a State 1818; second constitution adopted 1848; present constitution ratified in 1870.

ratified in 1870.

AREA.—56,650 square miles; land, 56,600 square miles; greatest length, 985 miles; greatest breadth, 216 miles; highest land, 1,150 feet; number of counties, 102; number of unlies of navigable streams, 4,600.

CLIMATE. — Temperature at Chicago; Mean winter, 24°, extreme, —23°; sammer, 22°, extreme, 10.0°; nverage rainfall, 36.2 thehes. Springfield, winter, 25°, extreme, —20°; summer, 77°, extreme, 102°; average rainfall, 40.7 inches. Cuto, winter, 34°, extreme, —16°; sammer, 79°, extreme, 103°; average rainfall, 43.6 inches. 43.8 inches

POPULATION,-Illinois ranked twentyfourth in population in 1810 and 1820, twentieth in 1830, fourteenth in 1840, cleventh in 1850, fourth in 1860, 1870, and 1880, third in 1890, Population 1810, 12,382; 1830, 55,162; 1830, 157,-445; 1840, 475,783; 1850, 851,470; 1850, 1,711,951; 1870, 2,530,691; 1880, 3,077,871; 1890, 3,626,351, Classification; Male, 1,972,308; female, 1,854,048; Oassingation and 150 cases, 150 c

is and to Springfield, 1837; Legislature first net at Springfield, 1839. Chicago, "Garden City of the West," population, 1829. L438,010; Feorla ranks second, population, 41,021; Quincy third, population, 31,494; Springfield, capital, ranks fourth, population, 24,283; Rackfurt ranks 47th. population, 23,584; Tellet sixth, population, 23, 264.

URBAN POPULATION.—Large increase in urban population since commercation of 1880. Teath census showed 88 cities with a populathen of 4,000 or more; aggregate population, 841,462; eleventh shows 47 cities and towns having a population of 4,000 or more; aggre-gate population, 1,004,943. Numerical increase greatest in Chicago-596, 665 or 118.58 per cent.: percentage of Increase greatest in Austin—198 per cent.; Oak Park—192.70 per cent.; pectically subnrbs of Chicago, and Streater—121.83 per cent

AGRICULTURE.—Illinois, a leading agricultural State, has 42,000 square miles of fertile upland prairie. State ranks first in oats, area grown in 1830, 3,372,451 acres, product, 70,821,-000 boshels; ranks second to corn, area,7,154,424 acres, product, 187,446,000 bushels; area under wheat, 1,653,173 acres, product, 18,161,000 bushels

HORTICULTURAL, ETC .- Illinois ranks second in number, and third in capital invested in nurseries. Industry established 1840-50. Number nurseries, 1890, 434; acreage, 17,812. value, \$3,595,850; capital invested, \$4,778,088;

managed by women; total square feet of glass, 3,25,754, value of establishments, \$2,945,442; plant sales, \$605,796; cut flowers,

LIVE STOCK .- Hillnols leads in value of horses, number in 1890, 1, 128, 973, value, \$53,301,-912; ranks second in swins, having 5,433,250, value, \$30.517,479; third in cattle, 1.718,066, value, \$32,076,531; fourth as a dairy State, 1,072,473

milch cows, value, \$24,359,339.

COAL.—First discovery of coal in United States by Father Hennepin, near Ottawa, 1698. State second only to Pennsylvania in production of bituminous coal; coal area, 37,000 square miles; number of mines in State, 1,000; coal mind in 60 counties; total product, 1890, 12,638,000 tans, value, 311,785,000.

LIMESTONE.—Of the North Central

States, Illimois ranks first in the production of ilmostone. Number of quarries, 104; 21,433,967 cubic feet quarries for building; value, \$1,084,-556; 837,274 barrels of lime manufactured, value, \$360,245; total value of product, \$2,100,607.

MANUFACTURES.—In the manufacture

of distilled spirits, Illinois leads; latest reports give product as 33,000,000 gallons; State is fourth in fermented liquors; breweries produced 2,580,000 gallons. In the pucking of meat ill-linois ranks shead of all other States. It is recond in the production of steel, produces 20 per cent. of the entire product of the States. or 863,000 tons; ranks fourth in the production of pig Iron, producing 874,000 tons. In 1880, the State had 87 establishments engaged in the wool industry; capital invested, \$1,43,353; cost of materials used, \$1,623,898; value of products, \$2,380,584. Total number of establishments in 1890, 48; capital lovested, \$2,285,794; cost of materials used, \$1,768,270; value of products,

\$3.29,541.

RATLWAYS.—Illipola ranks first in railway mileage, Sinte has 6 per cent, of total infleage of United States. One mile of railway in each 5.5 square miles. Number of miles of railway in 1850, 111; 1855, 887; 1800, 2,730; 1805, 3,157; 1870, 4,883; 1875, 7,109; 1880, 7,851; 1885, 8,905; 1890, 10,199; 1891, 10,189. Capital Stock of Illinois railroads, \$847,483,296; bonds, \$920,-683,061. Amount of stock held in Hillinois, \$32,-430,623. 480,88

EDUCATION. - School system founded 1855; township high schools draf established 1867; school age, 6-21; permanent school fund, over \$12,900,000; number of public school-houses, 12,232; 778,340 papils enrulied in public schools; 105,000 in private schools. Illinois State Normal University located at Normal, over 1,100 students; Southern Blinois Normal Thiversity at Carbondiste, 1,400 students; Cook Camary Normal School at Chicago; University of Illinois, at Urbana, over 500 students, STATE INSTITUTIONS.—For cheation

of deaf, dumb, and blind at Jacksonville; Asylum

for Feeble-Minded Children at Lincoln; Soldiers' 1,007 for the war with Mexico; number pen-Orphans' Home at Normal; State Reform School sioners in the State, 49,711, Orphans' Homest Normal; State Reform School at Pontiac; Northern Haspital for Insune at Elgin; Easter : Hospital for Insane, Kankakee; Central Hospital for Insane, Jacksonville; Southcent Respital for Issanc, Anna: Asylum for Insane Criminals at Chester; Soldiers' and Sailors' Home, Quincy; Eye and Ear Infirmary, Chicago; Stata Penilentiaries, Joilet and Chester

LEGAL HOLIDAYS.—Japunry 1st, February 12th, February 22d, May 80th, July 4th, first Monday in September, any day appointed by Governor or President for Fast or Thanks

ay to vertice or President for rast or Hains-giving, December 35th. If Sunday, then Mon-day is holiday. Notes payable on Saturday. POSTAL.—31linois has 2,462 just offices, 220 of which are presidential uffices; there are six offices of the first class: 10, second class; 174, 1947 class; 2,342 fourth class, Number of money-order offices, 719; money-order stations, 84; postal notn offices, 32.

CLYLL WAR.—During the Civil War, Dinois for Britished a total of 439,062 men: 255,067 white troups, 2,224 sailors and marines, and 1,811 LEGAL.—Statules of limitation; Judg-colored troops, The total number of deaths from all causes was 34,834. June 30, 1894, there were 54,336 pensioners on the rolls of the Chi-colored troops, The total number of deaths from all causes was 34,834. June 30, 1894, there of taxallan, 32 on 3130. Leval interest, 5; by cago agency, 319 were for the war of 1812, and

POLITICAL.—Stare, congressional, and presidential elections, Tuesday after first Monday in November; number of Senators, 51; day in November; number of Senators, 51; Representatives, 153; sessions, blennial in other thindered years, meeting Weilnesday after first Monday in January; limit of ression, mue; term of Senators, 4 years, Representatives, 2 years. Number of electoral voics, 24. Number voices, 1,072,668. Voters must be actual chizens; residents of State, one year, of county, 30 days; registration required; convicts, unless perdoned, excluded.

NUPREME COURT.—There are seven judges, one from each of the seven districts; term, alone verse elections in Junn of the verse term.

term, aline years; elections in Juan of the year in which say term expires; Sinte divided into in which any term expires; Since divided into Northern, Central, and Sonitiero Grand Divisions; Court terms, Central Grand Division, held at Springfield, January and June; Northe-ern Grand Division, Ottawa, March and Onto-ber; Sonthern Grand Division, Mount Vernon,

The thirteenth State to epter

AREA, ETC.—Total area, 58,915 square miles; land area, 57,490 square niles; water, 1,485. State naturally divided into two penhisulas-Upper and Lower. Lower peninsula sulas-Upper and Lower. Lower peninsula has an average width, east and west, of 200 miles; length, north to south, 500 miles. Length of Upper Peninsula, east to west, 518 miles; width, 30 to 164 miles. Coast line 1,500 miles in length. Vessels of 2,000 tons may pass entire distance in sight of land. Greatest elevation, Upper Pen usain, Porcapine Mountain, 2,025 feet; Lower Peninsula, 574 feet.

CLIMATE.—Temperature at Grand Hawen: Mean winter. 212. extreme.—243:

CLIMATE. Temperature at Grand Haven: Mean winter, 21°, extreme, -24°; summer, 69°, extreme, 8-°; Marquette, winter, 16°, extreme, -27°; summer, 55°, extreme, 89°; Fort Huron, winter, 21°, extreme, -25°; summer, 69°, extreme, 98°. Average annual rainfall: Grand Haven, 37.9 inches; Marquette, 38.6 inches; Fort Huron, 32.1 inches. FOPULATION.—Michigan ranked twenty, 610°; in population in 180°, twenty-seventy.

ty-fifth in population in 1800, twenty-seventh in 1830 and 1830, twenty-third in 1840, twentlelli la 1850, sixteenth in 1860, thirteenth in 1870, la 1890, sixteenth in 1890, thirteenth in 1870, mith in 1880 and 1890. Total population, 1810, 4,702; 1824, 8,705; 1830, 31,630; 1840, 212,287; 1850, 327, 581; 1630, 730,131; 1870, 1,184,059; 1830, 1,636,937; 1890, 2,033,889. Classification; Male, 1,091,780; femnic, 1,008,108; mitive, 1,550,009; foreign, 5-3,830; white, 2,072,881; colored, 21,905—Africans, 15,224; Chinese, 120; Japanese, 38; Indians, 5,624.

PRINCIPAL CITLES,—Detroit, the metropolis a port of enlay and center of an ex-

tropolis, a port of enlry, and center of an extensive callway system, population, 25,873; Grand Rapids, an important manufacturing center, second in size, population, 60,278; Saginnw and Bny City are important points for export of lumber and salt, population, Saginaw, 46,822; Bay City, 27,839; Lansing, the capital, has a population of 13,162. Beside Detroit, Marquette, Port filtren, and Grand Haven are ports of entry.

POPULATION. - There are URBAN thirty-nine cities and towns of 4,000 or more inhabitants. Greatest numerical increases during decade found in Detroit, 80,536; Grand Rapids, 23,262; Sagitaw, 16,781; Muskegon, 11,440. Percentages of increase greatest in Menominee, 223-39 per cent; West Bay City, 102.92 per cent; Muskegon, 101.55 per cent; Marquette, 93,88 per cent.

reports give area under buckwheat as 70,045 neres, yield, 81,977 lushels; barley, 93,305 acres, yield, 2,522,375 bushels.

HORTICULTURE. — As a grower of

pearnes, apples, strawberries, and other fruits of the temperate climate, Michigan is one of the foremost states in the country. In 1890 there were 210,154 acres under apples; sales

there were 210,154 acres under apples; sales aggregated, 1,469,158 bushels; peaches, 20,128 acres; sales, 44,625 bushels; value of apples and peaches, 5044,325; value cherrics, pears, and plums sold, 585,217; strawberries, 5165,835; other berries, 5267,328; grapes, 5122,334.

LIVE STOCK. - Farm animals, 1891; Horses, 518,936, value, 540,757,333; mules, 3,770, value, 5323,901; mileh cows, 459,475, value, \$11,137,174; oxen, and other cattle, 508,928, value, \$10,521,380; sheep, 2,354,770, value, 57,560,338; swine, 892,637, value, \$4,611,839. 011,833

FISHERIES.—The fresh-water fisheries are among the most productive in the country. are among the most productive in the country. Over 1,709 men engaged in the industry to like Great Lakes. Capital invested, \$50,633. Total yield of all fish, 34,480,184 pounds, value, \$1,666,331. Among the fish taken, the most valuable are whitefish, trout, herring, and stargeon. Whitefish, the most popular of those taken, yield, 10,318,133 pounds, value, \$458,445 isks trout, one of rost humortant, yield. 445; lake trout, one of most important, yield, 6,967,995 pounds, value, \$275,305; herring, most nbundant, 3,516,290 pounds taken, value, \$69,-133; sturgeon, the largest fish found in the Great Lakes, yield, 7,215,958 pounds, value, \$41,701

MINERALS.-State occupies first place among iron-producing states; output quadru-pled during past decade. Michigan's tomage equals 40.31 per cent of total output of country. Value represents 47.38 per cent of the total value of entire country. Total number imp tous mined, 5,856,169, value, \$15,800,581. State reaks second only to Montana in copper prodirection; output for year, 87,435,675 pounds. Coal area, 7,000 square miles, production, 1889, 67,431 tons, value, \$115,011. Michigun excess all 57.431 tons, value, \$115.011. Michigin excels all other states in production of salt, producing more than one-balf the entire product of United States. Production, 1890, 3,837,732 barrels, value, \$2,302.574. State divided into modistricts, most productive, Saginaw and Manistee. There are large deposits of gypsum, 131,707 tons mined 1889, value, \$373,740—\$212,497 shues.

BUILDING STONES -Sandstone, linestone, and slate are quarried. Marble, equal ands, 28,262; Saghaw, 16,781; Muskegon, 14,400. Percentages of increase greatest in femoninee, 223,30 per cent; West Bay City, 20,22 per cent; West Bay City, 20,22 per cent. Muskegon, 101,58 per cent; feet, value, \$245,570. Among states producing larguette, 93,88 per cent.

AGRICULTURE.—Agriculture, a leading number quarries, 8, value of output, \$85,662. lumber industries. In 1890, Michigan had 1,957 establishments engaged in the various industries; enpital invested, \$111,322,797; employes 43,060; wages paid, \$12,813,835; total value of all products and manufactures, \$69,141,189.
Mill productions: Lumber, 4,311,249,000 feet; shingles, 2.841,213,000; staves, 247,875,000; sets of headings, 32,085,000. Value of forest products, not included in the mill product. \$5,909.584

CIVIL WAR,-State furnished 87,864 men -85,479 white troops, 488 sailors and marines, and 1,387 colored troops; aggregate unmber deaths, 14,753; number pensioners in State,

1891, 84,447.
RAILWAYS. - First railroad chartered, 182. Michigan Central compuleted, Detroit to Yosilanti, 1838. Number of miles in operation in 1840, 59; 1846, 238; 1850, 342; 1855, 474; 1860, 75; 1855, 847; 1870, 1,638; 1875, 8,391; 1860, 3,983; 1885, 5,301; 1890, 7,108; December, 1891, 7,187. State has one mile of railway to cach 8.19 square miles of territory.

EDUCATION.—Compulsory education a law since 1883. All districts required to furnish

law since 1883. All districts required to furnish text tooks to pupils, free of cost, since 1889. School age, 5-20. Number pupils in public schools, \$27,032; in private schools, 45.047. University of Michigan, Ann Arbor, organized 1837, has 2,650 students; State Normal School, Ypsilanti; Agricultural College, Lansing; Mining College, Houghton. Number colleges in State, 10.

LUMBER.—State leads all others in the cember 25, and any fast day. When holiday imber industries. In 1804, Michigan had 1,957 falls on Sunday the following Monday is

observed.
STATE INSTITUTIONS. — Michigan School for the Blind at Lausing; School for Deaf, Flint, established, 1854; State Reform School, Lansing: State Industrial School for Girls, Adrian, School for Dependent children, Coldwater, Michigan Iasane Asylum, Kalamazoo, established, 1839; Eastern Iusane Asylum, Pontiao, established, 1878; Asylum for Iusane Criminals, and State Reformatory are at Ionia; Northern Michigan Asylum, Traverse City; State Soldiers' Home, Grand Rapids; State Prison, Jackson,

POSTAL.—Total number postoffices, 1,323; number presidential offices, 150—4 first-class; 29 second-class; 1/7 third-class; number four-disas offices, 1,732; money-order offices, 445.

#### Wis kön'sin. WISCONSIN "Badger State."

Indian-"Wlid Rushing Channel."

made by French, 1684; Jesuit missions founded at La Pointe, 1685, Green Bay, 1669; first sottlers located on present site of Prairie du Chien, 1736; trading post established at Milwaukec, 1785; Portage City founded, 1793. Development of the lead regions, 1823–32, led to the settlement of Mineral Point, Dodgeville, and Platterilla. Wiscourie Tearther option. and Platteville. Wisconsin Territory organ-ized, April 20, 1886. State admitted into the Union, May 29, 1848; seventeenth State admit-

AREA, ETC .- State has a total area of AKEA, ETC.—State has a total area of 56,010 square miles; land surface, 54,20 square miles; water, 1,500; extreme length, north and south, 300 miles; breadth, east and west, 250 miles; shore line on Lakes Superior and Michigan, over 500 miles. Mississippl River navigable throughout southwestern boundary. Elevation of State ranges from 610 to about 100 feet. For Wisconsin Chinacest and

Elevation or State ranges from 60 to about 1,800 feet. Fox, Wisconsin, Chippewa, and other rivers furnish extensive water power.

CLIMATE.—Temperature at La Crosse; Mean winter, 18°, extreme, —43°, summer, 73°, extreme, 100°; Milwankee, winter, 10°, extrame, —25°, summer, 09°, extreme, 100°. Average annual rainfall: La Crosse, 31.9 inches; Milwankee, 32.8 inches.

POPILATION. Wisconsin ranked firiti.

POPULATION. Wisconsin ranked thirtieth in population in 1840, twenty-fourth in 1850, diteenth in 1860 and 1870, sixteenth in 1830, and fourteenth in 1800. Total population, 1840, and fourteenth in 1800. Total population, 1840, 80,945; 1850, 365.39; 1850, 775.88; 1870, 1,054,670; 1850, 1,315,497; 1850, 1,685,880. Classification; Male, 874.951; female, 811,929; mative, 1,187.681; foreign, 510,199; white, 1,680,473; colored, 6,407—Africans, 2,444; Chinese, 119; Japanese, 9; Indians, 3,835.
FRINCIPAL CITIES—Miwankee, the

metropolis, a prominent manufacturing and railway center; its lake commerce extensive and rapidly increasing, population, 204,488; La Crosse, second city in rize, has numerous manufactories and a large shipping trade, population, 25,030; Oshkosh, a prominent lumber center, population, 22,836; Rucine, one of the finest burbors on Lake Michigan; city of the finest burbers on Lake Menigan; cuy has many important manufactures, population, 21,014; population Ean Claire, 17,415; Sheboygan, 16,859; Madison, the capital, population 13,425.

URBAN FOPULATION,—Consus of 1800 returns thirty-five cities and towns showing more than 4,000 lebabitants. Greatest numerical impenses at Millenniae, 38,881; Superior

leaf increases at Milwaukee, 89,881; Superior, 11,083-this city did not exist in 1880, county containing but 656 inhabitants; La Crosse, 11 -535; Sheboygan, 9.045. Percentages of increase greatest la Kaukanua, 459,59 per cent.; Marinette, 319; Sheboygau, 123,67; Chippewa Falls, 117,73; Wansau, 116,34; Wankesha, 112 90

AGRICULTURE. - State census of 1895

11 IS T O R I O A L.—Earliest explorations | In bushels; Corn, \$1,624,216; wheat, 11,696,623; ade by Freuch, 1634; Jesuit missions foundated as a G0,730,683; barley, 15,225.872; rye, 4.520, at La Polnte, 1605, (Ireen, Bay, 1605; first 582; buckwheat, 1,644,178. Average annual production of potaloes, about 10,000,000 bushels, value of hay, \$15,000,000. Excellent tobac-co, hops, and fax are grown. Wisconsin ranks seventh among tobacco producing states; number pounds grown, 1889, 19,389,16%; value, \$1,260,585. Dano County, one of the leading tobacco producing districts of the country, produced 10.000,100 pounds. State produced 18,227 bushels of flax seed and 4,591 produced 05,225 busines of flat each due 379,058; hops, 428,547 pounds; value, 851,983, HORTICULTURE, ETC.—Lutest reports

HOWTICULTURE, ETC.—Latest reports give production of apples 1,879,855 bushels; value, \$438,855; grapes, 541,735 pounds; value, \$529,861; berries, 70,768 hushels; value, \$179,424; maple sugar, 169,868 pounds; maple molasses, 87,014 gallons; hency, 1,432,765 pounds; sorghum, 599,631 gallons. Number of nurseries, 117, with 1,651 acres of land; capital Invested, \$983,277. Seed farms, 21; acreage, 2,916; capital, \$180,872. State has 105 florists' establishments-6 owned and managed by women;

ments—6 owned and managed by women; value of establishments, \$490,581; plant sales, \$101,052; cut flower sales, \$300,711.

LIVE STOCK.—Number and value of farm natimals, 1891; ltorses, 462,783, \$34,441,649; mules, 6,342, \$498,819; milch cows, 701,774, \$14,443,432; oxen and other cattle, \$96,673, \$18,749,322; sheep, 907,708, \$2,668,630; swine, 1,109,630, \$5,085,584. Dairying has long been and large-tranticity interter. an important industry; trutter and cheese of State bear a high reputation; latest available reports, census of 1885, give production of cheese, \$3,489,000 pounds; butter, 30,240,000 pounds

MINERALS.-State occupies fifth place as a producer of iron; number of mines, 16; output, 887,899 tons—735,429 red hematite—value, \$1,840,908; lead and zinc mining show-Ing renewed activity; output of mines, 1889; Lead, 3 355,159 pounds; value, \$64,082; xin, 49,683,765 pounds; value, \$506,067. Stale ranks fourth in production of zinc. Granite indusfourth in production of zinc. Granice industry developed during past decade; number quarries, 8; output, 1,885,600 cubic feet; value, \$256,695. Among North Central States, Wisconsin ranks third in production of saudstone; 32 quarries; production, 1,146,736 cubic feet; number limestone quarries, 79; total value of products, \$813,663; 4,527,351 cubic feet of iniliding stone quarried; 1,561,811 harrels of lime manufactured; in 1891, 425,000 barrels hartural rock coment, produced; value of the

inne manufactured; in 1891, 425,000 actres natural rock coment produced; value of metallic pulnt produced, \$31,025.

MANUFACTURES.—Ranks tenth in production of pig iron; manufactured, 1890, 210,637 tons; mimber weolen mills, 65; capital, \$4,049,529; employés, 3,513–878 men, 2,811 women, 150 children; wages paid, \$810,623; cost of materials used, \$2,015,693; value of products, \$2,025,185; number cotion mills, 41 gave 332,500 persons engaged in agriculture; products, \$58,-18,185; number cotion indis, 4; total value of farms and farm products, \$585,-1 capital, \$525,500; employes, 501; wages paid, 187,288. State well adapted to the growing of \$14,470; cost of materials used, \$385,183, cereals. Latest reports give cereal products value of products, \$300,100. Milwankee reports 174 separate industries, total establishments, 2,807; capital invested, \$68,285,395; employés, 41,127; wages paid, \$19,296,998; maiorials, \$51,717,487; value of products, \$91,354,932. Most important manufactures: Malt burger, realized wasts laceburger formular and liquors, packed meats, leather, foundry and

machine shop products, and flour.

LUMBER.—Wisconsin River Valley, center LUMBER.—Wisconsin River Valley, center of most productive white-pine districts in the world. In 1800, State had 803 establishments engaged in the lumber industry; capital invested, \$84,536,023; employes, 81,003; wages naid, \$8,313,188; value materials used, \$50,755,755; products and manufactures, \$49,547,410; value of forest products, \$2,361,357, Production of mills, 2,831,517,000 feet of lumber, 1,366,022,000 shingles, 68,187,000 staves, and 7,810,000 sets of headings. Number establishments, 1880, 704; employés, 7,748; capital, \$19,823,059; products, \$17,932,347.

FISHERIES.—Inland lakes and streams contain numerous varieties of excellent fish.

contain numerous varieties of excellent fish. The Wisconsin Fish Commission annually stocks the waters with trout, white-fish, pike, and carp. Fisheries of Lake Michigan and Lake Superior employ 687 men, with 514 beats; Lake Superior employ us rich, with us coast, value of boats and apparatus, \$204,300; capital invested, \$289,809. Total number of pounds taken, 14,771,560; value, \$636,083, Most important were trout, of which £385,207 pounds, valued at \$130,573, were taken; herring, 6,589, valued at \$130,573, were taken; herring, 6,58

289 pounds; vaine, \$123,659; white fish, 1,433,-611; value, \$57,522.

CLVIL WAI: —State furnished \$1,327 men—
91,029 white troope, 133 sailors and marines, 165 colored troops, total number deaths, 12,801.

Number pensioners in State, 1891, 29,609.

IKAILWAYS.—First railway in the State, 20 miles in length, constructed, 1855; number of miles in operation, 185, 187; 1800, 205; 185, 190; 7870, 1,525; 1855, 2,506; 1880, 3,185; 1880, 4,881; 1890, 5,615. State has one mile of railway to each 10 square miles.

EDUCATION.-State makes liberal pro-EDUCATION.—State makes liberal provisions for its common schools. In 1890, 350, 342 pupils were enrolled in public schools; expenditures, 53,711,286; school age, 4-20, number pupils in private schools, 58,448. University of Wisconsin, Madison, chartered 1848, has 1002 strategic. has 1,037 students. State normal schools at Oshkosh, Platteville, Whitewater, River Falls,

OSBAGGA, PRIDEVINE, WINTEWRIEF, RIVET FRIS, and Milwaukes. Number colleges, 9.

LEGAL HOLIDAYS, January 1, February 22, May 30, June 10, July 4, Thanksgiving, December 23, and general election.

STATE INSTITUTIONS. — Wisconsin

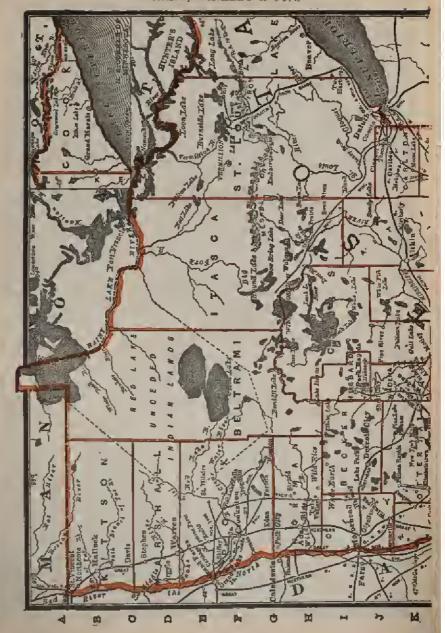

School for the Deaf, at Delavan, established, 1852; School for the Blind, Janesville, established, 1850; Industrial School for Boys, Wau-kesha; Industrial School for Girls, Milwaukee; The State Public School is at Sparta; Soldiers Home, Milwaukee; Asylums for Insane, Winnebago and Mendota; State Prison, Waupun.

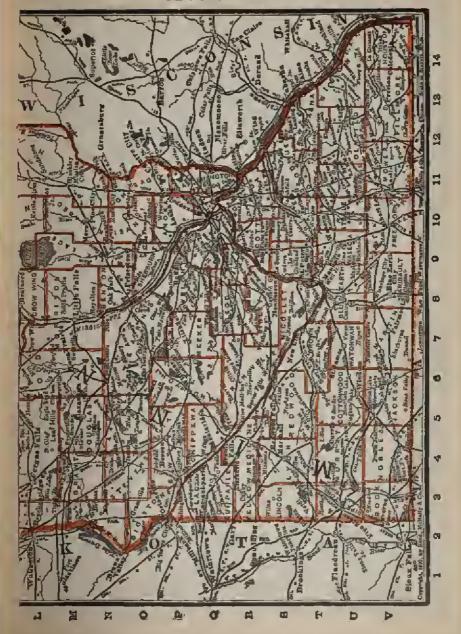

POSTAL Total number postoffices, 1,700; number presidential offices, 104—2 first-class, 21 second-class, 81 third-class; number fourthclass offices, 1,602; money order, 338; postal

POLITICAL. - State elections blennial. State, congressional, and presidential elec-tions, Tuesday after first Monday in Novembons, Thesany after inst modusy in November; number of Senators, 83, Representatives, 100; sessions, licendal in odd-numbered years, 100; session, none. Term of Senators, 4 years, Representatives, 2 years. Number of electoral votes, 12; number voters, 40,723. Voters votes, 12; number voters, 461,733. Voters must be citizens or declared intention, residents of State 1 year; registration required, lusane, idiots, and convicts, unless pardoned, excluded.

LEGAL.-Statutes of limitation; Judgments, 20 years; open accounts and notes, 5; redemption of tax sales, 3 years; legal interest rate, 7; by contract, 10.

### Miu-ue-so'ta. "Gopher State," MINNESOTA

Indian-"Minne Sotah," signifies "Cloudy Water."

HISTORICAL.—Name first applied to the river, whose waters were usually tinged \$2.418,436; onts, 62,075,000 hushels, value, \$14,000 hushels, value, \$14 State admitted.

AREA, ETC. — Total area, 83,885 square miles; land, 79,205; water, 4,100; extreme length, north and south, 380 miles; breadth ranges from 182 miles in center to 262 miles on southern boundary and 337 miles near northern boundary. These line of nearlieths males boundary. Shore line of navigable waters within the State, 2,746 miles. Mississippi rises in Minnesofa and is navigable for 540 miles.

GLIMATE. — Temperature at Dulith: Mean winter, 10°, extreme, -41°; summer, 66°, extreme, 99°; St. Paul. winter, 11°, extreme, -41°; summer, 72°, extreme, 100°; St. Vincent, winter, -8°, extreme, -54°; summer, 65°, extreme, 166°. Average annual rainfall; Dulith, 32.5 Inches; St. Paul, 27.8 Inches; St. Vincent, 16.6 Inches.

POPULATION.—Minesota ranked thirty-stath in vacualistic in 1860, thirtight in 1860, the part of the p

POPULATION.—Minnesota ranked thirty-sixth in population in 1850, thirtieth in 1860, twenty-eighth in 1870, twenty-sixth in 1880, and twentieth in 1890. Total population, 1830, 6,077; 1890, 172,023; 1870, 439,705; 1890, 789,778; 1890, 1,301,896. Classification: Male. 695,521; female. 606,5695; native, 834,470; foreign, 467,856; white, 1,296,180; colored, 5,667—Africans, 5,683; Chinose, 94; Japanese, 9; Indians, 1889. PRINCIPAL CITIES,—Minneapolis, the

largest city in point of copulation, has extensive manufactures; one of the leading cities in the country in production of flour and lumber; number of inhabitants, 184,738; St. Paul, the capital, also prominent as a manufacturing center, population, 133,136; Dubih, an important crains transfer tensions. ant grain market; capacity of its elevators, 21,350,000 bushels, population, 33,115; popula-tion of Winona, 18,308; Stillwater, 11,260. URBAN TOPULATION,—The past dec-

ade shows a large increase in the urban population. State has now thirty-one cities and towns with 2,000 or more inhabitants. Numer-

indigenous fruits are crab apples, cranberries, strawberries, plums, and grapes. Latest returns give 109,856 bearing apple trees. State has 66 nurseries, area, 1,736 acres; value, \$504,-045. There are six seed farms, area, 1,140 acres; capital \$47,737. State has 51 florits' establishments—5 owned and managed by women; value, \$388,181; total number plants propagated, 1,489,200; plant sales, \$96,883; cut flower sales, \$205,672.

LIVE STOCK.—The live stock interest an innortant and growing industry. Number

In Mannesofa and is navigable for 540 miles.

Numerous lakes—estimated number, 10,000—
range from one to thirty miles in diameter.

Greatest elevation, 1,850 feet; average, 1,000

GLIMATE, — Temperature, 41°; summer, 66°, extreme, 99°; St. Paul, winter, 11°, extreme, 60°; extreme, 99°; St. Paul, winter, 11°, extreme, 60°; extreme, 92°; Attempt. 11°, extreme, 60°; even and 61°; even miles, 100°; even and 61°; even and 6 climate peculiarly adapted to sheep-raising; wool clip yearly nverages 1,650,000 pounds. Dalry Interest au important one; total value for 1888, \$44,835,000; latest reports give 27,953,028 pounds of butter aud 1,303,329 pounds of

cheese.

MINERALS.—Iron the principal mineral.

State ranks sixth lu total production—third in production of red hematite ore; output, 1889, 804,508 tons, value, \$2,478,041; chapper exists on shores of Lake Superior. The stone industry has made remarkable advances during past described in the stone industry has made remarkable advances during past decade. Total number quarries, 1880, 41; value decale. Total number quarries, 1880, 41; value of product, \$25,518; number quarries, 1898, 162, production, \$1,102,008. Value of granife quarried, 1899, \$19,075, 1899, \$35,782. Minnesota ranks minth in total production of limestone and fifth in building stone; total cutput, 7,277,348 cubic feet, value, \$380,556; number saadstone quarries, 7; output, 4,156,924 cubic feet; production of natural rock cement, 1890, \$7,650 barreis, value, \$95,757.

MANUFACTURES. Principal branches—humbering, flouring and grist mills, brewing.

lumbering, flouring and grist mills, browing, agricultural machinery, furniture, and wagon making. Lumber and flour lead in importance. towns with 2,000 or more inhabitants. Numerical intersect, 1890, \$93,900,907; value of products, \$27,758,700. Total number of industries, \$11,281; St. Paul, 91,683; Duluth, \$2,277, and Winona, \$0,000. Largest percentages of increase; Duluth, \$251,67 per ceat.; Little falls, \$23,39; South St. Paul, \$21,07. Minnes apoins, \$25,35; St. Paul, \$21,07. Minnes apoins, \$21,438,589; value of products, \$31,083,900. In 1890, the manufactures of \$5. Louis County, including those of Duluth, were valued at \$200, 100,000. Minnes apoins, \$20,000. Minnes apoins, \$21,438,589; value of products, \$31,083,700. Minnes apoins, \$21,400,000. Minnes apoins, \$21,400,000

WOOL INDUSTRY. - In 1880, Minnesota | had 14 establishments engaged in the wool manufactures; capital invested, \$18,500; employes, \$41, wages paid, \$48,927; cost of materials used, \$16,587; value of products, \$263,378. In 1890, establishments numbered 27; capital, \$885,716; employes, 470; wages, \$167,322; materials used, \$369,487; products, \$700,226.

LUMBER. - State has 320 establishments engaged in the lumber industry; capital invested, \$27,497,197; employés, 9,927; wages paid during year, \$2.50,000; value of materials used, \$11.572.854; value of products, \$19.123,023; production of millo, 1,028,665,000 feet of lumber; 460,472,000 shingles; 6,300,000 stayes; 450,000 sets of headings. In 1890, Minneapolis ranked third in importance among the six principal bundering cities in Alchigan, Wisconsin, and Minnesota; in 1800 it ranked first. Value of total production was \$35,837,239, of which over one-fourth, or \$6,584,456, was produced in

RAILWAYS. - First railroad, St. Paul to RAILWAYS. —First fairbul, St. Plan to St. Anthony—10 miles—completed, July 2, 1893; Rumber of miles in operation in 1883, 31; 1866, 213; 1870, 1,092; 1875, 1,990; 1889, 3,151; 1885, 4,318; 1890, 5,546; Jan. 1, 1802, 5,623. Stale has one wile of railway to each 14 square miles. CIVIL WAR.—State furnished 24,020 men

-23,913 white troops; sailors and marines, 3; colored troops, 104; number deaths, 2,584. State has 10,576 pensioners. EDUCATION.—State had 281,859 pupils

enrolled in common schools, 1800; expenditures, 84,633,516. School age, 5-21; tumber ments, 10 years; open ac pupils in private schools, 30,907. University redemption of tax sales, 3 n est rate, 7; by contract, 10.

has 1,200 students. Normal schools, Winona, Mankato, St. Cloud, and Moorhead—over 1,500

students enrolled. State has 6 colleges. LEGAL HOLIDAYS.—January 1, February 23, Good Friday, Mny 30, July 4, Thanks-

giving, and December 2

STATE INSTITUTIONS. - Schools for the deaf, blind, and feeble minded at Fari-bank; State Reform School, St. Faul; State Public School, Owatoma, established 1825; State Reformatory, St. Cloud; Minnesota Hospital for Insane, Saint Peter, established 1866; Hospital for Insane, Rochester, established 1878: at Fergus Falls, opened 1889. Min-nesota Soldiers' Home, Minnehaba Falls, established, 1887. State Prison, Stillwater.

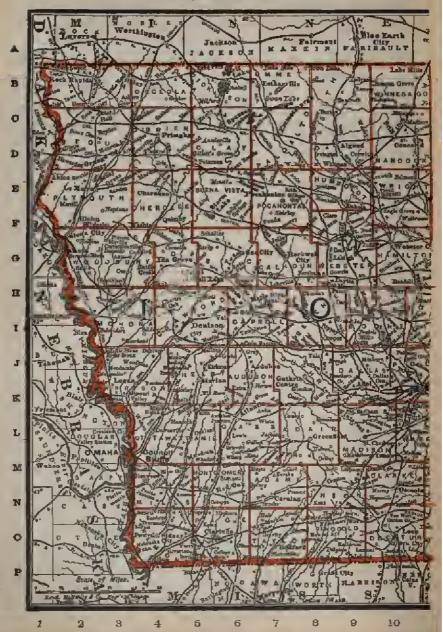

· POSTAL.-Total number post offices, 1,300; number presidential offices, 71—3 first-class; 8 second-class; 60 fourth-class; number of fourth-class offices, 1,298; money order, 249;

postal note, 17.

POLITICAL. - State elections biennial. State, congressional, and presidential elections, State, congressional, and presidential elections. Tuesday after first Monday in November; number of Senators, 54; Representatives, 114; sessions biennial, in odd-numbered years—meets Tuesday after first Monday in January; Hmit of session, 90 days; term of Senators, 4 years; Representatives, 2 years. Number of electoral wates, 9; number voters, 876,696. Voters must be citizens or declared intention, residents of State 4 months of county and residents of State 4 months, of county and precinct, 10 days; registration required. Idiots, mane, and convicts excluded.

LEGAL - Statutes of limitation: Judgments, 10 years; open accounts, 6; notes, 6; redemption of tax sales, 3 months; legal inter-

I'o wah " Hawkeye State."

Franco-Indian-" Drowsy," applied to a tribe of Indians.

HISTORICAL. First settlement made HISTORICAL.—First settlement made near present site of Dubique, 1788. Country formed part of Louisiana purchase of 1893. Permanent settlements were made at Fort Madison, Burlington, and Dubique, 1833. Des Moines established, 1843. Iowa Terrilory or ganizad, June, 1833. State constitutionadopted, 1846. State admitted, December 28, 1846, the sixteauth admitted, December 18, 1840 in the sixteauth admitted after the adoption of the sixteenth admitted after the adoption of the Federal constitution,

Me Feiteral constitution, QLIMATE.—Temperature at Des Molnes; Mean winter, 17°, extreme, —30°; summer, 75°, extreme, 101°; keckuk; winter, 33°; cxtreme, 101°; keckuk; winter, 33°, extreme, 21°; summer, 77°, extreme, 164°. Average annual rainfall, Des Moines, 36.4 inches; Dubuque, 37.3 inches; Keckuk; 36.5 inches;

Keckuk, 30.5 inches.

AREA, ETO.—State has an area of 55,025 square utiles; \$5,475 square miles land, 500 square miles water; length, east and west, 800 nules; breadth, 208 unles. Lies entirely within the Prairie region of the Mississippi Valley; surface generally undulating; elevation rang-ing from 500 to 1,700 feet; mean elevation, 825 feet. Mississippl and Missourt rivers form the eastern and western boundaries; both are navigable. Principal interior rivers, Des Moines, towa, and Little Boux. Big Sloux

hounds the Stale on the northwest.

POPULATION. — lower ranked twentyninth in 1840, twenty-seventh in 1850, twenti-eth in 1850, eleventh in 1870, teath in 1880 and 1850. Total population, 1840, 43.112, 1850, 192, 214, 1800, 674,913, 1870, 1,294,020; 1890, 1,624, 615; 1890, 1,941,806. Classification: Male, 994, 458; female, 917,443; native, 1,587,687; foreign, 324,099; white, 1,991,060; colored, 10,810—Africans, 10,685; Chinese, 64; Japanese, 1; Indians, 60.

PRINCIPAL CITIES.—Bes Moines, the capital and largest city, population, 50,093; Sioux City, second in importance, prominent railroad and manufacturing center, population, 57,800; Dubuque, center of an important trade, is a United States port of delivery, pop-ulation, 30,311. Population of Davenport, 25, 872; Barlington, 25,655; Council Biuff, 21,474, URBAN POPULATION,—Census of 1890

gives twenty-three cities and towns with 4,000 or more juhabitants. Many cities show large increases over the population of 1880. Greatest increase shown in Sloux City; population, 1880, 7.340; 1890, 37,806; Increase, 20,440, or 413.25 per ceul. Increase in Des Moines, 27,-685 or 123.55 per crut, 7 Cedar Rapids, 78.35 per ceut.; Otherwa, 55.50; Clinton, 50.45.

AGRICULTURE.—One of the greatest of the agricultural states. Soil and climate escaping of the first terms of the control of

pecially fitted for the industry, the main occu-pation of the people. Area of cultivated land, 1830, 17,583,200 acres. State leads all others in production of corn; yield, 1891, 39,978,000 plaster paris made; total value of products, bushels, value, \$105,263,463; wheat, 27,586,000 \$55,250.

MANUFACTURES.—Manufacturing inbushels, value, \$23,56,562,000; harhy, 1890, 13.

doi.122 bushels; ryo. 1,445,283 bushels; buck-before articles manufactured, flour, packed

wheat, 280,716 hushels. In 1800 there were 12,-(560,690 acres under cereals. Potaloes, flax, tabacco, and easter oil plant largely grown. Irish potatoes average 98 bushels to the acre; Irish potatoes average 98 bushels to the acre; average annual value about \$5,000,000; average yield sweet potatoes per acre, 89 bushels, unnual value, nearly \$3,000,000. Iown ranks second among face producing states, yield of seed, 1889, 2,282,356 bushels; fiber, 5,281 pounds; value of products, \$2,333,974; tobacco crop, 74,356 pounds.

100HTICULTURE, PLTC.—Fruit culture attracting great extracting applications.

nighticulture, letc.—Fruit culture attracting great attention. Apples are largely grown, and pears, grapes, and small fruits are successfully cultivated. Value of orchard and vineyard product, 1801, \$3,000.000; small fruits, \$750.000. State has 183 nurserles of 12,019 acres of land; capital invested, \$1,591,790. Of fruit trees, apples lead in importance; total number acres in unrerles, under apples, 1,741, plants, \$122 cherries, 506; pears, 288; among small fruits 475 ucres are under strawberries. Iowa has 18 seed furnis under strawberries. Iowa has 18 seed furms with 11,152 acres of land; value, \$683,923. Number establishments engaged in floriculture, 69-0 owned and manuged by women; number feet of glass, 476,593; value, 5424,158; plant sales, §135,164; cut flowers, §107,638. LEVE STOCK.—The live stock interests

are large and yearly increasing in importance. Number and value of farm animals, 1891; Horses, 1,314,350, 586,931,929; mules, 41,629, 82,995,598; milch cows, 1,304,184, 824,479,534; cattle, 2,707,049, 850,782,352; sheep, 565,631, \$1,933,084; swine, 7,105,320, \$11,643,708. In the number and value of swine, Iowa exceeds all other states. It is only excelled by New York in number and value of mileh cows. Average

wool cip. 1,750,000 pounds. Value of poultry product, 35 600,000.

DAHRY PRODUCTS.—The dairy interest is rapidly becoming as important as that of farming. Excellent butter and cheese are breather and cheese are breather and cheese are largely produced and shipped to Eastern and

Southern markets, Buter product, 1801, 108,900,715 pounds, value, \$33,738,148; cheese, 5,000,000 pounds, value, \$450,000.

MINERALS.—Coal occupies chief place in mineral resources; Jowa ranks fifth in productions of the production of the producti tion; area, 1,800 square miles; coal is mined in 20 counties; output, 1889, 4,005,358 tons, value, \$5,428,503. Lead district in northeastern part of State covers 700 square miles. Mines in vicinity of Dubuque-area about 15 square miles—have been root productive; ores yielded 70 per cent of lead. Zinc produced, 1889, 430 tous: fron is found in a limited extent. Limestone quarried chiefly in eastern and southsession parts of Slafe; value of output, 1889, \$530,653; number sandstone quarries, 11; out-put, \$80,251; gypsun deposits large; 22,000 lous of land plaster sold 1889 and 5,507 tons of

meats, furniture, carriages, wagons, agricul | Dunah, Council Binfls; Industrial School for tural implements, woolens, and foundry and boys, Eldora; School for Girls, Mitchellville; machine shop products. Number woolen | Asylum for feethe minded children, Glenwood; mills, 1800, 24; capital, \$601, 300; camployds, 387; wages paid, \$185,700; cost of materials used, Soliters' Orphans' Home, Davenport; Soldiers' Soft-78; value of products, \$700, 380. Des Meines reports a total of 79 industries with genitentiaries, Fort Marison and Anamosa. 287, establishments; an invested carried of CIVIL VAR. Level countries of State was 297 establishments; an invested capital of \$2,792,979; value of products, \$5,242,992. Sioux City, 50 industries, 180 establishments; \$4,008. 606 capital; \$14,164,667 products, of which \$7,589,228 represented most products. RAILWAYS.—State had 68 miles of rail-

road in operation in 1855; 1860, 655 miles; 1865, 801; 1870, 2,683; 1875, 3,850; 1880, 5,400; 1885, 7,525; 1890, 8,416; January 1, 1892, 8,444 miles, or one mile of railway to each 5.68 square

EDUCATION. -- Iowa has 493,260 pupils enrolled in its common schools. Expenditures, 1890, \$6,700,000; permanent school fund, 1891, 1840, 38,400.0. School age, 5-21. Number pupils in private schools, 36,628. State University. Inwa. City, established, 1847. Normal school opened at Cedar Falls, 1876. State Agri-cultural College, Ames, opened 1869. State has 20 coileges

LEGAL HOLIDAYS,—January 1, Mny 30, July 4, first Monday in September, Thanks-

Asymm for reem-indeaconders, or work, Soldiers' Orphans' Home, Daverport, Soldiers' Home, Marshalltown; Insane asylums, Mount Pl-asant, Independence, and Clarinda; State penitentiaries, Fort Malison and Anamosa.

CIVIL WAR.—Jowa furnished 76,342 men—

75,707 white troups; 5 sailors and marines; 440 colored troops; total number deaths, 13,001;

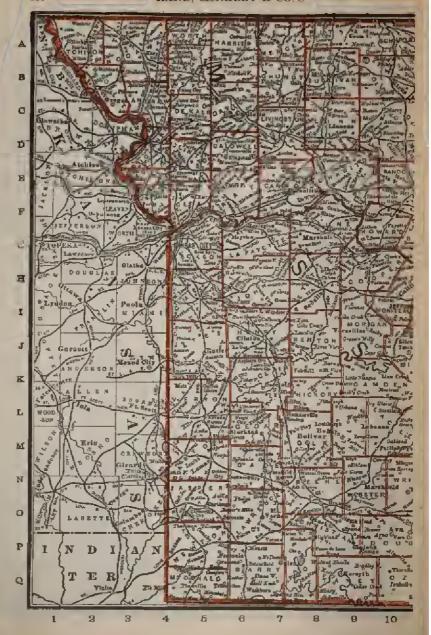

colored troops; total number deaths, 18,001; number pensioners in State, 1891, 28,430.

POSTAL—Total number post offices, 1,795; number presidential offices, 158—7 first class; 21 second class; 128 third class; number fourth class offices, 1,639; mosey order, 628.

POLITICAL—State elections blennial. State, congressional, and presidential elections, Tuesday after first Monday in November, probact of States, 21 Pagrassaparticles. ber; number of Senators, 50; Representatives, 100; sessions biennial, in even numbered years, 100; sessions biembial, in even-numbered years, meets second Monday in January; limit of session, none; term of Senators, 4 years; Representatives, 2 years. ## MISSOURI. Mis-soo'ree.

Indian-Signifies "Muddy."

HISTORICAL.—Fort Orleans (near Jefferson City), huilt 1719. First settlement, that made by French, at Ste. Genevieve, early in elghteenth century. St. Louis founded, 1764. Country under Spanish and French authority until 1808, when purchased by United States. Constituted Louisiana Territory until 1812, when it became the Territory of Missouri. Act enabling Missouri to become a Statekova as Missouri Compromise—approved June 28, 1821. State, the eleventh in order of admission. Constitutions adopted 1820, 1865, amended 1869 and 1875.

AREA, ETC.—Total number square miles, isnd surface, 68,735 square miles; catreme length, north and south, 25 miles; average breadth, 245 miles; varies from 206 miles in the north to 312 in the south. Greatest altitude, Cedar Gap, 1,675 feet. Mississippi River frontage nearly 500 miles; Missouri River, crossing the State in an easterly direction, principal nat-

ural feature.

CLIMATE, —Temperature at St. Louis: Mean winter, 30°, extreme, —22°; summer, 79°, extreme, 100°. Springfield, winter, 32°, extreme, —11°; summer, 75°, extreme, 99°. Average annual rainfall, 33.4 inches; Springfield, 48.5 inches.

PôPULATION.—Missouri ranked twenty-thlrd in population in 1810 and 1820, twenty-first in 1830, sixteenth in 1840, thirteenth in 1850, eighth in 1860, fifth in 1870, 1880, and 1890. Total population, 1810, 20 845; 1830, 66.557; 1830, 140,455; 1840, 883,702; 1850, 682,044; 1860, 1,182 012; 1870, 1.721,295; 1880, 2,168,380; 1890, 2,679,184. Classification: Male, 1,285,238; female, 1,293,946; native, 2,444,315; foreign, 234,869; white, 2,584,458; colored, 150,726—Africans, 150,184; Chinese, 409; Japanese, 6; Indians, 187.

PRINCIPAL CITIES.—St. Louis, the

PRINCIPAL CITIES.—St. Louis, the metropolis, commercial and financial center of State and the Mississippi Valley, fifth important city in United States, population, 451,770; Kansas City, second in commercial importance, prominent as a railroad center, population, 132,716; St. Joseph, an important railroad center in the northwest, population, 52 324; Springfield, most important town of Southwestern Missouri, population, 21 550; Jefferson City, the capital, population, 6,742, URBAN POPULATION.—State shows

URBAN POPULATION.—State shows large increase during past decade. In 1880, fourteen cities and towns had a population of 4,000 or more; aggregate being 505,903. In 1890, twenty-nine cities had 4,000 or more inhabitants; aggregate, 811,568. Numerical increases greatest in St. Louis, 101,252; Kansas City, 76,931; St. Joseph, 19,893; Springfield, 15,328. Largest percentages of Increase Nevada, 279.61 per ceut.; Springfield, 235; Webb City, 217.57.

AGRICULTURE.—Staple products, cereals, tobacco and fruit. State is second.

AGRICULTURE.—Staple products, cereals, tobacco, and fruit. State is second only to Illinois and Iowa as a producer of corn. Principal crops. 1891: Corn. 203.210.000 bushels:

wheat, 25,782,000 bushels; oate, 27,588,000 hushels. Latest reports give tobacco product, 9,424 823 pounds; hay, potatoes, and sweet potatoes are also grown. Missouri occupies an important place among fruit-producing States; apples, peaches, and grapes are grown in all parts of the State. Missouri has 10,000 acrea under bearing vines, yield per acre, 6 000 pounds. In 1889, 45,000,000 pounds of grapes sold for table use, and 1,250 000 gallons of wine made. State ranks fourth in the Industry.

LIVE STOCK.—Stock breeding and grazing the leading interest on farms. State second only to lowa and Illinois in number of swine—4,632,264. In 1891, led in number and value of mules—248,850, \$15,911,437; value of cattle and milch cows, \$47,042,051; horses,

854.892.83

MINERALS.—Missouri is rich in mineral wesith. Coal, iron, lead, and zinc are mined. Coal is produced in thirty-five counties, area, 26.900 square miles; output, 1889, 2.57, 823 tons; iron and lead deposits, chiefly south of Missouri River, yield of eight iron mines in 1889, 265.718 long tons. Missouri ranks second only to Colorado in value aud production of lead, yield. 1889, 44,482 tons. State leads in production of zinc ore, produced 33 131 tons, valued at \$3.565.218. Copper and petroleum exist.

at \$3,595,218. Copper and petroleum exist. QUARRIES.—Granite, sandstone, and limestone are quarried. In the Ozark region, valuable deposits of onyx have been discovered, the ludustry is now being developed. State has 10 granite quarries; output, 1889, 1.264.317 cubic feet, value. \$500.642. Ranks twelfth in production of sandstone; 17 quarries, output, 734,370 cubic feet, value. \$155,557; limestone industry large and important. State occupies fourth place as a producer, value of total product, \$1,859,969; lime, \$465,-

MANUFACTURES.—Among the most extensive in the country. Prominent among manufacturea are those of iron, agricultural implements, flour, beer, and meat-packing. St. Louis is the center of the manufacturing industries. In 1890, the city reported 6,148 establishments; employes, 93,610; capital invested. \$140,775.392; cost of materials used, \$122,010.805; value of products, \$228,714 317.

RAILWAYS.—First railroad operated in

RAILWAYS.—First railroad operated in State, 1849—Independence & Missouri, Independence to Missouri River, 4 miles. Number of miles in 1855, 139; 1890, 617; 1865, 925; 1870, 2,000; 1878, 2,905; 1880, 3,985; 1888, 4,987; 1890, 6,142; January 1, 1892, 6,188. State has one mile of railway to each 11.2 square miles. EDUCATION.—Public school system

EDUCATION.—Public school system adopted, 1839; school age, 6-20; annual expenditures, over \$5,000.000. Number pupils in public schools, 1889, 620,324; number of school age, 850,000. Pupils in private schools, 58,637. Normal schools at Kirksville, Warrensburg, and Cape Girardeau. State University at Columbia, organized 1840.

CIVIL WAR.—State furnished 109,111

only to Illinois and Iowa as a producer of corn. | CIVIL WAR. — State furnished 109,111 Principal crops, 1891; Corn, 203,210,000 bushels; | men: 100,616 white troops, 151 sailors and

marines and 8,344 colored troops; total num- | ary; limit of session, 79 days; term of Senators

marines and 8,344 colored freeps; lotal number deaths, 13 825. Number pensioners in Stale, INU, 23,125.

LEGAL HOLIDAYS.—Jammary 1, February 2, July 4, Thanksgiving, December 25, and any general or State election.

POLITICAL.—State elections, biennial. State, congressional, and presidential elections, Thesday after first Monday in November, number of Senators, 32; Representatives, 2 years, copin accounts, 5; notes, 10; 135; sessions biennial, in odd-numbered years, meets Wednesday after first Monday in January 1, February 2, 12 of Alia—Statities of limitation; Judgment 3, 12 of Alia—Statities of limitation; Judgment 3, 13 of Alia—Statities of lim

By 1890 the number had increased to nineteen, with an aggregate population of 223,674. Greatest increase in Kansas City, founded 1887 by consolidation of Armourdale, Wyandotte, and other towns, which had a combined populaother towns, which had a combined population, 1890, of 3,200; increase during decade 35,116, or 1,097.38 per cent. Other cities: Topeka, numerical increase, 15,555, 100.67 per cent.; Wichita, 18,942, 385.71 per cent.; Arkansas City, 7,335, 724.80 per cent.; Hitchinson, 7,142, 463.77 per cent.

AGRICULTURE.—State ranks high in production and quelity of all agricultural production and quelity of all agricultural production and quelity of all agricultural productions and quelity of all agricultural productions.

production and quality of all agricultural products. Corn is the staple crop. Yield of principal cereals, 1891. Corn, 141,893,000 bushels, value, \$48,243 551; wheat 54,886,000 bushels, wages pald, \$2558,526; value of products, value, \$40,032,394; oats, 37,132,000 bushels. \$39,927,191. Second in importance are the prod-

Rye and barley are increasing in importance. Latest returns give area under rye, 93,707 acres; yield, 1,445,283 bushels; barley, 518,729 acres: yield, 13,406,122 bushels. Kansas is one acres; yield, 18,406,122 bushels. Kansas is one of the greatest of the flax-growing states; area. In 1889, 114,069 acres; yield, 994,127 hushels of seed and 36,093 pounds of fiber; total value of products, \$1,003,242; State ranks fifth in production of seed and second in fiber. Broomcorn is largely cultivated. Tobacco and hemp are grown. Butter and cheese are important products. Annual value of dairy products, routery and eggs. over \$48,000.000. poultry, and eggs, over \$45,000,000. HORTICULTURE, ETC.—Soil and cll-

Kăn'zas.
"Sunflower State."

mate well adapted to orchard and garden products. In 1888, the Kansas orchards contained 10,746,478 hearing and 10,016,057 uon-bearing 10,746,473 hearing and 10,016,057 non-bearing apple, pear, peach, plum, and cherry trees. Of the former, 4,849,903 were apple, and 4,226,609 peach trees. State has 4,542 acres under bearing vines; in 1889. 16,588,000 pounds of grapes were sold for table use, and 130,990 gallons of wine made. There are 339 nurseries, with 11,492 acres of land, and a capital of \$1.498,790.

\$1,425,792. LIVE STOCK.—Stock-raising is an important industry, ranks second to cereals as a source of wealth. Number and value of farm auimais, 1891: Horses, 935, 135, value, \$55,344, 187: mules, 92,677, value, \$6,658,989; milch cows, 773,489, value, \$14,292,199; oxen and other cattle, 1,978,520, value, \$33,207,282; sheep, 469,433, value, \$1,096,595; swine, 3,175,767, value, \$15,128,718.

MINERALS.—Coal, lead, and zinc are the most important minerals. Coal area, 17,000 square miles; output, 1890, 22:59,9 2 tons; value, \$2,947,517. Principal centers of industry are Cherokee, Crawford, Leavenworth, and Osage counties. Output of zinc mines, 39,575 tons, value, \$299,192; lead, 3,617 tons. Petroleum and natural gas are produced; the former is found near Paola, Miaml County. Value of natural gas supplied, \$13,600; coal displaced, 6,100 tons. Kansas is now prominent among salt-producing states; production, 1890, 882,666 harrels, value, \$397,199.

BUILDING STONES, ETC. - Limestone, saudstone, marble, and gypsum are produced. State has 115 limestone quarries, many of them small; value of output, 1889, \$478. 22; sand-stone exists throughout the State; most productive sections south and southeast; value of product, \$149,289. Of gypsnim, 17.382 tons were produced—from which were made 13,896 tons of plaster of paris—value, \$44,235—and 400 tons of fire proof cement, value, \$6,000. Marhle is

quarried in Miami County.

MANUFACTURES.—Although an agricultural State, Kansas has numerous and important manufacturing industries. First among these industries is the preparing and packing of meat. In 1890 the six wholesale slaughtering and meat-packing establishments of Kansas City alone had a combined capital nets of the flouring mills, followed by wood manufactures—carriages, wagons, agricultural implements, etc.; metal-working industries—foundries, machine shops, stove works, iron bridges, etc.

OIVIL WAR.—State furnished 20,149 men—18,069 white troops and 2,080 colored; number deaths, 2,680. Within the State, 1891,

were 29,421 pensioners.

RAILWAYS.—Union Pacific, first road to eater the State, completed 40 miles of road, 18-3-4. In 1865 State had 40 miles of road in operation; 1870, 1.501; 1875, 2,150; 1890, 3,400; 1885, 4,520; 1890, 8,900; January 1, 1892, 8,901. State has one mile of railway to each 9.3 square miles.

EDUCATION.—State has an efficient system of public schools; free schools have been conducted since 1855. School age, 5-21. Compulsory education a law. Number purits in public schools, 393,282; in private schools, 29,400. State Normal School, Emporta, organized, 1865. University of Kansas, Luwrence, opened, 1866. State Agricultural College, Manhaltan. State has 15 colleges.

I.EGAL HOLIDAYS. —January 1, May 30, July 4, Thanksgiving, December 25, and public fast.

STATE INSTITUTIONS. Institution for the Education of the Deaf and Dumb at Olathe, established, 1865; Institution for the Education of the Blind, Wyandotte; State Reform School, Topeka; State Insane Asylums, Osawatomic, established, 1866, Topeka, established, 1879; State Peniteotlary, Lansing.

POSTAL.—Kansas has 1,799 post offices; 123 presidential offices—2 first-class, 20 secondclass, and 101 third-class; number of fourthclass offices, 1,876; money-order offices, 543.

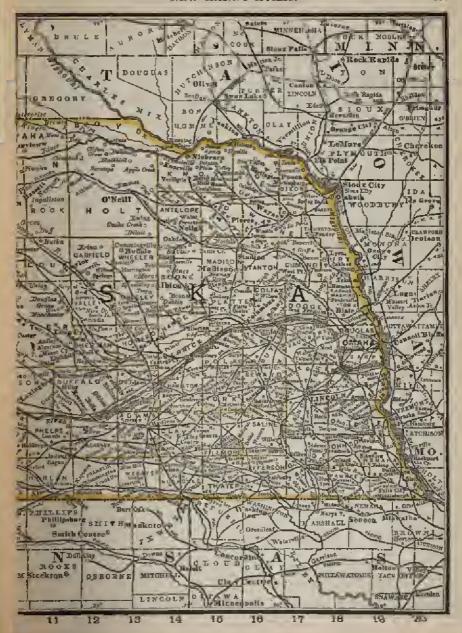

POLITICA L.—State elections blennial. State, congressional, and presidential elections, Tuesday after first Monday in November. Number of Senators, 38; Representatives, 125; sessions blennial, in odd-numbered years, meets second Tuesday in January; limit of session, 50 days; term of Senators, 4 years; Representatives, 2 years. Number electoral votes, 10; number voters, 332,331. Voters must be citizens or declared intontion, resident of Slate 6 months, of precinct 30 days; registration required in cities only. Idiots, instanc, and convicie excluded.

LEGAL.—Statutes of limitation: Judgments, 5 years; open accounts, 2; notes, 5; redemption of tax sales, 3 years. Legal inter-

est rate, 6; by contract, 10.

## NEBRASKA. Ne-bras'ka. "Black-water State."

Indian—" Water Valley."

Spaniards in the sixteenth century. French missionaries and traders entered the territory about the middle of the seventeenth century. Formed part of the Louisiana purchase of 1803. Government exploration by way of Platte Valley made under Major Long in 1820. First settlement made by whites at Bellevue, 1847. Nebraska Territory organized, 1854; admitted into the Union, 1867; was the twenty fourtb State admitted.

AREA, ETC.-State has a length, from east to west, of 413 miles, width, north and south, about 206 miles; total area, 77,510 square miles—land, 76,840, water, 670. The Missouri, which forms the eastern boundary, is the only navigable river; principal river in the interior, the Platte, flows eastwardly through central part of State. Average ele-vation of eastern half of State, 1,400 feet; of western, 2,312; greatest elevation, White River Summit, 4,876 feet. CLIMATE.—Temperature at North Platte:

Mean winter, 19°, extreme, —35°; summer, 74°, extreme, 107°. Oinaha, winter, 19°, extreme, —32°; summer, 76°. extreme, 105°. treme, —32°; summer, 70°, extreme, 105°. Valentine, wluter, 14°, extreme, —35°; summer, 74°, extreme, 106°. Average annual rainfail: North Platte, 20 2 incbes; Omaha, 33.5 inches; Valentine, 17 2 inches.

POPULATION.—Nebraska ranked thirty-

ninth in population in 1860, thirty-sixth in 1870, thirtieth in 1880, and twenty-sixth in 1890. Total population, 1860, 28,841; 1870, 122,993; 1880, 452,402; 1890, 1,058,910. Classification: Male, 572,824; female, 486,086; native, 856,968; foreign, 202,542; white, 1,048,888; colored, 12,022—Africans, 8,913; Chinese, 214; Japanese,

2; Indians, 2,893. PRINCIPAL CITIES.—Omaha, the commercial metropolis, population, 1890, 140,452; 1880, 30,518; Lincoln, the capital, an important railway center, population, 55,154. After Lincoln the largest cities in the State are: Beatrice, population, 13,836; Hastings, 13,584; Nebraska City, 11,494; Plattsmouth, 8,392.
URBAN POPULATION,—Increase in ur-

the state of the s Beatrice, 11,389; Hastings, 10,767. Percentages of increase greatest in North Platte, 741.60; Beatrice, 465.43; Norfolk, 455.39; Hastings,

382.22; Omaha, 360.23; Kearney, 353.09.
AGRICULTURE, ETC.—Agriculture the principal industry of the State. Total area devoted to the cereals 1879, 3,502,146 acres; 1889. 7.961,969 acres: Increase in corn area, 3.849,619 acres. Corn is grown in every county, increased area reported in every one. In 1891. Nebraska ranked fourth among cornproducing States; area, 4,762,840 acres; production, 167,652,000 bushels, value, \$43,589,512; wheat, 1,205,350 acres, 18,080,000 bushels; oats,

HISTORICAL.—Country first visited by 1,368,977 acres, 48,599,000 bushels; good crops of bariey, rye, and buckwheat are grown. Census returus give area under rye, 81,872 acres; yield, 1,085,083 bushels; bariey, 82,590 acres; yield, 1,822,111 hushels; buckwheat, 15,358 acres; yield, 120,000 bushels. Flax is an 15,388 acres; yield, 120,000 bushels. Flax is an Important crop. State ranks fourth in area, production, and value of products; area, 163,900 acres; seed, 1,401,104 bushels; fiber, 1,025 pounds; value of products, \$1,382,689. Root crops are most successfully cultivated; average yield of potatoes, 4,459,000 bushels. Soil well adapted to beet culture; factories for the manufacture of beet-root sugar have been the manufacture of beet-root sugar have been established at Grand Island and Norfolk.

HORTICULTURE, ETC.—Fruits of Eastern Nebraska famous for their excellence. Apples are especially noted. Latest reports give total number fruit trees in the State as 3,321,808; gr. pe-vines, 752,828. Nebraska has 177 nurseries, comprising 15,641 acres of land, total value, \$1,364,996. There were established between 1850-60. There are 1,243 acres under apple trees; cherry, plum, pear, and peach trees following in importance. There are 18 seed farms in the State; combined area, 13,870 acres; average to each farm, 695 acres; total value, \$907,746. The industry is important and usually conducted on an extensive scale, a single farm sometimes embracing nearly 3,000 acres of land. State bas 38 florista' establishments -4 owned and managed by women total value, \$349,273; employés, 118; wages paid, \$50,931; plant sales, \$97,897; cut flower sales, \$64,388.

LIVE STOCK.—Stock-raising forms one

of the principal industries. Possessing excel-lent and abundant pasturage, both summer lent and abundant pasturage, both summer and winter, and a great corn product, the State ranks among the prominent meat-producing States of the West. Number and value of farm animals, 1891: Horses, 625,283, \$36,288,768; mules, 46,708, \$3,473,182; milch cows, 530,338, \$9,943,838; cattle, 1,614,676, \$36, 780,200; sheep, 269,804, \$690,887; swine, 2,586,-982, \$13,875,81

952, \$13,537,521.

DATRY PRODUCTS. - The dairy industry has become one of the most important in the State. Estimated number dairy cows, 1888, 300,000, value, \$7,200,000. Value of dairy products, \$10,500,000. Two thirds the creameries in the State reported a marked improvement in the grade of dalry cows. Number of creameries au i cheese factories, 54; average value of creamery plants, \$5,500; cheese factories, \$3,250; total product of creamerles, 4,500,000 pounds

MINERALS.—Coal, salt, limestone, fine clays, marl, and peat exist. Coal mined in southeastern part of State; output, 1890, 1,400 tons, value, \$4,500; limestone was quarried chiefly in Cass, Oage, and Sarpy countles; value of output, \$207,019. Salt basin near Lincoln covers all ares of twelve by twenty-five miles, includes numerous salt sortings. five miles, iucludes numerous salt springs, whose waters includes 29 per ceut. of pure

MANUFACTURES. — Among principal normal School, Peru; Reform School, acar sanetfactures are farming implements, carbages and wagons, clothing, foundry and achine shop products, liquors, impler, and one finting and publishing. For 1830, Omaha restricting and publishing. For 1830, Omaha restricting and publishing. MANUFACTURES. — Among principal manufactures are farming implements, carriages and wagons, clothing, foundry and machine shop products, Ilquors, lumber, and printing and publishing. For 180, Omain reports 77 Industries, with 65 establishments; capital invested, \$15,056,169; employés, 7,393; wages, \$4,797,492; cost of materials used, \$27,777,394; value of products, \$38,961,523. In 1876 there were 49 industries, 154 establishments; capital, \$1,858,500; employés, 1,698; wages paid, \$756,918; materials used, \$2,527,476; products, \$1,290,868.

RAILWAYS. — First road to enter the State, the Union Pacific; chartered, 1892; work begun at Omain, 1853; in 1825, forty toiles of road were completed number of miles in

road were completed; number of miles in operation in 1870, 705; 1875, 1.127; 1880, 1.083; 1885, 2.903; 1890, 5.407; January I, 1892, 5.481. State has one mile of railway to cach 14.2

EDUCATION. - State has an efficient and highly promising system of public schools, Annual expenditures, \$3,000,000; permanent fund, \$6,500,000. School age, 5-21; number pupils enrolled in public schools, 230,300. State University at Lincoln; value of plant and endowment, \$2,000,000; number students, 600, Number colleges in State, 7. LEGAL HOLIDAYS.—January I, Feb-

ruary 22, April 22, May 30, July 4, Labor Day, Thanksgiving, public fast, and December 23, STATE INSTITUTIONS.—State Univer-

Insane asylutes at Lincola and Norfolk; Hos-

pilat for Chronic Insane, Hastings; Etate Pen-pilat for Chronic Insane, Hastings; Etate Pen-itentiary at Hyersville.

CIVIL WAR.—Nebesska furnished \$,157 men during the war; munior deaths, 238, State had, June 30, 1891, 12,011 pensioners on

the rolls

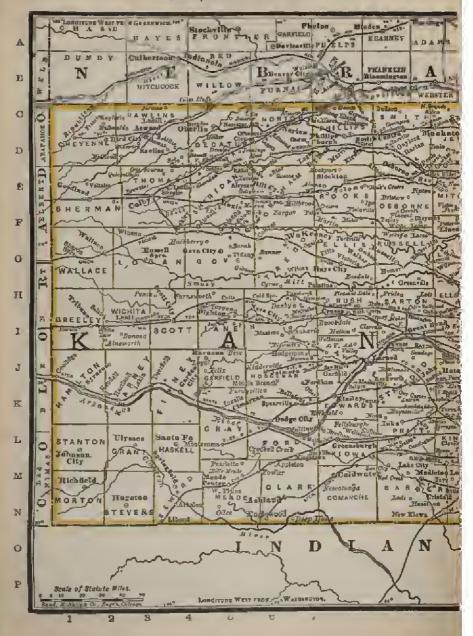

POSTA L.—Total number post offices, 1.127; number presidential offices, 80—2 first-class; 7 second-class; 71 third-class; number fourthclass, 1,047; money order offices, 318; postal

POLITICAL. - State elections biennial. State, congressional, and presidential elections, Tuesday after first Monday in November; number of Senators, 33; Representatives, 106; term, 2 years; sessions biennial, in odd-numbered years, meets first Tuesday in January; Ilmit of session, none, Number of electoral votes, 8; number voters, 36,500. Voters must be citizens or declared intention; residents of State 6 months, of county 40 days, of precluct 16 days; registration required. Idiots, insane, and convicts, unless pardoned, excluded.

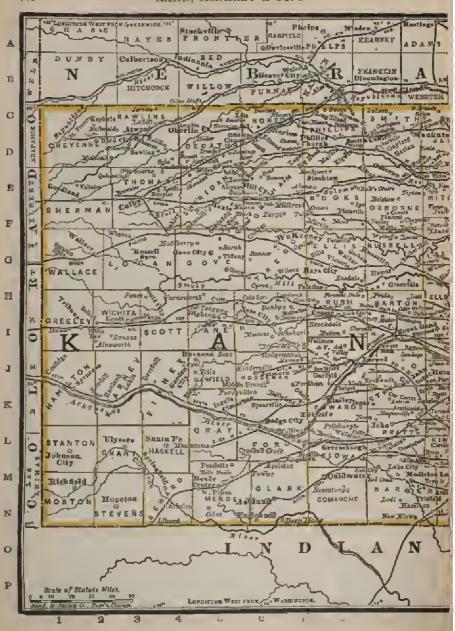

LEGAL. - Statutes of limitation: Judgments, 6 years; open accounts, 4; notes, 5; redemption of tax sales, 2 years. Legal inter-

sity and Agricultural College at Lincoln; State est rate, 7; by contract, 10.

#### MONTAN Mcn-ta' nah. "Stubtoe State."

Spanish-" Mountainous,"

HISTORICAL.—First visited by French from Quobec, 1743-44. First explorations made by Jewis and Clarke during their famous expedition of 1804-1806. A trading post established on the Yellowstone River, 1800; Fort Union built by American Far Company, 1832; Fort Benton, 1846. First settlers reached the country, 1862. Gold discoveries of 1802-63 led to a rapid development. Montana Territory organized, 1863. State admitted into the Union,

November 8, 1889.

AREA, ETC.—Third in size of the political divisions of the United Stales. Total number square miles, 146,050—145,370 land, 770 water; extreme length, east to west, 540 miles; average breadth, 215 miles. State consists of two great divisions—the plains of the eastern division comprise two-thirds the total area; mountains of the western division, one-third. Country drained by the Missouri River and its tributaries, and the tributaries of the Columbia. Greatest elevation, about 12,000 feet! average, \$,000 feet. One-fourth the area under forests. Timber of the western section be-

coming an important source of revenue.

Luncher mainfactures, average, \$20,000,000.

CLIMATE.—Temperature at Fort Assinaboine: Mean whiter, 9°, extreme, —55°; summer, 67°, extreme, 108°; Fort Custer, winter. 14° extreme, -48°; summer, 11°, extreme, 106°; Poplar River, winter, -5°, extreme, -68°; summer, 69°, extreme, 110°. Average nnnngl rainfall; Fort Assinabolae, 15.4 inches; Fort Custer, 13 inches; Poplar River, 10.8 inches

POPULATION. - Moutana, ranked forty-POPULION,—Montana ranged forty-third in population in 1870, forty-fifth in 1890, and forty-fourth in 1890. Total population, 1870, 29,555; 1880, 89,159; 1880, 129,750. Chossification: Male, \$7,882; femala, 44,277; native, 49,063; foreign, 43,096; white, 127,371; colored, 4,888—Africans, 1,490; Chinese, 2,532; Japan-

ladians, 850

ese, 6; Indians, 850.

PRINCIPAL CITIES. Helena, the capital and largest city, seat of United States assay office, population, 18,831; 1850, 3,624; rate of increase, 291.73 per cent. Butte, second city in size, one of the greatest mining centers in the country; population, 16,728; 1850, 3,593; increase during decade, 218 55 per cent. Great Falls, Apacenda, and Missoula follow next in importance.

AGRICULTURE. - Estimated area of cultivable land, 37,000,000 acres, eight ninths of ments, 6 years; open acrounts, 2 years; notes, this unoccupied land. Cereals, except Indian 6 years; redemption of tax sales, 2 years. corn, and all fruits of the temperate zone Legal Interest rate, 10; by contract, no limit.

flourish wherever there is sufficient moisture. Wheat crop of 1801, 1855,600 bushels, oats, 3,548,000 bushels. Bye, barley, potatoes, and beans give abundant returns.

LIVE STOCK.—The raising of live stock

has become one of the great industries of the State. In 1891, the sheep numbered 2,089,837, value, \$5,225,566; cattle, 1,025,067, value, \$16,725,323; horses, 197,011, value, \$7,131,756; cows, 35,705, value, \$1,025,519. Wool clip, 4,422,000

pounds. MINERALS. -State bas an Inexhaustible store of mineral wealth; leads all others in production of copper; output, 1889, 88,222,44
pounds. Ranks second in silver and third in
gold. Value of gold mined, 1800, \$3,300,000;
amount of silver, 15,750,000 onness, value, \$20,
583,535. In 1889, Montana ranked fourth as a lead-producing State; output, 10,183 tons, value, \$456,075. Estimated value of gold, sliver, lead, and copper produced since 1862, \$320,000,000. Coal mining is making rapid progress; amount inlined, 1888, 41,467 tons; 1890, 517,477 tons. Iron ores exist in almost every county. Granite, limestone, and saudstone are quarried.

RAILWAYS. - The first railroad - Utah & Northern—entered the Territory, March, 1880. Number of miles completed in 1884, 108, 1885, 1.046; 1890, 2,105; January I, 1892, 2,394 State has one mile of railway to each 61 square

EDUCATION - Public school system established, 1872. School age, 4-21. Number pupils in public schools, 16,907; in private schools, 1,422. Montana College at Deerlodge

LEGAL HOLIDAYS. Junuary 1, February 22, Arbor Dny, May 30, July 4, Labor Dny, general election, and December 25.

POLITICAL - State elections biennial.
State, congressional, and presidential elections. Translave flux flux flux flux in November. Tuesday after first Monday in November; number of Senators. 16, Representatives, 35, sessions annual, meets first Monday in January; limit of session, 60 days; term of Sena-tors, 4 years; Representatives, 2 years. Number of electoral votes, 3; immber voters, 65,-415. Voters must be citizens, residents of State 1 year, of county, town, and precinct 30 days; registration required. Indians and cou-

victs, unless pardoned, excluded. LEGAL -Statutes of limitation: Judg

POPULATION .- Idaho ranked fortyfourth in population in 1870, forty-sixth in 1890, and forty-fifth in 1890. Total population, 1870, and forty-first in 1899. Total population, 1899, 14,999; 1890, 32,000; 1890, 94,385. Classification: Male, 51,290; femule, 33,055; notive, 66,929; foreign, 17,456; white, 82,018; colored, 2,367–Africans, 201; Chinese, 2,007; Indians, 159.

PRINCIPAL CITIES.—Boise, the capital.

United States assay office situated here, popuomeal states assay omce situated here, population, 2,311. Montpolier, the second in size, is the outlet for the Bear Lake Valley, population, 1,174; population of Welser, UII. Lewiston, in Nex Perres County, is the only port in the State; it is a flourishing town of 849 inhabitable. Land offices are located at Blackfool, Cour d'Alene, Halley, Lewiston, and Boise, AGRICULTURE.—Estimated area of agricultural lands. 1000 000 acres. State giving

cultural lands, 16,000,010 acres. State giving great attention to systematic Irrigation; Agriculture, as an industry, rapidly advancing in importance. Number ocres brigated lands, :890, 740, 350. Agricultural products in bushels: Wheat, 8,659,200; oats, 2,014,100; barley, 1,150,-450; corn. 47,400; rye, 64,900; flax seed, 555,000; potaboes, 1,085,900.

HORTICULTURE.-Fruits can not be excelled in quality and flavor. Boise and other valleys widely known for their fine fruits. Number fruit trees growing in State, 178,914, of which 101,300 were apple; 17,360 prune; 10.110 plum; 16,714 cherry; 14,598 peach; the remainder being pear, apricot, and nectarine.

Legal interest rate, 10; by contract, 18.

HISTORICAL.—Country formed part of Production for 1889: Apples, 277,000 bushels; Louisiana purchase of 1903. Cour d'Alene peurs, 28,850 boxes; peaches, 34,850 boxes; berries, 76,600 mission estublished, 1843. First permanent plums and prunes, 34,850 boxes; berries, 76,600

penrs, 29,830 hoxes; peaches, 34,850 boxes; plans and prunes, 34,350 boxes; berries, 76,600 baskets; grapet, 78,200 boxes.

LIVE STOCK.—Idaho possesses great advantages for stock growers. Estimated grazing lands, 20,000,000 acres. Climate and grasses both favorable to the indus.ry. Latest reports give 155.497 horses, value, \$6,49:,395; sheep, 227,077, value, \$1,284,385; oxen and other cattle, \$15,398, value, \$7,858,005. MINERALS.—Mining forms the chief in-

dustry of the State. Idaho ranks fifth as a dustry of the State. Ideho marks fifth as a producer of silver and sixth as a producer of gold. Value of gold mined, 1850, \$1,850,000; of silver, \$4,184,848. Thtal value of gold and silver sent to mint and assay offices since 1860, \$34,220,049. State ranks second in production of lead; output, 1889, 23,172 tons, two-thirds mined in Shoshone County, which comprises the famous Count d'Alene mining region. Dutout of the couper mines 184,300 monde. the famous Centr d'Alene mining region. Output of the copper mines, 154,490 pounds. Iron and coal exist. Limestone, sandstone, and marble are quarried.

RAILWAYS.—Number of miles in operation in 1880, 206; 1885, 794; 1890, 946; January 1, 1894, 966. State has one mile of railway to each 87.7 square miles.

EDUCATION.—State has a good system of public instruction. School ages 5-201; number of public instruction.

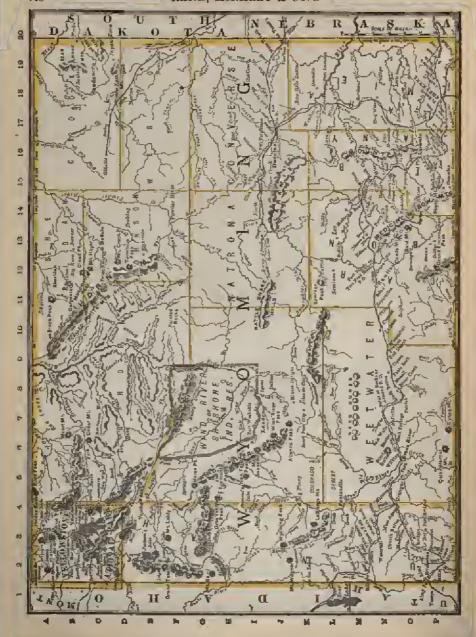

of public instruction. School age, 5-21; number pupils enrolled in public schools, 14,811; in private schools, 1,104. State University at

HISTORICAL.—Name derived from the [11,573. Principal crop is hay; annual value,

about \$1,500,000.
LIVE STOCK,—The live stock interest forms the oldest and most important industry in the State. Cattle are the most important, but great progress has been made in the numbut great progress has been made an are mules ber and quality if the sheep and horses. Number oven and other cattle, 1891, 1,107,082, value, \$15,910,086; horses, 100,090, \$3,422,100; mules, 1,382, \$98,040; sheep, 1,141,442, \$2,808,070; milch cows, 13,308, \$428,640; swine, 10,620, and core SHIL SO:2.

MINERALS,—Coal, the most important of as mineral interests. There are 15 regular MINERALS.—Coal, the most important of the inforcal interests. There are 15 regular nines; output, 1890, 1,870,366 tons, value, \$3,183,068. Carbon and Almy mines best known. Existence of petrnlenin known for thirty years; deposits valuable but almost wholly undeveloped. Principal developments made in Frémont and Weston counties; 50 open oil springs in Frémont County; 14 in the vicinity of Lander. In 1889, \$14,512 of gold nined; copper production, 100,000 pounds; iron and gypsum exist. Sandstone and lime-iron and gypsum exist. iron and gypsum exist. Saudstone and lime-stone are quarried; marble has been discov-

ered in Converse County.

RAILWAYS.—Number of miles of railroad In operation in 1867, 82; 1870 and 1875, 450; 1880, 512; 1880, 616; 1896, 1,002; Jan. 1, 1802, 1,052. State has one mile of railway to each

EDUCATION .- State has 259 teachers and 7,652 pupils in the public schools. School age, 6-21. Compulsory education enforced. State University located at Laramie, LEGAL HOLIDAYS.—January 1, Febru-

ary 29, May 30, July 4, Thanksgiving, and De-

FOLITICAL. - State elections hlennlal, State, congressional, and presidential elec-tions, Tuesday after first Monday in Novemtions, Tuesday after first Monday in November, number of Senators, 15; Representatives, 32; sessions bigenial, in odd-numbered years; meets first Monday in January; limit of session, 40 days; term of Senators, 4 years; Representatives, 2 years; number of electoral votes, 3; number voters, 27,644. Voters must be citizens or declared intention, residents of State I were, of necipit follows: State I year, of precinct 60 days; registration required. Idiots, Insate, convicts, unless par-doned, U. S. soldiers, persons unable to read, excluded.

LEGAL.-Stalutes of limitation;

You' tab.

Named after a tribe of Indians,

HISTORICAL. - First explorations made by Spaniards who visited the country as early as 1540. Salt Lake visited by Capt. Bridger 1824-25, the first recorded discovery of the lake. Territory visited by Fromont, 1813, whose account led to its settlement. First settlements made by Mormons under Brigham Young at Salt Lake City, 1847. Country certed to United States by Mexico, 1848. In 1849 the Mormons organized the State of Descrit," land of the honey bee; September 9, 1850, Coppress passed an act creating the Territory

of Utah, Ignoring the State of Deserct.

AREA, ETC. - 84,900 square miles; land surface, 82,190 square miles; water, 2,780; average length, 350 miles; breatth, 260 miles. Elevation of valleys, 2,700 to 7,000 feet above the sea. Mountains range from 12,000 to 13,690 feet; mean elevation, 6,100 feet. Principal rivers, Colorado, Grand, and Green. Utah has 2.524 artesian wells, used chiefly to irrigate orchards, gardens, and vineyards.

CLIMATE .- Temperature at Frisco: Mean winter, 30°, extreme, 0° summer, 73°, extreme, 99°; Sait Lake, winter, 28°, extreme, 90°; summer, 70°, extreme, 101°. Average annual rainfall: Frisco, 7.6 Inches; Salt Lake, 10.3 Inches.

POPULATION.—Utah ranked thirty-fifth ia population in 1850, thirty-erventh in 1850, thirty-ninth in 1870 and 1880, and fertieth in 1830. Total population, 1850, 11,830; 1890, 40,273; 1870, 86,785; 1890, 144,965; 1890, 207,905. Classification: Male, 110,463; female, 47,442; native, 154,841; foreign, 53,064; white, 205,849; colored, 2,006—Africans, 588; Chinese, 806; Lancace, 4, Indian 608. Japanese, 4: Indians, 605

PRINCIPAL CITIES .- Salt Lake City, the capital and metropolis, population, 43,843, increase in ten years 24,675 or 115.97 per cent.; Ogden, important railroad, commercial, and manufacturing center, population, 14,839, increase, 8,820 or 145.83 per cent.; population, Provo, 5,159; Logan, 4,565.

AGRICULTURE.-Agriculture and mining form the chlef industries. Wheat crop, 2,333,000 bushels; oats, 1,288,000 bushels; Indian corn, 675,000 bushels; barley, 660,000 bushels; potatoes of unusual size and fine quality produced in abundance; annual yield over 1,000, 1000 bushels. Fruits are of fine flavor and abundant. In 1888, 180,000 pounds of dried redemption of taxes, 2 years. Legal interest rate, 10; by contract, no limit.

grape, grown for raisins, averages 8,000 to 5,000

pounds of raisins per acre.

LIVE STOCK.—Live-stock interest chiefly in sheep; cattle and horses following in imin sheep; cattle and horses following in importance. Number farm animals, 1891; Sheep, 2,055,000, value, \$4,650,466; cattle, 402,731, \$5,670,572; milch cows, 54,467; \$1,210,378; horses, 67,597, \$2,414,946; mules, 2,103, \$111,369; swine, 48,534, \$416,274. Wool clip about 9,000,000 pounds. Sheep, horses, and cattle are of fair grade and constantly improving.

MINERALS. - Gold, silver, lead, and courses one the neligible integrals. Gold discourse for the neligible integrals.

MINERALS. Gold, silver, lead, and copper are the principal minerals. Gold discovered 1857, value of production, 1890, \$600,000; silver product, 8,000,000 omnees, value, \$10,343,431. Utal: ranks third in silver and lead; output of lead mines, 16,673 cous; copper production, 1,006,638 pounds; salt production increased from 107,000 barreis in 1885 to 427,600 barreis in 1885 to 427,600 barreis in 1895. 500 barrels in 1890. Iron and coal are mined. In 1890, 500 tons of sulphur were produced. Sandstone, limestone, grantle and state, and serpentine are quarried. Numerous marble beds exist, but have not been developed.

RAILWAYS.—Union Facific Railway com-

pleted to Ogden, March 3, 1869. Number of miles in operation in 1870, 257; 1876, 515; 1880, 842; 1885, 1,188; 1890, 1,265; January 1, 1894, 1,347. Territory has one mile of railway to each 63,23 equare miles.

raised by taxation is for public schools. School age, 5-18; number pupils in common schools, 35,372; in private schools, 10,794. University of Deseret, Salt Lake City; Agricultural Col-

LEGAL HOLIDAYS .- January 1, Febru-

ary 22 May 30, July 4, and 24. Thankagiving, and fast days, and December 25.

POLITICAL.—Territorial elections blenulal, first Monday in August. Number of Senators, 12: Representatives, 24: lettn, 2 years; sessions biennial, in odd-numbered years, meeting second Monday in January; limit of session, 90 days. Number voters, 54,471. Voters must be citizens or declared intention, residents of Territory 6 mouths, of county and preciact 30 days. Bigamists,

polygamists, and adulterers excluded.

dians, 11,517.

PRINCIPAL CITIES. - San Francisco, the metropolis, one of the lending ports in the United States, population, 293,987; Los Augeles, the second city in size, center of the fruit and wine trade of Southern California, population, 50.305. Oakland, au Important railroad center, opposite Sun Francisco, has 48,682 Inhabitants: Sacramento, the capital, population, 26,396; San Jose, center of an important-agricultural and horticultural district, popubation, 18,060.

URBAN POPULATION.-In 1890, twenty-five cities and towns had a population of over 3,000. Greatest numericul increase durlng decade shown in San Francisco-65,038 or 27.80 per cent. Increase of Los Augeles, 89,-212, or 350.54 per cent.; Oakland, 14,127, or 40.88 per cent. Percentages of Increase greatest in Pasadena, Fresso, San Diego, Santa Ana, Los Angeles, and San Bornardino. AGRICULTURE.—All products of tem-

perale and semi-tropic climates produced in abundance. Production of cereals one of the chief industries of the State; wheat culture most happerant; barley product of California equals one-fourth of total production of United States. Latest reported productions:

Whrat, 36,565,000 bushels; barley, 17,548,280 bushels; corn, 5,671,000 bushels; oats, 2,416,900 bushels; rye, 213,971 bushels; hay, 79,365 tons, value, \$434,933. State ranks third as a producer of hops; in average yield per acre ranks first; production, 1890, 6,547,838 pounds,

average yield, 1,348 pounds, HORTICULTURE. - State has 12,662,640 fruit trees, exclusive of nuts, berries, and citrus fruits. In the extent cultivated, peach and aprirot lead, while the pear is one of the most profitable fruits grown; prune growing an important branch of fruit culture. Santa Clara County, center of industry, produced 15 00,000 pounds in 1889. California has 78,-616 acres under empl-tropic fruits and outs, 38 367 acres oranges. Total number bearing as so acres oranges. Total number bearing trees, 2,632,021—orange, 1,153,841. Products and values, 1889: Oranges, 1,245,047 boxes, value, \$2,271,618; lemons, 36,548, \$57,852; almonds, 15,251,008 pounds, \$1,525,100; figs, 11,150,816, \$298,421; Madlera nulls, 11,852,400, \$1,242,216; olives, 9,059,208 pounds, \$386,388, Olive culture a successful industry. Olive plantations contain 607,377 trees—278,380 bearing. Olive oil and pickled olives of California are of excellent nuclity.

are of excellent quality.

VITICULTURE.—A great and growing industry, Chlifornia leading all other States. Grapes are produced in nearly all the 54 counties in the State. State has 155,272 acres under bearing vines and 45,272 acres under numer gearing whee and 30,72 acres under new vineyards. Products, 1889; Grapes, sold for lable use, 77 570,000 pounds; wine made, 14,826,000 gallons; raisins produced, 1,372,195 boxes, Esiforated whose product, 1800, 18,500, 600 gallons; raisins, 2,197,463 boxes, Largest vinewards in the world or Tabarea, press 3,800 vineyard in the world at Tehama, area, 8,800

LIYE STOCK, ETC .- Climate well adapted to the rearing of farm animals, State being chiefly noted for its sheep. Number and value of farm animals, 1891: Horses, 418,059, \$26,of farm animals, 1891; Horses, 410,009, 220, 010,045; mules, 54,74; \$4,007,548; milch cows, 200,621, 27,820,511; cattle, 602,904, \$10,481,063; sheep, 4,688,541, \$9,884,211; swine, 512,424, \$2,741,675. Wool clip, 1800, 34,851,000 pounds; shipments, 29,001,000; value, 30,500,000. Becepts of California butter at Sam Francisco, 11,078,200 pounds; cheese, 4,272,000 pounds; eggs, 2,665,053 dozen. Honey an important product; number beebives, 55,043, value, \$65,-244; products, 2,000,000 pounds strained honey 200,000 pounds comb honey, 80,000 pounds

MINERALS.—One of the richest mineral regions in the world. Gold mines the most important, first discovered, 1848; value of production up to close of 1890, \$756,842,126. California ranks first among gold-producing states; value of product, 1889, \$12 596,720; silver product, 1,003,578 ounces, value, \$1,373,-807. State produces more than one fourth the world's supply of quickstiver; production, 1889, 25,000 flasts, value, \$1,190,000. Of tha 9,500 600 pounds of borax produced in United States California supplied 70 per ceut. Coal

mined chiefly in Amador and Contra Costa of 15,745 men. Aggregate number of deaths, counties; output, 121,820 tons, value, \$288.32; 573. Number pensioners on the rolls, 1891, petroleum fields lie in Southern counties, pro- 8,004. counties; output, 121,820 tons, value, \$288.32; petroleum fields lie in Southern counties, production, 303,220 barreis, value, \$988,048. Copper, asphaltum, and antimony are produced. In the production of granite, State advanced from ainth place in 1830 to third in 1830, value of output, 1889, \$1,929,018; sandstone, \$175,598; Hmestone, \$516,750; marble, \$87,030; slave,

LUBBER. - Lumber industry one of the oldest and most important in the Sinte, being one of its greatest sources of wealth; most valuable timber region, redwood belt of Coast range. Industry dates to 1838; first saw mili erected on Bodega Bay, 1843. Estimated area of timber regions, 11,000,000 acres. Amount of redwood, fir, and pine cut annually, 500,000,-000 feet. Lumber received from all points at San Francisco, 1889, 463,153,193 feet—301,894,-864 feet pine, 161,258,329 feet redwood.

FISHERIES.—California leads in Pacific Coast fisheries. Capital invested, \$2,684,210; minber employed, 5,289; vessels, 124; boats, 4,101; value of all products, \$4,1493,349; fish, \$1,091,389; whale and send products, \$2,490,373; all others, \$81,598. Whale tistery becoming a prominent industry. State has 8 salmon cannerles; number cases packed, 1889, 74,822,

value, \$404,232.
MANIFACTURES.—State has 20 establishments engaged in textile industries—10 wool, I cotton, 9 slik. Capital invested in woolen manufactures, \$2,001,480; number employes, 1,375; wages pabl, \$328,824; cost of materials used, \$823,961; value of products, \$1,421,903. Silk industry: Capital, \$112,283; employee, \$14; materials used, \$144,672; products, \$271,912. Manufactures chiefly center at San Francisco. Cily reports 201 industries; 3,965 establishments; capital invested, \$65,662,066; employés, 46,850; wages, \$39,860,667; most of materials, \$77,188,061; products, \$131,-

CIVIL WAR.—Culifornia furnished a total est rate, 7; by contract, no limit.

RAILWAYS .- First railway in State, Sac-

RAILWAYS.—First railway in State, Sucramento Valley, incorporated, 1852; eight miles completed, 1852; road opened for basiness—Sacrumento to Folsom, 23 miles—1856. Number of miles in 1855, 1860, 23; 1895, 24; 1870, 925; 1876, 1,503; 1896, 2,195; 1896, 2 045; 1890, 4,996; January 1, 1892, 4,948. State has one mile of railway to each 30.85 Square miles. EDUCATION.—State has a good system of public schools, 221,756; expenditures, \$5,119,007; more per capita than any other State. School age, 5–17. Number of pupils in private schools, 24,843. State has 18 colleges. State University, 1898. Liek Observatory on Mount Hamilton, transferred to University, 1898.

to University, 1888.

LEGAL INCLIDAYS.—January 1, February 22, May 39, July 4, September 9, Thanksgiving, December 25, State or general election.

giving, December 25, State or general election. When any holiday falls on Sunday, the Monday following is a holiday.

POSTAL.—Tutal number postoffices, 1,493; number presidential offices, 91—5 first-class; 14 second-class; 22 third-class; number fourth-class offices, 1,312; money order, 307.

POLITICAL.—State, congressional, and presidential elections, Tuesday after first Monday in November. Number of Senators, 10; Derescentifices, 80; segsions Advantal in

40; Representatives, 80; sessions blennial, in odd-oumbered years, meeting first Mouday in Jamary; limit of session, 40 days; lerm of Senators, 4 years; Representatives, 2 years. Number of electoral votes, 9; number voters, 462,222. Voters must be actual citizens, residents of State 1 year, of county 90 days, of precinct 80 days; registration required. billots, Chinese, and convicts excluded.

LEGAL .- Statules of limitation: ments, 5 years; open accounts, 2; notes, 4; redemotion of tax sales, I year. Legal luterredemotion of tax sules, I year.

#### Ne-vah'dah. NEVADA.

Spanish-White with Snow,

HISTORICAL .- Previous to Mexican War | formed an unimbabited portion of the Department of California. Territory ceded to United States. February 2, 1888. First explorations conducted in 1833. First alternated settlements, 1840; first permanent settlement made at Genoa, in Carson Valley, 1850. Prior to 1859 inhabitants chiefly Mormous; discov-

to 1839 unasotants chedy mormous; Oscovery of Coinstock silver mines in that year induced a great immigration. Nevada Territory organized, March, 1801. State admitted into the Union, October 31, 1864.

AREA, ETC.—116,700 square miles; land surface, 109,740 square miles; vater, 960 square miles; extreme length, 485 miles; length of western boundary, 210 miles; extreme breadth, 110 miles. Principal rivers. Humbold, Truckee. 310 miles. Principal rivers, Humboldt, Truckee, Carson, and Walker. Along the various streams extend rich, fertile valleys and many natural meadows. Greatest elevation, Wheeler Peak, 13.030 fect; lowest, 945 fect. Lake Tahoe, one of largest lakes in the West.—23 miles long, 12 miles wide—lies 6,208 feet above the level of the sea.

CLIMATE.—Temperature at Winnemucca: Mean winter, 28", extreme, -28"; summer, 72°, extreme, 104°; average annual rainfall,

POPULATION. - Nevada ranked forty-Poll'UGATION.—Nevada ranked tory-first in population in 1890, fortieth in 1870, forty-third in 1893, and forty-ninth in 1890. Total population, 1890, 6.857; 1870, 42,401; 1880, 62,290; 1890, 45,761. Classification; Male, 20,-214; female, 15,547; native, 81,055; foreign, 14-706; white, 89,084; colored, 8,677—Africans, 242; Chinese, 2,833; Japanese, 3; Indians, 880 3,590

PHINOIPAL CITIES .- Virginia City, the commercial metropolis, population, 8,511; Carson City, the capital, population, 8.950; Eureks, Austin, Tuscarora, and Winnemucca are the only interior towns of any prominence. AGRICULTURE — Where irrigation is

AGRICULTURE: — Where irrigation is practicable, valleys and natural meadows highly productive. Nearly all cereals, hay, and vegetables are grown. All fruits of temperate climate, of fine quality, produced abundantly. Irrigated crop areas exceed those of any other State. Irrigated area under crops, 1800, 224,403 acres. Out of a total of 1,341 farms, 1,167 contain irrigated crop areas. Crops chiefly forage; agriculture largelive an adjunct to stock-raising. Latest reports ly nn ndjunct to stock-raising. Latest reports give cereal products: Wheat, 323,801 bushels; barley, 237,192 bushels; oats, 99,126 bushels.

LIVE STOCK .- One of the most profitable and, next to mining, the leading industry of the State. Beef and mutton produced are of exceptional quality. Superior climate of Nevada renders it the equal of Kentucky as a hatural home for rearing fine horses and cat-tle. Live stock, 1891; Horses, 57,757, value, \$2,471,975; mileh cows, 14,908, \$409,813; cattle, \$17,498, \$4,689,446; sheep, 504,710, \$1,258,223;

swine, 12,626, \$86,107. MINERALS.—From 1871 to 1879 Nevada attrettals,—From 1871 to 1879 Nevada occupied the leading place in production of the precious metals State now occupies third place. Output, 1880: \$3.500,805 gold; silver, 4,696,605 ounces, value, \$6,072,241. Comstock lode discovered, 1854; aggregate gold and silver yield to 1882, \$42,966,608. Lead, other productions of the control of copper, and manganese are produced. Sait, soda, and bornx are found in inexhaustible quantities. Granite and sandstone quarried

duminus: dramties, in small quantities, CIVIL WAR.—State furnished 1,080 men; number deaths, 33. Number pensioners on the rolls, 166.

RAILWAYS. - First engine of Central Pacific entered State, December, 1897; track completed to Reno, May, 1898. Total number miles railway operated in State, 1867, 80; 1870, 509; 1 y to each 114.71 square miles.

EDUCATION. — Latest reports give number pupils in public schools, 7,387; school age, 6-18. Number pupils in private schools, 408. State University at Reno. LEGAL HOLMAYS.—January 1, Feb-

ruary 22, July 4, Thanksgiving, and December

POLITICAL. — State elections biennial. State, congressional, and presidential elections, Tuesday after first Blonday in November. Number of Senators, 20; Representatives, 40; sessions biennial, in odd-numbered years, meets first Monday in January; limit of session, 40 days; term of Senators, 4 years; Representatives, 2 years, Number of electoral votes, 3; number voters, 20,251. Voters must be citizens or declared intention, residents of State 6 months, of county 30 days; registra-tion required. Idiots, insane, and convicts excluded

LEGAL - Stabules of limitation; Judgments, il years; open accounts, 4; notes, 6; redemption of tax sales, none. Legal interest rate. 7: by contract, no limit.

# Or'-e-gon. " Beaver State."

Derived from Spanish "Oregano."

HISTORICAL. — Name signifies thyme, an herb found in abundance by the early explorers. First explorations made by Capt. Gray, of Boston, in 1792. Astoria established by Pacific Fur Company, in 1811. First settlements in the valley of the Willamette made in 1811. The province of the Willamette made in 1811. 1844; Territory organized in 1848; constitution adopted Nov. 9, 1857; entered the Union Feb. 12, 1850, being the twentieth State admitted.

AREA, ETC. - Area 96,630 square milra; and surface, 91,500 square miles; water, 1,470 square miles; average length, 360 miles; breadth, 260 miles. Columbia, the principal river, forms \$20 miles of boundary; together with six tributaries drains \$3,000 square unles of State. Cascade Mountains divide State

of State. Cascade Mountains divide State into two quequat parts.

CLIMATE.—Portland: elevation 83 ft.; temperature—spring, 51 9°; summer, 64.8°; autumn, 52.8°; winter, 40.8°; average annual rainfail, 52.23 inches. Roseburg: elevation, 528 ft.; temperature—spring, 51,6°; summer, 64.2°; autumn, 51,9°; winter, 41.6°; average annual rainfail, 35.05 inches.

POPULATION.—Oregon ranked thirty-fourth in population in 1850, thirty-sixth in 1850, thirty-eighth in 1850, thirty-sixth in 1850, thirty-eighth in 1890, Total population, 1850, 13,294; 1860, 52,465; 1870, 90.823; 180, 174,768; 1890, 314,767. Classification: Male, 181,840; female, 131,947; native, 256,450; foreign, 57,317; white, 301,388; colored, 12,000—African, 1,185; Chluese, 9,540; Japanese, 25; Indians, 1,258.

PRINCIPAL CITIES. -Portland, metropolis, a port of entry, and oullet of the largest and most productive valley on Pacific slope; and most productive valley on Facine slope;; population, 62,046. Astoria, port of entry; flourishing city of 6,184 inhabitants. Salem, capital—population, 4,315. Burns, La Grande, Lakeview, Oregon City, Roseburg, and The Dalles are lami offices.

AGRICULTURE.—Ranks second on

AGRICULTURE: — Ranks second on must be chizens of the Chief States, and productions. Wheat, the most important product, 13,149,000 bushels grown in 1891; oats rank second, product, 6,000,000 bushels; ranks fourth in bops, area 1890, 3,223 acres; yield, 3,811,349 pounds.

LIVE STOCK. — Climate and natural grasses peculiarly adapted to sheep and stock accounts, 8 years. Legal interest, 8; by corraising. Number farm animals, 1891, 3,817,878, tract, 10; usury forfeits principal and interest.

value, \$32,400,308. Cattle, 762,728, value, \$13,-079,341. Sheep, 1860, 86,062; 1870, 318,123; 1880, 1,083,102; 1890, 2,529,80; value, \$5,401,789. Wool product, 1890, 7,500,000 pounds, FISHERIES.—State ranks second in importance in Pacific coast fisheries. Capital Invested, \$2,290,532; value of yield, \$1,03,574. Ranks first in the cauning of salmon; number of factories, \$1; 320,822 cases packed; value, \$1,00,157.

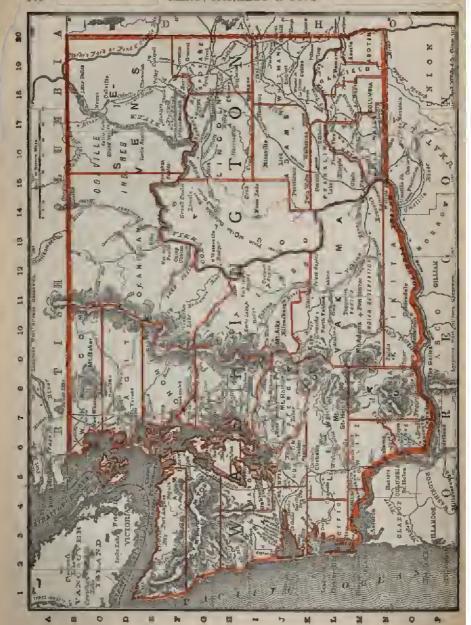

\$1,901,517. MINERAL WEALTH. -- Mineral wealth MINERAL WEALTH.—Mineral wealth very great. Deposits, in order of importance, are: Coal, fron ore, gold, copper, quicksilver, fire and other clays, chrome, silver, manganese, zinc, lead, and platimum. Valme of gold mined in 1860, \$1,087,000; silver, \$129,129, Coal area, covers several hundred square miles, RAILWAYS.—Xumbor miles 1870, 1, 27,25; one mile to each 66, 72 square miles, 1870, 159; 1880, 508; 1887, 1, 200; 1891, 1898

Wosh-ing-ton. "Chinook State."

HISTORICAL.—Explorations of Washington and Oregon coasts made by American navigators, 1782. Columbia River explored by Capt. Gray, 1792. Lawis and Clarke expedi-Capt. Gray, 102. Lawis and Charge expedi-tion, 1985. Astoria established, 1911. Various settlements made by missionaries, 1836-37. First important settlement made at New Mar-ket, now Turnwater, 1835. Territory organ-ized, March, 1853. State admitted into the

Union, November, 1889.

AREA, ETC.—69,180 square miles; land surface, 81,860; water, 2,800. Extreme length, east and west, 360 miles; breadth, north and canth, 60 miles; breadth, north and canth, 60 miles; breadth, north and south, 240 miles. Columbia River, great natural feature of Eastern Washington, forms 800 nules of boundary between the State and Oregon. Greatestaltitude is Mount Ranier, 14,411 feet.

CLIMATE. — Temperature at Daylon; Mean winter, 30°, extreme -26°; summer, 68°, extreme, 108°; Olympia, winter, 38°, extreme, -40°; summer, 62°, extreme, 97°. Average annual rainfall: Daytoa, 27.8 inches; Olympia, winter, 38°, extreme, 40°, extreme, 40°, extreme, 40°, extreme, 40°, extreme, 40°, extreme, 40°, extreme, 50°, extreme, 50°,

pin, 521 inches.
POPULATION.—Washington ranked for-POPULATION.—Washington ranked for-tieth in 1809, forty-second in 1870 and 1890, and thirty-fourth in 1899. Total population 1890, 11,594; 1870, 23,955; 1880, 75,116; 1890, 349,890. Classification; Male, 217,592; female, 13,828; native, 250,385; Foreign, 00,005; white, 340,513; colored 8,877—Africans, 1,802; Chi-nese, 3,200; Japanese, 500; Indians, 3,655. PILINCIPAL OFFIES.—Seattle, on Puget Saund, the Ingress of the State popular

PUINCIPAL OTTIES.—Seatile, on Puget Sound, the largest city in the State, population, 42,87, an increase during the decade of 33,90 or 1,112.48 per cent.; Tacoma had, in 1889, a population of but 1,081; number of lichabitants, 1890, 33,000; Spokane Falls is the center of the mineral districts of Eastern Washington, population, 1899, 19,022, increase since 1889, 19,672 or 5,573 per cent. Olympio, the capital, population, 4,098.

AGRICULTURAL, ETC.—Wheat is the most important cereal product; yield, 1891, 13,216,000 bushels, value, \$9,161,775; oats, second in importance, yield, 0,744,000 bushels, Amoug hop-preducing states Washington occupies second place. In 1890, 8,882,955 pounds were grown, value, \$2,284,955. Climate specially adapted to fruit culture. All vari-

specially adupted to fruit culture. All varieties (except tropleal) are grown extensively. Read Para a grown extensively. Read Number farm animals, 1991, 1,554,776, value, interest, 10; by contract, no limit.

\$25,687,953. Wool growing an important industry, clip of 1800, 4,384,480 pounds.

FORESTS, ETC.—The vast forests of the

State form one of the principal sources of its wealth. Estimated area of forest lands, 20,001,000 acres; standing timber, 389,365,000,000 feet. First saw-mill built at Tumwater, 1847. Production of mills, 1890, 1,321,400,000 feet of sawed lumber and \$55,400,000 shingles

FISHERIES.—State ranks third in Pacific coast fisheries. Capital invested, \$1,517,897,

fit coast fisherdes. Capital invested, \$1,517,207, value of yield, 1839, \$290,800. Ranks second in the canning of saimon: number of factories, 21; cases packed, 226,303; value, \$1,397,989.

MINERALS.—Value of output of gold mines, 1800, \$204,000; silver, \$20,025. Developed coal lands have an area of 180,000 acres; output, 1839, 1,030,578 tons, value, \$2,333,238. Value, of sandstons queried, \$25,998; lime Value of sandstone quarried, \$75,986; lime stone, \$231,287.

RAILWAYS—First railroad in State, Wallawaila and Columbia River,—incorporated 1888, completed 1878. Number miles of road in operation, 1875, 110; 1880, 289; 1885, 769; 1800, 1,998; Jan, 1, 1892, 2,290.

EDUCATION.—Number pupils enrolled in publicachools, 55,432; in private achools, 4,322. School agg, 5–21. Normal schoolsure at Ellensburg and Chapter, University of Washinston.

burg and Cheney; University of Washington

Lisgal Holidars.—January 1, February 22, Decoration Pay, July 4, first Monday in September, Thanksgiving, December 25, and general election.

POLITICAL.—State elections biennial. State, congressional, and presidential elections, Thesday after first Monday in November. Number of Senators, 34; Representatives, 78; term of Senators, 4 years. Representatives, 2 years; sessions blendal, 10 odd-numbered years, meets second Monday in January; limit of session, 61 days. Number of elec-toral votes, 4; number voters, 146,918. Voters must be citizens or declared intention, resident of State 1 year, of county 10 days, of precinc 30 days. No registration required. Indians not taxed excluded.

LEGAL.—Statutes of limitation: Judg-

## ALASKA, Alas'ka.

Indian, "Alakshak"-"Great Country."

HISTOBICAL.—Country first visited by promising region. Vast tracts of level and Russians, under command of Vitus Bering, rolling land on eastern and souther a shores of 1741; first occupants, Siberian for innoters, the islands furnish excellent posturage for Charter granted Russian American Fur Company, 1719, gave monopoly of entire for trade; twice renewed; expired in 1861. First per-manent settlement made at Sitka, 1801; Alaska purchased by United States, in May, 1867, for \$7,200,000; Alaska constituted a military district antil 1881, when a District Government was provided. A District Court was established, and the Territory made a land district.

Trevious to 1834 public land could not be purchased. The tuws of Oregon are in force.

AREA, ETC.—Total area, 577,890 square miles; extreme length, north and south, 1,100 miles; breadth, cast and west, 800 miles. Area inctudes 27,890 square miles, which represents the islands. Coast line, including islands, 26,364 miles. Mount St. Elias, over 17,000 feet in beight, is the highest point in North America,

POPULATION. — Total population for 1820; Male, 19,30; female, 12,665; white, 4,863; mixed (Russian and institue), 1,819; Indian, 23,274; Chinese, 2,237; Unknown, 112. Indian population comprises 73.2 per nept. of total, and is classified as Eskimo, 12,784; Thilaket, 4,730; Athabaskan, 8,341; Aleut, 508; Tsimpsean, 951; Hyda, 391. Alaska is divided into seven districts; Southeastern, with 8,038 intabligants; Kadink, 6112; Unalaska, 2,301. habitants; Kadiak, 6.112; Unalaska, 2.301; Nushagak, 2,726; Kuskokwim, 5,424; Yukou, 3,912; Arctic, 8,223.

PRINCIPAL TOWNS AND SETTLE-MENTS.—Juneau is the chief settlement and most important mining ceuter, population, 1,253. Sikka, on Baranof Island, the capital; population, 1,190 — white, 293; Indians, 801; Chinese, 31. It is the seat of the oldest Greek Church in the United States, and the residence of the Governor of the Territory. Wrangell, near the mouth of the Stikine River, is an important transit port for the gold mines in British Columbia; St. Paul, on Kadiak Islami, British Columbia; St. Paul, on Kadiak Island, the most important fur-trading center in Cuntral Alaska; Unalaska, principal settlement of Aleutian Islands, important center of fur-trade and base of supplies for whalers; St. Michael, on Norion Sound, the outlet and trading port for Yukon District. Annual value of furs taken in District. \$175,000.

AGRICULTURE.—The Southeastern and Radiak districts are the accountral regions.

Kadlak, including Cook's lulet, is the most fuel, but indifferent humber

rolling failed on eastern and southers sort the islands furtished excellent pasturage for sheep and eattle. In the vicinity of St. Paul are 300 cattles. Potators and the principal northern vegetables are grown here said in the region surrounding Silks. Grain does not ripen in any portion of Alaska. In the Yukon District there are many sections where vegetables and hay may be grown during the short warm summers

FUR INDUSTRIES .- The fur are the most valuable of the varied industries of the country. Fur bearing animals taken in the Territory are fur seals, sea and land otters, black, red, and cross-fox, arctic fox, marten or sable; black and brown bear, beaver, mink, and muskrat. Seal fors are the most important. Total value of scal-skins taken in Alaska, 1867 to 1890, nearly \$33,000,000; of other firs, \$16,000,000 sea otter most important. Up to 1889 an-

magnitude and beauty.

CLIMATE.—Climate of South Alasks greatly modified by warm current of Pacific dill stream. Temperature at Sitks. Mean summer, 25.5°, extreme, 2°°; mean winter, and summer, 25.5°, extreme, 2°°; mean winter, and sittle streme, 3°°, average annual rainfail, 101 inches. Lowest recorded temperature at Fort. St. Michael., -32°.

POPULATION.—Total pupulations. Lurge codish hanks in Bering Sea and off the south coast of Ainska. Fish equal in quality and more easily taken than at Newfoundland banks. Value of cod taken, 1807–1800, 82,800,-000. Valuable herring fisheries at Killianco, on Kenesaw Island; annual yleld, 150,000 gallons of oil and 1,000 tons of fertilizer. Whale fisheries of the Arctle Ocean, in 1890, yielded 226,403 pounds of whalebone, value, \$2.50 to \$3.50 per pound; ivory, 3,980 pounds; oit, 14,567

> MINERAL RESOURCES .- Gold and silver rank next to furs and fish in value. of gold exported sluce the purchase of Alaska, \$4,000,000. First important mine located at mouth of Silkine River, 1876. Output of the surface coines of the Yukon region in 1800, \$10,000. Silver mining not yet important. Coal is found in many localities, and some S100,000 miues are being developed. Copper, cianabar, and silver bearing galena ore exist

> FORESTS, ETC .- In the classification of Alaska's resources, timber ranks fourth. It is not, however, a source of wealth. United not, however, a source of weath, orace States prohibits the export of timber products and supervises the production of lumber and fuel for heal are. One-fourth the lumber and Alaska, below an altitude of 1,000 fret, is covered with forests. In the Southeastern District, pine, hemlock, and the valuable yellow cedar are found. The greatest proportion of the forests are spruce, which furnish good

### BANADA Kan'-a-dah'.

Indian-"Kanuatha," significs, "A village or collection of huts."

of discovery, that of the Cabots, 1497; Cartier's explorations made 153-48. First settlement made by Europeans at Port Royal, Acadim. (naw Annapolis, Nova Scotia), 1604; first permaneat settlement made 1808, by French mader Champlain at Quebec. In 1713 Acadia became a British possession, and by 1700 all the French territory had been gained by Great Butain. Dominion of Canada came into ex-Istence, July 1, 1867, by the union of Upper and Lower Canada—Ontario and Quebec— Nova Scotia and New Brunswick. These were afterward joined by Manitoba and the North-west Territories, 1870, British Columbia, 1871, Prince Edward Island, 1873.

AREA, ETC .- Total area, including lakes and rivers, 3,456,000 square miles; length, from east to west, about 8,500 miles; from north to east to west, agent a, so males, from north to south, 1,400 miles. Principal physical features, the Rocky Mountains and Laurentian Range, the plains of the Northwest Territories and the great inland lakes. System of Ioland naviga-tion the largest and most important in the world. St. Lawrence system, with the grent lakes, extends for 2.581 miles, from the Sirails of Belie Isle to Port Arthur and Duluth on Lake Superior. Unbroken water communica-tion afforded from Duluth and Port Arthur to Liverpool, 4.618 miles. Greatest altitude, Mount Hooker, 16,700 feet.
POPULATION.—Number of inhabitants.

1871, 8,485,761; 1831, 4,334,830; 1891, 4,839,411—4,155,004 foreign and 645, 67 mallee born. Xumber Immigrants, 1873, 50,050; 1896, 38,565; 1896,

PRINCIPAL CITIES. - Montreal, the commercial metropolis and largest city in the Dominion; Toronto, the second in Size, is one of the most flourishing cities in the country; Quebec ranks third in haportance and population; Hamilton, an Important commercial and manufacturing center, ranks fourth; Ottawa the capital of the Dominion, ranks fifth. St. John, on important scapert, has one of the finest harbors on the Allantic Coast; Halifax, a great port of entry for the Dominion and the chief naval station of British North America, URBAN POPULATION.—Urban popula-

lation limited to places of not less than 1,500 inhabitants. Total for 1891, 1,894,259, an increase during the decade of 384,146, or 88.1 per cent. Percentages of increase as follows: Cities of over 5,009 inhabitants, 40.8 per cent.; towns over 5,009, 44.9 per cent.; villages over 1,509 29,3 per cent. In 1881, 35 cities ind over 5,000 lobalitants, number increased to 47 in 1881, 38 center 1,500 (4,5 1,500). 1891; 8 towns in 1881 over 3,000; 45 in 1891; villages of 1,500 increased from 55 to 91.
AGRICULTURE AND LIVE STOCK.

-Agriculture forms the chief industry, nearly 60 per cent, of the population being engaged in agricultural pursuits. Chief products, the cereals, beaus, peas, potatoes, turnips, and hay. Estimated production of wheal, 1890, 49,527,582 hushels, barley 28,000 000 hushels. Total value of agricultural products experied,

HISTORICAL.—Earliest authentic record of discovery, that of the Cahots, 1497; Cartier's explorations made 125-48. First settlement had by Europeans at Port Royal, Acadim 53; exports, \$5,893,100. Lupports of wheat flour, and other breadstuffs, \$2,937-100. Royal, Acadim 100, Nova Scotia), 1604; first permanent settlement made 1936, by French ader Champlain at Quebec. In 1713 Acadim 100, 1604; first permanent by the permanent of white exported, 1899; Horses, ader Champlain at Quebec. In 1713 Acadim 10,500, \$1,936,673; carde, \$1,431, \$6,949,437; carne a British possession, and by 1100 all 10,500, \$1,936,673; carde, \$1,431, \$6,949,437; carne a British possession, and by 1100 all 10,500, \$1,936,673; carde, \$1,431, \$6,949,437; carne a British possession, and by 1100 all 10,500, \$1,936,673; carde, \$1,431, \$6,949,437; carne a British possession, and by 1100 all 10,500, \$1,936,673; carde, \$1,431, \$6,949,437; carne a British possession, and by 1100 all 10,500, \$1,936,673; carde, \$1,431, \$1,937, \$1,431, \$1,937, \$1,431, \$1,937, \$1,431, \$1,937, \$1,431, \$1,937, \$1,431, \$1,937, \$1,431, expurts for seventeen years, \$108,080,586. FISHERIES.—The sea fisheries of Can-

ada, and the fresh water fisheries of the great lake 31 ml rivers, are among the richest and most important in the world. Number of nost important in the world. Number of vessels and boats engaged in the industry, 50,872, value, \$3,077,136; namber men, b3,775; capital invested, \$7,372,541; total value of yield, \$1,7714,962. Value of principal kinds; Cod, \$3,433,550; salmon, \$3,030,569; herring. \$1,953,492; lobsters, \$1,648,344; mackerel \$1,-544,56; whitefish, \$757,557; trout, \$625,286.
FORESTS.—The chief weakh of the coun-

try is in the forests. One fourth the total value of the exports, or over \$29,000,000, is represented by the products of the forests. In 1889, \$2,211,127 dues were paid an 1,008,800,617 feet of lumber and 5,743,848 enbic feet of

FURS .- The fur trade is still an Important one, fars being at present the chief commercial product of the vast extent of territory in he northern part of the center of the Dominine normer parts of skins received at Montreal by the Hudson Bay Company in 1890, 130,348. Most important, beaver, 20,000; marten, 17,000; mink, 7,000; lynx, 4,400; otter, 8,600; maskrat, 22,000. Total number received 1887-90, 518 603.

MINERALS,—Mineral resources of the Dominion extensive and widely distributed.

Dominion extensive and widely distributed. Among the principal minerals mined are gold, silver, iron, lead, copper, cost, and petroleum. Total value of mineral production for 1889, \$10,500,000. Output of coal mines, 2,719,478 lons, value, \$5,584,182; iron, 79,291 tons, \$1,769,092; gold, 72,228 outness, \$1,259,159; silver, \$23,918 outness, \$1,259,159; silver, \$23,918 outness, \$1,285,159; silver, \$23,918 outness, \$1,385,691; copper, 18,90,752 pounds, \$885,424; petroleum, 630,021 barrels, \$612,101; asbestos, 5,118 tons, \$428,554. Output of stone quarries, \$11,337 cubic yards of building stone, value, \$913,691.

MANUFACTURES,—Among the leading industries are the manufacturing of agriculties.

industries are the manufacturing of agricultural implements, carriages, wagons, railroad rolling stock, furniture, cottons, woolens, leather, etc. Total number of industrial estableather, etc. Total number of ministrial establishments in the Dominion, 1891, 75,768; capital invested, \$238,836,817; number of employes, 387,865; wages paid, \$99,762,441; cost of material used, \$255,98,219; value of products, \$475,415,705; number of establishments, 1891, 40 and 1892, particular and the contractions of the second costs. 1881, 49,923; capital invested, \$163.302.623; corploy6s, 254.935; wages raid, \$59,429.002; cost of materials used, \$179,918,599; value of prodnets, \$309,676,068

POSTAL AND BANKS. - In 1800 there were 7,913 post offices; number letters transmilled, 91,100,000; newspapers, 70,983,121. Post

1875, 4,826 miles; in 1880, 6,820 miles; in 1885, 1815, 4,620 miles; in 1830, 6,820 miles; in 1830, 10,150 miles; in 1800, 13,250 miles; in 1800, 1

EDUCATION AND RELIGION. early as 1846 free and compulsory education was organized in the old Province of Canada.

office banks numbered 494; depositors, 112,324; balances, \$21,990,653; 1870, banks numbered hands of the governments of the several provents of the reserved provents of the several provents of the property of the public, high, normal, and model schools up capital, \$39,390,765; deposits, \$125,187,515; assets, \$364,692,694; liabilities, \$174,501,492.

KALLWAYS.—First rallway in Domiaton begun 1935, opened 1836. It extended a distance of 10 miles from La Prairie, Quebe, to St. Johas. First operated by horse-power, which gave place to locomotives, 1887. In 1897, there were 2,258 miles of road in operation; in 1855, 4496 miles; in 1890, 6,891 miles; in 1893, and, 631,392. hands of the governments of the several provinces. In 1860 the total number of pupils in the public, high, normal, and model schools, was 168,828, average attendance for the year, 589,183; number of teachers, 21,771; expenditures, \$2,070,847. There are twenty-four colleges in the Homition. There is no State Church. Principal religions denominations are Roman Catholic, 1,991,915 members; Metholist, \$47,469; Presbyterian, 755,109; Church of England, 641,100; Baptist, \$03,740; Luthering, 63,979. аця, 63,979

GOVERNMENT.-The Dominion is composed of seven provinces, the District of Kee-wath and the territories. Form of govern-ment follows closely that of Great Britain, Executive authority is vested in the Queen, who is represented by the Governor General aided by a Privy Council of 14 members. The Legislative consists of a Senate of 80 mem-bers appointed for life and 8 Bonse of Corn-bers appointed for life and 8 Bonse of Cornbers, appointed for life, and a House of Com-As mons whose members are elected every 5 years. Present House consists of 215 mem-

## NEWFOUNDLAND.

by Cartier, 1534. In 1583, country visited by Sir Humphrey Gilbert, who claimed it as a possession of Great Britain Numerous Engli h and French colonies compled portions of the Island until 1718, when it was declared a British issand until 11 is, when it was declared a British possession. First Governor appointed, 1728; representative government granted, 1832; present constitution went laid force, 1832; Capital, and principal city, St. John's, a city of about 20,000 lububitants.

AREA, POPULATION, ETC.-The estimated area is 49,200 square miles; length, 3.0 miles; average breadth, 130 miles. Population. census of 1884, 193,124—90,344 males and 93,780 females. Area of Labrador Coast, 22,000 square miles; population, 4,211. Present population of eatire colony estimated at 202,000. In 1881, there were 100 miles of railway in operation, and on the Hall's Bay road, which is under construction for a distance of about \$40

miles, 60 miles of track were laid.

CLIMATE. —Temperature at St. John's: Mean for the year, 40.41°; extreme winter, —7°; extreme summer, 81°; rainfall, 48.50 taches, Point Rich, mean, 35.60; extreme winter, —15°; summer, 66°; rainfall, 36.96

PISHERIES. - Over 00,000 of the lababitants engaged in the fisheries. Annual value of the products, exclusive of home consumption, the products, exclusive of none consumptant, \$6,500,000. Cod fishery the oldest and most important; by 1578, 400 vessels were engaged in the lodustry; value of exports, 1890, \$4,238,556—\$863,217 from Labrador. Nutriber vessels engaged on the Great Banks, 60, with a tominge

HISTORICAL. The Island, together with of 2,567 tons; number of men, 1,998. Number a portion of the Labrador Penlasula, forms a colony of Great Britain. Country first discovered by Cabot, 1497; visited by the Fortingueso navigator, Cortered, 1500, who established the first regular fishery. Coast explored barrels, value, \$520,065; herring, 107,663 lished the first regular fishery. Coast explored barrels, value, \$378,847; value of salmon,

MINERALS, ETC.—Mineral resources important. First copper mine opened, 1864; value of copper and nickel exported, to 1879, value of copper and rickel exported, to 1873, \$2,623,882; value of exports from Tilt Cove and Little Bay mines, 1840, \$226,792. Iron pyrites, averaging 52 per cent of sulphur, are mined; in 1800, 1,670 1008, valued at \$72,815, were exported. Antimony, silver, lead, gypsum, and coal are worked. Total number factories, mills, etc., in the colony, 198, employée, 2,454. Agricultural products limited to potatoes, turning and other root come, hav, border, and

agreemants produces finited to parameter, and other root crops, hay, barley, and other root crops, hay, barley, and other legislation sceleing to encourage farming, EDUCATION AND RELIGION,—Lagest reports give 492 schools—214 Roman Catholic and 238 Protestant; altendance, 27, 322 table. Lagding religious donounts from papils. Leading religious denominations; 2,522 papils. Leading religious denominations; Roman Catholic, 75,234 members; Church of England, 69,000; Wesleyan, 48,767; other denominations, 2,965.

FINANCE AND SHIPPING—Exports

of the Colony, 1899, 86,360,855; imports, \$6,009,886; revenue, \$1,454,556. The public delt was \$1,158,627; per capita debt about \$10,69. Ou January 1, 189), the registered shipping was 2,207 vessels with a net tonnage of \$8,610 tons. During the year 1890, 48 new vessels were built; tomage, 1,806 tons; hounty paid, \$7,560. GOVERNMENT.—Public affairs are ad-

ministered through a Governor appointed by the Crown, assisted by an Executive Council of seven members, a legislative Council of not more than righteen members, and a house of assembly of thirty six representatives.

HISTORICAL.-Province formed part of territory sold to Dominion by the Hudson Bay Company. Formerly known as Red River Settlement, also Assimitoia. Local government in the hands of a Licutenant-Governor, an Executive Conneil of 5 members, and a Legislative Assembly of 35 Representatives. Province has 3 Senslors in the Dominion Senate, and 3 members in the House of

Fur trade still of importance, many skins being exported. Number of lindustrial establishments, 765; employés, 11,473; eapltal, \$14,342,149; value of products, \$11,916,929. Number miles of railway, 707. FISHERIES.—One of the chief indus-

FISHERIES.—One of the chief industries. Value of yield, 1800, 3, 481, 582; total since 1876, 324, 620, 875. Annual catch of scale, 54, 850, value, \$510, 110. Number salmon canneries, 34; output for year, 19, 895, 990 one-punnid cans. MINERALS.—Output of coal unines, 1888, 614, 408 tons, value, \$2, 319, 320; value of gold induct, 2598, 923; total yield since 1858, 582, 188, 860; silver mined, 1889, 58, 192 ounces, value, \$47, 873. Copper, iron, ciunabar, and alutinou avist. platinum exist.

## ONTARIO.

HISTORICAL.—In 1615 Champlain visited Lakes Ontario and Nipissing, and in 1671 the district around Lake Huron was taken posses sion of by Perrot. Nlagura founded by La Salle, 1678. In 1749 a fort was built at Toronto. Previous to 1791 country formed a part of Quebec; in that year it was formed into the pravince of Upper Canada. In 1840 it was rumited with Quebec as the United Provinces of Canada; in 1867 it was again separ ded, and as Ontario became a chief province of the confederation

AREA, ETC.—Total number of square niles, 222,000. Leugth from southeast to Length from southeast to northwest, 750 miles; from northeast to southwest, 500 miles. Area of the Ontario frontier waters of the St. Lawrence and its great lakes, about 27,004 square miles. Surface of the

about 27,634 square miles. Surface of the country modulating rather than monataious, and greatly diversided by numerous lakes and rivers. Province has 5,915 miles of railway. CLIMATE.—Temperature at Toronto; Mean anaual, 48,94°; mean winter, 23,23°, extreme, 48°.
London, mean annual, 44,40°; mean winter, 23,23° extreme, 48° average. 23,43°, extreme, -10°; sammer, 66,18°, extreme, 81,1°, Ottawa, mean annual, 49,75°; whiter, 13,33°, extreme, -22,0°; sammer, 66,35°, extreme, 80,5°; average ruinfall for the provioce,

POPULATION.—The most populaus previous of the Dominion. In 1871 there were 1,890,891 inhabitants; 1881, 1,923, 922; 1891, 2,112,-1884, an increase of 186,087 or 9.65 per cent.; native born, 1,716,713; foreign, 463,518.

PRINCIPAL CITIES.—Toronio, seat of provincial government, metropolis of Western Unanada, population, 181,229; Ottawa, seat of Dominion government, center of Untario

Canada, population, 181,220; Ottawa, seat of Dominion government, center of Untario lumber trade, population, 44,151; Hamilton, on Lake Ontario, a prominent railway and manufacturing center, population, 48,980; population London, 31,977; Kingston, an important naval station, population, 19,254.

AGRICULTURE,—Agriculture 18 the chief Industry of the province. Total area of farm lands, 1891, 22,583,983 acres, of which 11,802,847 acres were cleared. Total value of all farm property, \$271,880,098—farm land, \$651,385,293. Area under crops, 7,833,213 acres; under pasture, 2,721,881 acres. Production in 904,34,323. Area under crops, 7,834,213.acres; under pasture, 2,721,281 acres. Production in bushels of staple field crops: Wheat, 82,584,626, value, 89,751,755; outs, 75,009,542, 227,235,485; burley, 18,141,901, 27,125,675; Indian corn, 18,283,034, 25,687,773; buokwheat, 2,608,142, 24,150,191; rye, 1,134,630, \$820,237; peas, 18,823,439, \$11,600,507; heanes, 709,600, \$816,546; pondees, 94,055,546, 27,842,219; turnips, \$8,883,432, \$6,885,345. Hay, 2,392,708 tons, value, \$38,638,

LIVE STOCK, ETC.—Stock raising and dairy-farming are important and growing industries. Total value of live stock on farms, 1801, \$108,721,076, an increase of \$4,634,450 [Governor, an Executive Council of \$ n ever that of 1890. Number of horses, 678,430; and a Legislative Assembly of 90 u swine, 1,155,318; cattle, 1,578,815—773,234 mitch elected every four years. Outarlo cows; sheep, 1,993,751. Number of domestle Senators to the Dominion Senate and fowls, 7,000,000. Wood ellp, 954,525 fleeces, sentatives to the House of Commons.

weighing 5,496,141 pounds, an increase of 923,-441 pounds over the clip of 1890; value, \$1,036,-RUIL. There are 838 cheese factories in operation; total number of pounds of cheese made, 110n; total number of points of cheese made, 1891, 81,929,042, value, \$7,555,484; an excess of 2,504,329 pounds above the product of 1890, and 13,000,000 pounds above the annual average of nine years. Thirty-nine creameries produced 1,402,309 pounds of butter, valued at \$295,559. Of the exports for 1890, animals and their produce constituted over one fourth the total value, or \$6,780,187; cheese, \$2,155,307; eggs, \$1,522,985.
HORTHUULTHEE. — Total area under orchard and garden products, 187,522 acres.

Climate and soil are well adapted to fruit culture, and for many years fruit farming has been steadily growing in importance. The apple orchards of the southwestern counties are extensive and very productive. Pears, plums, peaches, and small fruits of all kinds are abundant. In the district around Niagara and westward to the county of Essex are many large vineyards, orchards, and fruit gardens.

LUMBER, FISHERIES, ETC.—The

forests form une of the chief sources of wealth. Among the exports of 1890 forest products Among the exports of 1890 forest products ranked first in value, the value of the lumber alone being \$4,499,724. In 1898 the province had 1,398 vessels and boats engaged in the fisheries, value, \$217,131; number men employed, 3,049; total value of catch, \$2,000,637. Province ranks first in the extent and value of its manufactures. In 1891 there were \$3,028 industrial e-tablishments, with 185,335 employes. There were nine cotton and 501 woolen mills. MINERA 1 S.—Sndbarg, district contains

MINERALS.—Sudorry district contains extensive deposits of copper and nickel; copper deposits among the richest in the world; silver found at Isle Royal and on the shores of Lake Superior, production, 1889, 181,689 ounces, value, §162,300; iron of excellent quality is abundant; gold, galena, and zine exist. Petroleum discovered, 1802; most productive districts. Oil Springs and Petrola; production, 634,991 barrels; 13 reflacries in the province. salt largely produced, value of product, 1889, \$173,547. Mica, serpentine, granite, numble, and sandstone exist in inexhaustible quantities.

EDUCATION. - Control of education is vested in the Minister of Education. Compulsory law for children between 7 and 13. There sory law for chidren between 7 and 18. There are 5.569 public schools, 15 high schools, 68 county model schools, 8 normal and provincial model schools; school population, 615,333; number pupils, exclusive of those in colleges and private schools, 514,394. Receipts for public school purposes, 54,456,332. Under the control of the Department of Education are 294 mechanics' institutes and free libraries. 204 mechanics' institutes and free Ebraries, with \$39,000 books and members.

GOVERNMENT,—The public affairs of the province are administered by a Lieutenant Governor, an Executive Council of 8 members, and a Legislative Assembly of 90 members, elected every four years. Outarlo seads 24 Senators to the Dominian Senate and 92 Repre-

HISTORICAL.—Territory discovered by Sebastian Cabot, 1497; first settlement by Europeans made, 1541, near Quebec, under Cartier; permanent settlement made in 1698, by Freuch upon the present site of the city of Quebec. Country held by French until 1750, when it was taken by the British. Province divided into Upper and Lower Canada in 1792, reunited as United Provinces of Canada, 1840; separated and entered the Dominion as Quebec

and Ontario, 1867.

AREA, ETC.—The province has an area of 228,900 square miles. Length varies from 700 to 1,000 miles; breadth about 300 miles. The to 1,000 infles; breath about our like a surface of the country is exceedingly varied and picturesque. Principal monulains, the country beauty the Laurentian Range. The and picturesque. Principal indulgans, the Notre Dame and the Laurentian Range. The province is well watered by numerous large rivers, huys, and lakes. St. Lawrence River, the great natural feature, together with its many important tributaries, drains the entire country. The river is remarkable for great natural beauty throughout its entire length. Number niles of railway. 2,782.

natural beauty throughout its entire length. Number niles of railway, 2.702.

CLIMATE.—Temperature at Montreal; Mean whiter, 16.7°, extreme, — \$5.9°; summer, 62.3°, extreme, 30.3°; Quebec, winter, 15°, extreme, —24.7°; summer, 62.3°, extreme, \$6.3°. Rainfail, Montreal, 21.35 inches; snow, 169.2 inches; total precipitation, 36.27. Quebec, rain, 19.99; snow, 176.3; total, 87.59.

POPULATION.—Population of the province in 1871, 1,191.518; in 1881, 1,359,027—increase, 187,511, or 14.05 per cent. 1891, 1,488,336—increase, 129,530. or 9.53 per cent. Native born, 1,405,614; foreign, 82,027.

PRINCIPAL CITIES.—Montreal, the commercial metropolis of Canada and principal commercial metropolis of Canada and principal commercial metropolis of Canada and principal canada.

commercial metropolis of Canada and principolynerist anertypos of camera and princi-pal port A entry, population, 216,830; Quebec, the cupiled of the province, is the most historic city of the Dominiou, population, 63,030; Hull, an huportent city on the Chaudiere, opposite Orange, with which the connected by a suspension bridge, population, 11,255; Sherbrooke, a prominent manufacturing point, population, 14,110; Three Rivers, the center of an importantiomber trade, population, 8,334; population, of Levis. 7,801.

AGRICULTURE, ETC .- Soil fertile and capable of a high extent of cultivation. Cereals, grasses, root crops, and most fruits of the grasses, root crops, and most fruits of the temperate zone are produced in abundance, Latest reports give wheat production, 2,019,-014 bushels; barley, 1,751,559 bushels; oats, 19,507,205 bushels; rpc, 459,242 bushels; peas and beans, 4,170,456 bushels; buckwheat 2,941,-670 bushels; core, 888,199 bushels; potatoes, 14,873,287 bushels; burnips, 1,872,476 bushels; bay, 1,012,104 bons; grass and clover seed, 119,-306 bushels; boacco, 2,855,861 pounds; heps, 219,542 pounds. Stock raising and dairy farming are among the promisent indistricts of ing are among the prominent industries of the province. Among the exports, animals and their produce runk first, value, \$15,178,400; of which \$7,207,050 represented the cheese ex-ported. Total number cheese and inter-factories in operation, 672. Value of agricultural products exported, \$3,500,000.

FORESTS.-The immense tracts of forest land lurnish a large revenue to the province and a great industry for the people. The lumber of the people is an important one product in 1880. and a great industry for the people. The lumber trade is an important one, product in 1889, 519,408,800 feet, board measure, and 680,199 cubic feet of timber. Since 1867 the total product has been 11,178,516,519 feet, board measure, and 70,272,572 cubic feet of timber; dues collected, \$10,181,308. Value of forest products exported, 1890, \$11,762,750 - \$5,968,559 lumber and \$8,208,459 timber.

FISHERIES. Quebec has extensive and valuable fisheries. In 1890, there were 3,249 vessels and boats and 11,867 men ragnaged in the industry; total value of the catch. \$1.615.

the industry; total value of the catch, \$1.615,-120; total value since 1860, \$41,140,169. Those

120; total value since 1880, \$41,140,169. Those of the St. Lawrence are especially valuable; they consist principally of cod, haddeck, hallbut, schmon, mackerel, shad, whitefish, herring, and lobsters.

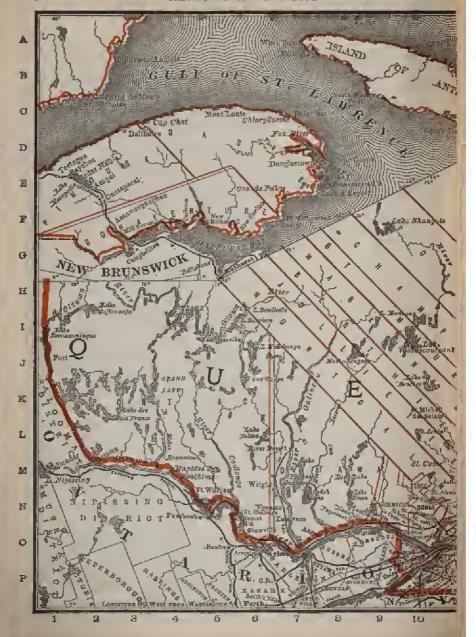

MINERALS.—Province rich in mineral wealth. Value of gold mined in 1889, \$1,100,159; output of silver, 148,517 onaces, value, \$133,666. Copper is abundant in the cast; from widely distributed throughout the province; bund give and patitions are existing tachages. lend, zine, and platinum are obtained; asbestos industry rapidly increasing in importance, value of product, 1888, 8-26.551; phosphate of lime deposits extensive; \$355.95 worth shipped to England, 1889. Coal is oot found, but peat is alundant

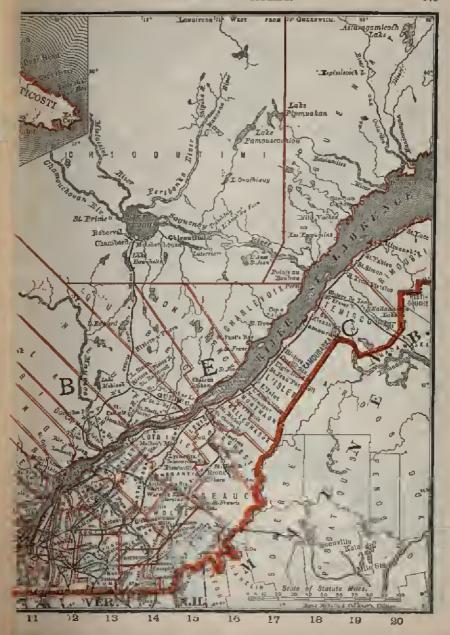

MANUFACTURES .- Quebecranks second in the Dominion in the value and importance of manufacturing industries. Total number of industrial establishments, 23.112; capital invested, \$116.003.58; mumber of employés, 110.839; wag s paid, \$30,670.93; cost of materials used, \$85,671,928; value of products, \$153.195,189. Among the most important of the manufactories are 5 cotton mills with 3,323 one inaduraciories are o cotton fills with 3,23 employés; 18 paper mills, 1,390 employés; 135 formiries and machine shops, 4,021 employés; 363 flouring and grist mills, 1,617 employés; 1,919 saw mills, 18,943 employés; 4 sugar re-fineries; 1,545 employés. EDUCATION.—Quebec schools are under

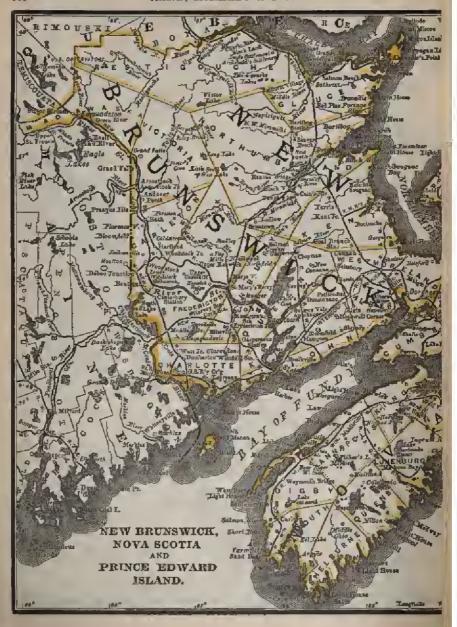

the control of a Superintendent of Education, assisted by a council of 35 members. Education is based on religious teaching, the catechism in the Roman Catholic and the Hible in the Protestant schools being text-books. Total number schools, academies, colleges, and universities, 5,321; pupils and students, 253,125

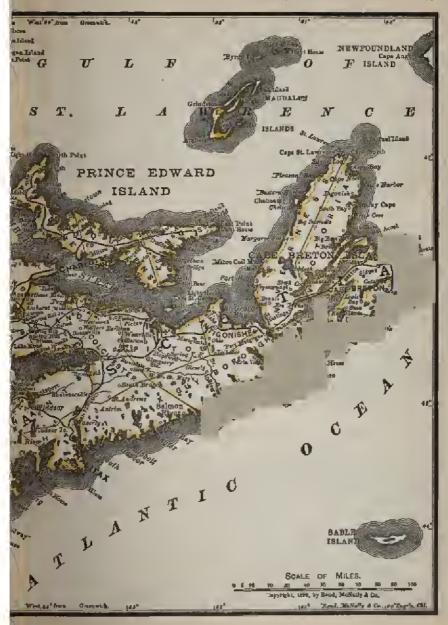

—34,215 Protestant, 223,005 Roman Catholic. Average attendunce at public, high, and model schools, 177,808; proportion, 65,47 per cent., a greater percentage than in any other products.

GOVERNMENT. The public affairs of the province are vested in a Lieutenant Governor, appointed by the Governor General of the Dominion, an Executive Council of 8 or the bolimion, at Execute Council of 2 members, a Legislative Council of 2 members, appointed for life, and a Legislative Assembly of 65 members, elected by the people every byears. The province has 24 Senators in the Daminion Senate and 65 Representatives in the Member of Country the House of Commons

## BRUNSWICK.

HISTORICAL - First settled by the French in 1639. Constituted part of Acadia or New France until 1713, when it became a British possession. Became asceparate colony, 1784; entered the Dominion, 1807. Government administered by a Lieutenant Governor, an Executive Conocil of 7 members, a Legislative Council of 17 members, and a Legislative Assembly of 41 Representatives. Number Senators la Dominiou Squate, 10; members of the House of Commonst 18

the House of Commons, 18.

AREA AND CLIMATE.—Number of square miles, 28,200; extreme length, 250 miles; breadth, 190 miles; coast line, about 500 miles. Temperature at Fredericton; Mean winter, 17.3°, extreme —31°, summer, 62°, extreme, 91.7°; rainfall, 45 biches.

POPULATION, ETC .- In density of pop-

plation New Brunswick runks third. Number of inhabitants, 1851, 285,594; 1891, 321,239; 1891,

of inhabitants, 1811, 285,359; 1831, 221,223; 1831, 221,220. Fredericton, the capital, population, 6,502; 85, John, the commercial metropolis, population, 93,179. Number pupils enrolled in achools, 68,221; average attendance, 73,482. Miles of railway in operation, 1,421, RESOURCES AND INDUSTRIES.—Climate and soil adapted to agriculture and stock-raising. Cereals, root-crops, garden-vegetables, and fruits are abundant. Value of forest products, \$1,341,121. Shipments: Deals, 369,031,274 feet; square thuler, 416,450 cubic feet. Fisheries employ 5,552 vessels and cubic feet. Fisherles employ 5.542 vessels and boats, and 11,139 men; value of products, \$4,699,055. Number industrial establishments. 5,419; capital, \$16,608,755; value of products, \$23,685,636.

### NOVA SCOTIA.

HISTORICAL.—Country visited by Cabot, 556, Number schools, 2,300; papils, 193,888; ex1487; first settled by French at Port Royal, pealitures, \$612,919. There are RU miles of [Annapolls], 1604; ceded to Great Britain, 1713; railway in operation. Nova Scotia entered the Dominion, 1867. Government administered by a Lieutenant Hoveruor, an Executive Council of 7 members, a Legislative Council of 17 members, and a Legislative Assembly of 38 members. Province represented in the Dominion Senate by 10 Senators; in the House of Commons by 21 members.

AREA AND CLIMATE.-Area, AREA AND CLIMATE.—Area, 20,600 square miles; extreme length of mainland, 350 miles; greatest irreadth, 120 miles; coast line, 1200 miles; death irreadth, 120 miles; coast line, 1200 miles; death irreadth, 120 miles; coast line, 1200 miles; death irreadth, 1200 miles; death irreadth, extreme, 33°; rainfail, 56.02 inches.

POPULATION, ETC.—Province ranks second in density of population; preportion, 21 persons to the square mile. Total population, 1871 387, 2800; 1881, 440,572; 1891, 450,523. Halifax, the capital and chief city, population, 38,

railway in operation.
AGRICULTURE, ETC.—Soil unsurpassed. for fertility. Excellent crops of the cereals, potatoes, turnips, and hay, are produced. Fruits grown hear a high reputation for excellence; climate favorable to the production of all fruits common to the temperate

RESOURCES AND INDUSTRIES.— Fisheries employ 14,290 vessels and beats, with 27,674 men; value of catch, 1890, 56,536,445, Vast tracts of woodland which produce great quantities of timber for ship-building and the quantities of timber for ship-building and the manufacture of humber. Area of coal fields, 685 square nailes; output, 1889, 1,067,032 tons; value, \$3,073,483. Qold discovered, 1860; since then total yield has been \$4,462,763; yield 1889, \$510,029. Industrial establishments number 19,373; capital, \$19,007,614; employés, 34,265; products, \$30,243,649.

### PRINCE EDWARD ISLAND.

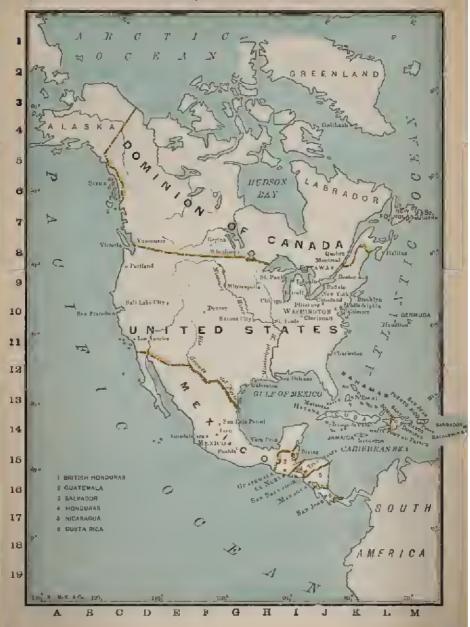

HISTORICAL. — Island discovered by Cabot, 1997; visited by Cartier, 1834, who named it lists of St. John. First settled by the French, who ceded it to Great B itain, 1758. Attached to Nova Scala until 1768. Name changed to Prince Edward, 1799; responsible government granted, 1851; entered the Confederation, 1873. Government vested in A Lieutenant Governor and an Executive Constitution of the Confederate Council of Islanguistics and a cil, a Legislative Council of 18 members, and a Legislative Assembly of 30 Representatives. Province has 4 Senators in the Dominion Senate, and 6 members in the House of Commons.

AREA AND CLIMATE.—The smallest

of the provinces; area, 2,000 square miles. Length, northwest to southeast, 105 miles; breadth varies from 4 to 31 miles. Temperature: Mean winter, 16.9°, extreme, -21.4°; summer, 61°, extreme, 82.5°.

POPULATION, ETC.—Density of population more than double that of any other province; proportion, 51 persons to the square mile. Number of inhabitants, 1871, 24,021; 1881, 168,881; 1891, 162,680. Capital, Charlottetown, has one of the finest harbors in the world, population, 11,874; population of Summerside, 2,763. Number public schools, 433; pupils, 22,005; average attendance, 13,089. Province has 211 miles of rallway in operation. RESOURCES AND INDUSTRIES.—Chief agricultural productions, wheat, oals, barley, potatoes, and turnips. Much attention paid to the rearing of farm animals. Value of total exports, 1896, 5875,004; over one-third the sum, or 3366,675, the value of animals and their preduce; value of eggs exported, 5,355,490. Fisheries second in importance; value of total catch, \$1,041,162, value of exports, \$187,743. POPULATION, ETC.-Density of popu-

catch, \$1,041,109; value of exports, \$187,743.

## ONTARIÓ.

HISTORICAL—In 1615 Casseylain visited Lakes Outarno and Nipissing, and in 1671 the district around Lake Hurces was taken possession of by Perrot. Niamera founded by La Salle, 1678. In 1783 a fort was built at Toronto. Previous to 1791 country formed a part of Quebec; in that year it was formed into the province of Upper Canada. In 1840 it was reunited with Quebec as the United Provinces of Canada; in 1967 it was again separ stell and as Ontario became a chief province of the confederation

AREA, Eff.-Total number of square miss, 222,000. Length from southeast to northwest, 750 miles; from northeast to southwest, 500 miles. Area of the Untario frontier waters of the St. Lawrence and its great lakes. about \$7,004 square miles. Surface of the country undolating rather than mountainous.

country undeflating rather than mountainous, and greatly diversified by numerous lakes and rivers. Province has 5,945 miles of railway.

CLIMATE. — Temperature at Toronto:
Mean annual, 43,91°, mean winter, 23,27°, extreme, — 9°; summer, 64,53°, extreme, 88°. London mean annual, 44,70°, mean winter, 23,48°, extreme, — 10°; summer, 66,18°, extreme, 83,1°, oftawa, mean annual, 44,75°; winter, 12,33°, extreme, — 22,0°; summer, 66,35°, extreme, — 12,0°; summer, 66,35°, extreme, — 12 treme, 85.6"; average rainfall for the province,

28.14 Inches.
POPPLATION.—The most populous province of the Dominion. In 1871 there were 1,20,851 inhabitants; 1881, 1,225,922; 1891, 2,112,-1893, an increase of 185,057 or 9,65 per cent.; native born. 1,710,708; foreign, 463,618.
PRINCIPAL CITIES.—Toronio, seat of provincial government, metropolis of Western Canada, population, 181,230; Ottawa, seat of Dominion government, center of Ontario lumber trade, population, 44,154; Hamilton, on Lake Ontario, a prominent railway and manufacturing center, no pulsation, 48,380; non-manufacturing center, no pulsa manufacturing croter, population, 8,890; population London, 31,977; Kingston, an important payal station, population, 19,231.

AGRICULTURE, — Agriculture is the

chief industry of the province. Total area of farm lands, 189, 22,533,983 acres, of which 11,992,847 acres were cleared. Total value of 11.505.54 property, \$971,886,068—farm land, \$671,845,223. Area under crops, 7.834,213 acres; ander pasture, 2,721,281 acres. Production in ander pasture, 2,721,281 acres. Production in bushels of staple field crops: Wheat, 32,384, 026, value, \$30,731,755; oats, 75,009,542, \$27,378. 481; barley, 16.141.00; \$7.95.655; Indian corn, 18.28.039, \$5.687.773; buckwheat, 2.608.143, \$1.150.191; rye, 1.134.630, \$890.37; peas 18.282, 428, \$11.60.307; beans, 769.650, \$816.546; poundoes, 21.055.881, \$7.842.219; turnips, 68.833, 432, 56.650, \$10.507; buckwheat, 2.6833, 432. \$6,885,845. Hay, 2,392,796 tone, value, \$25,498,-

LIVE STOCK, RTC .- Stock-raising and lairy-farming are important and growing industries. Total value of live stock on farms, industries. 1891, \$108,721,076, an increase of \$4,634,450 over that of 1830. Number of horses, 678,459; over time of 1820. Animer of noises, 5,8,439; swine, 1,156,316; cattle, 1,978,615—773,234 milch cows; sheep, 1,663,751. Number of domestic finds, 7,000,000. Wool clip, 954,522 fleeces,

weighing 3, 69,141 pounds, an increase of 223,-431 pounds over the clip of 1950; value, \$1,006,-There are 3.25 cheese factories in operation; total number of pounds of cheese made, 184, 81,583,062, value, \$1,586,684; an excess
of 2.162,735 younds above the product of 1990,
and 12,602,000 pounds above the annual averace of since years. Thirty-nine creameries
produced 1,582,500 pounds of butter, valued at 50%,558. Of the exports for 1850, animals and these produce constituted over one-fourth the total value, or \$6.7% 137; cheese, \$2,155,307; PEN \$1.20 845

HORTICULTURE. - Total area under orchard and garden products, 182,832 acres. Climate and soil are well adapted to fruit culture, and for many years front farming has been stendily growing in importance. The apple orchards of the southwestern counties are exovernaris of the southwestern counties are ex-tensive and very productive. Pears, pluns, peaches, and small fruits of all kinds are abundant. In the district around Niagara and westward to the county of Essex are usury large vinerards, orchards, and fruit gardens. LUMBER, FISHERIES, ETC.—The

forests form one of the chief sources of wealth.

Among the exports of 1800 forest products ranked first in value, the value of the lumber above being \$6.437.78. In 1800 the province had 1.328 vessels and boats engaged in the fisheries, value, \$217,131; number men employed, 3,043; total value of catch, \$2,009,637. Province ranks first in the extent and value of its manufactures. In 1991 there were \$2,000 industrial e-tablishments, with 165,535 employes. There were nine cotton and 301 woolen milks.

MINERALS .- Sudbary district contains extensive deposits of copper and nickel; copper deposits among the richest in the world; silver found at Isle Royal and on the shores of Lake found at Ise reyn about 10.

Superior: production, 1880, 181.609 ounces, value, \$102.309; iron of excellent quality is abundant; gold, galena, and sinc exist, troleum discovered, 1862; most productive dis-tricts, Oil Springs and Petrolia; production, 659,991 barrels; 13 refineries in the province. Sall largely produced, value of product, 1889, \$17254. Mica, serpentine, granite, marble, and sandstone exist in inexhaustible quantities.

FDTCATION, - Control of education is vested in the Minister of Education. Compulsory law for children between 7 and 18. There are 5.569 public schools. 115 high schools, 58 county model schools 8 normal and provincial model schools; school population, 515,533; number pupils, exclusive of those in colleges and private schools, 514,303. Receipts for public school purposes, \$4,43,382. Under the control of the Department of Education are 291 mechanics' institutes and free libraries, with 330,000 books and members.

GOVERINME.NT. - The public affairs of the province are administered by a Lieutenant Concerns at Executive 19.

Governor, an Executive Council of 8 members. and a Legislative Assembly of 90 members, elected every four years. Ontario sends 24 Senators to the Dominion Senate and 92 Representatives to the House of Commons.

# QUEBEC.

HISTORICAL.—Territory discovered by Sebastian Cabot, 1407; first settlement by Europeans made, 1541, peur Quebec, under Cartier; permanent settlement made in 1608. by French upon the present site of the city of Quebec. Country held by French until 1759, when it was taken by the British. Province divided into Upper and Lower Canada in 1782, reunited as United Provinces of Canada, 1840; separated and entered the Dominion as Quebeo

and Ontario, 1867.

AREA, ETC .- The province has an area of 228,000 square miles. Length varies from 700 to 1,000 miles; breadth about 800 miles. The to 1,000 miles; breathn about our interesting surface of the country is exceedingly varied and picturesque. Principal mountains, the Yotze Barna and the Laurentian Runge. The and proutesque. Frincipal maintains, the Notre Dame and the Laurentian Range. The province is well watered by numerous large rivers, bays, and lakes. St. Lawrence River, The great natural feature, together with its many important tributaries, drains the entire country. The river is remarkable for great natural beauty throughout its entire length.

natural beauty throughout its entire length. Number miles of railway, 2,762.

CI.IMATE.—Temperature at Montreal: Mean winter, 16.7°, extreine, -25.9°, summer, 32.2°, extreme, 90.4°. Quebec, winter, 15°, extreme, -34.7°, summer, 32.2°, extreme, 89.3°. Ralpfail, Montreal, 31.8° inches; sonow, 169.3° inches; total precipitation, 38.2°. Quebec, rain, 19.3°, row, 178.3°, total 37.8°.

19.98; snow, 175.3; total, 37.59.

POPULATION.—Population of the province in 1871, 1,191.516; in 1881, 1,339.927—increase, 167.511, or 14.05 per cent.; 1891, 1,488.886—increase, 129.659, or 9.55 per cent. Native horn, 1,406.514; foreign, 82.921.

PRINCIPAL CITIES.—Montreal, the

commercial metropolis of Canada and princlpal port of entry, population, 218,850; Quelice, the capital of the province, is the most historic city of the Dominion, population, 63,090; Hull, an important city on the Chaudiere, opposite Ottawa, with which it is connected by a suspension bridge, population, 11,265; Sherbrooke, a prominent manufacturing point, population, 10,110; Three Rivers, the center of an important lumber trade, population, 8,334; population,

of Levis, 7,301.

AGRICULTURE, ETC.—Soil fertile and capable of a high extent of cultivation. Cereals, grasses, root crops, and most fruits of the crasses, root crops, and most frults of the temperate zone are produced in abundance, Latest reports give wheat production, 2,019,041 bushels; barley, 1,751,539 bushels; outs, 19,900,205 hushels; rye, 430,342 bushels; pens and beans, 4,170,456 bushels; bushels; pens bushels; corn, 888,160 bushels; potatoes, 14,873,287 bushels; turnips, 1,572,476 bushels; lay, 1,412,104 fons; prasa and claver seed 110 hay, 1,012,104 tons; grass and clover seed, 119, 306 bushels; tobacco, 2,856,561 pounds; hops, 218,542 pounds. Stock raising and dairy ferming are among the prominent industries of the province. Among the exports, snimals and their produce rank first, value, \$16,178,400; of which \$7,207,550 represented the cheese exported. Total number cheese and butter factories in operation, 672. Value of agricult ural products exported, \$3,500,000,

FORESTS. -- The immense tracts of forest land furnish a large revenue to the province and a great industry for the people. The lumand a great industry for the people. The lumber trade is an important one, product in 1889, 519,408,840 feet, board measure, and 600,199 cubic feet of timber, Sinca 1807 the total product has been 71,173,516,519 feet, heard measure, and 70,279,572 cubic feet of timber; dues collected, \$10,763,568. Value of forest products exported, 1800, \$11,762,750—\$6,988,550 lumber and \$3,268,459 timber.

TISHERIES. - Quebec has extensive and valuable fisheries. In 1890, there were 0,249 vessels and boats and 11,307 men engaged in the industry; total value of the catch, \$1.615,-120; total value since 1869, \$41,140,169. Those of the St. Lawrence are especially valuable; they consist principally of cod, haddock, halibut, salmon, mackerel, shad, whitefish,

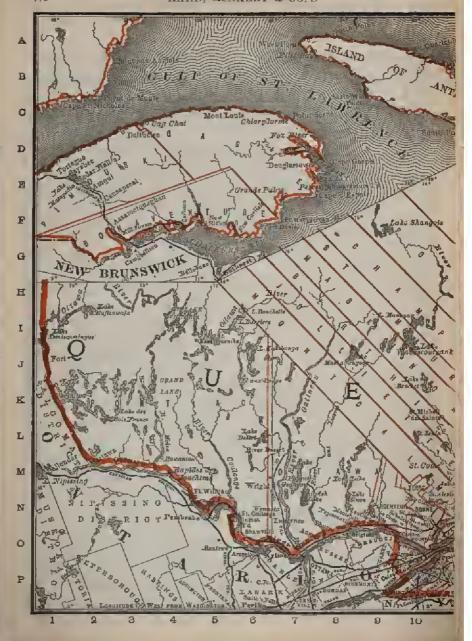

herring, and lobsters,
MINERALS.—Province rich in mineral
wealth. Value of gold julied in 1889, \$1,100. 155; output of silver, 148,517 ounces, value, \$133,606. Copper is abundant in the east; iron widely distributed throughout the province; watery this instead into aground the showing lead, albe, and platinum are obtained; asbestos ludustry rapidly hereasing in importance, value of product, 1889, \$426.564; phosphate of lime deposits extensive; \$335,935 worn is shipped to England, 1889. Coal is not found, but peat

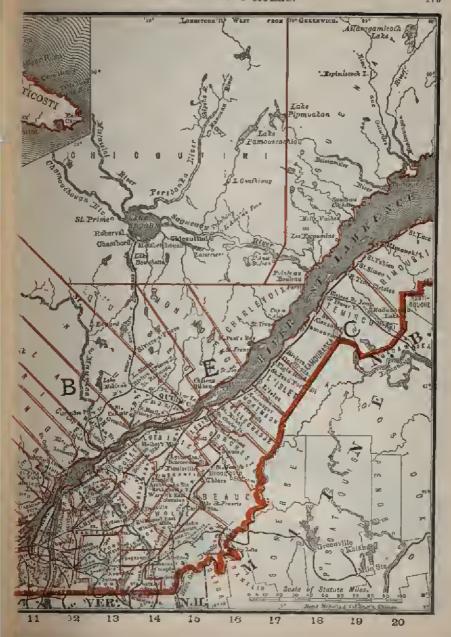

MANUFACTURES .- Quebecranks second in the Dominion in the value and importance in the Dominion in the value and importance of manufacturing industries. Total number of industrial establishments, 23.112; capital invested, \$116,890,381; number of employés, 116,890; wag s pald, \$30,670,991; cost of materials used, \$85,871,982; value of products, \$153.195,189. Among the most important of the manufactories are 5 cotton mills with 8,723 employés; 18 paper milis, 1,396 employés; 155 foundries and machine shops, 4.024 employés; 863 fleuring and grist milis, 1,617 employés; 1,919 saw mills, 13,045 employés; 4 sugar re-

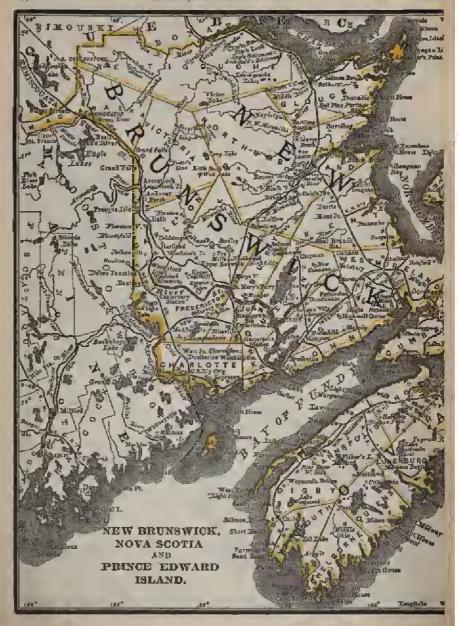

fineries, 1,545 employés.

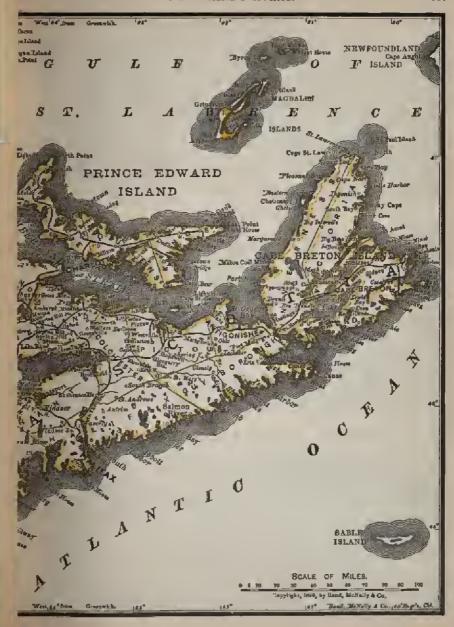

EDUCATION.—Quebec schools are under the control of a Superintendent of Education, assisted by a council of 35 members. Education is based on religious teaching, the catechism in the Roman Catholic and the Bitle in the Protestant schools being text-books. Total number schools, academies, colleges, and universities, 5,321; pupils and students, 259,125—34,215 Protestant, 283,005 Roman Catholic. Average attendance at public, high, and model schools, 177,806; proportion, 69.47 per cent., a greater percentage than in any other

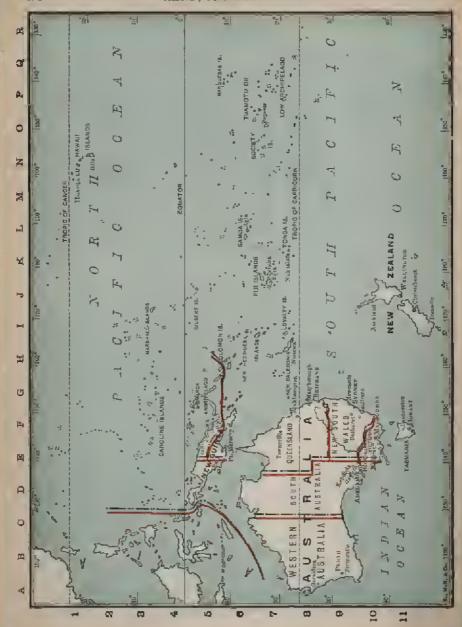

GIVERNMENT.—The public offairs of the province are vested in a Liputement Governor, appointed by the Governor General of the Dominion, an Executive Council of 8 members, a Legislative Council of 24 members, appointed for life, and a Legislative Assembly of 65 members, elected by the people every 5 years. The province has 21 Senators in the Dominion Senate and 65 Representatives in the House of Commons.
